#### PRINCELY PLEASURES.

The London Standard prints a letter from a contributor who thinks that princes and princes' families should be made to obey the law like other people.

It seems that several members of the family of the Prince of Wales disregarded the law relative to the close season by fishing.

The family were holding what they called a royal pionic, and probably did not suppose that royal privileges could be restricted by law.

If things go on in this way much longer the position of a prince will be of little advantage, and it certainly has some discomforts.

If Albert Edward were not Prince of Wales there would no objection to an occasional game of baccarette.

On the other hand, he might find it more difficult to borrow money than he now does.

MINNESOTA editors are greatly exercised over a bill which has passed the state senate. The measure provides that all articles, editorials, items or written accounts printed in any pamphlet, periodical, magazine, newspaper, sheet, dircular or handbill which and some of its inhabitants are quite shall therein purport to give an account of or give intelligence of any political, official, personal or social act, writing or speech of any human being, living or dead, reflecting in any way upon such person's character, shall be shidred subscribed by the full name of the per-

son or persons who shall have written or contributed to such publication. The penalty for violation of this law is a fine of not less than twenty dollars or SECRETARY FOSTER'S REPORT more than \$100, or imprisomenut for not less than thirty days or more than three months.

ALD remarked the contrast between the number of Pottsville men selected for jury duty and the number selected Notice is especially directed to the first that, in accordance with the provisions of the last mea-tioned act, each Scanforial district is entitled to a representation of three delegates in said Conremarks until last night. He shows that out of 316 names last drawn, 54 are those of Pottsville men and Shenandoah has 20 and adds that "Shenandoah has no right to complain." Shenandoah does not complain, It protests. The people of Shenandoah are not looking after jobs on juries, they simply want the editor of the Chronicle and his kind to understand that they protest against the county officials nursing a gang of Court House suckers. There is no town in the county that borders more closely upon Suckerdom than Pottsville and there is no county in the Union that tolerates petty suckers than Schuylkill. When jurors are drawn Pottsville is always in the lead. According to the Chronicle's figures Pottsville, with a population of over 2,000 less than Shenandosh, leads with the jurymen by close upon 300 per cent. It may, or may not surprise the Chronicle to know that there are Pottsville men working in Pottsville establishments who do jury duty during the day and follow their regular vocation at night; and, in a certain establishment of that town, the workmen have an arrangement by which men take turns in doing the work of each to enable the filling of the jury box. The jury system of Schuylkill county is rotten and it is surprising that the editor of the Chronicle cannot smell it when it it fumes directly beneath his nostrils. Perhaps he is suffering from a convenient cold. We repeat that Potisville is the Sackerdom of Schuylkill prominent, too.

# THE PUBLIC DEBT

UNDER HIS NEW SYSTEM.

THE SURPLUS IS NOW \$53,853,808

ABOUT three months ago the HER- No Change in the Interest Bearing Debt of the Government-The President Will Take His

Vacation To-morrow.

By National Press Association.

Washington, July 4. - The monthly public debt statement has been issued in an entirely new form. It combines both the Secretary's statement of the public debt and the Treasurer's monthly statement of assets and liabilities, heretofore issued separately,

Comparison with the last monthly statement and the statement irsued July 1, 1890, shows an increase in the public debt during the past mouth of about \$5,000,000, and a not reduction during the past fiscal year of \$22,000,000.

The surplus in the Treasury to-day in the new form of statement is placed at \$58,853,808, or about \$5,000,000 less than a month ago, with no change in the in-terest hearing debt of the government during the past month. The bonded during the past month. The bonded debt to-day is \$610,529,120, made up in round numbers of \$560,000,000 4s, and \$50,500,000 4 1-2 per cent, bonds.

Secretary Foster Explains. Secretary Foster gave out the follow-ing statement explanatory of the changed form of the monthly debt statement and

the daily statement of cash in the Treasury, which will hereafter be issued:
"Heretofore the manner and make-up of the monthly statement required the showing of an increase or decrease in the public debt. Under this form it has happened on several occasions that when large purchases of bonds were made the statement following would show an in-crease of the public debt, when a reduc-tion had really been effected. This was owing to the fact that the principal and premium paid for bonds reduced the cash on hand beyond the amount of bonds actually redeemed.

"The Secretary has concluded after

the statement of the debt from the statement of the cash in the Treasury. Here-after the statement of the cash on hand will show the net increase or decrease from month to month and this statement will be a part of the form now adopted.

'In making the net statement of the cash in the Treasury the figures will plainly show the different kinds of money included in the total. Against this total will be stated the cash liabili-ties. This part of the new form will take the place of the assets and liabilities statement, heretofore issued by the

former debt statements the accrued interest and interest due and unpaid have appeared as current liabilities. The items have been eliminated. The Secretary holds that if accrued interest may be charged as a liability against cash, then with equal propriety accrued salaries can be so charged, or in like manner the accrued liability of the construction of public buildings or of the

improvement of rivers and harbors.

"The matured debt item is made up of the remnant of the bonds and other forms of indebtness remaining unpaid from the foundation of the government. It is assumed that less than 25 per cent of these will ever be presented for payment. They are now, as heretofore, carried on the debt statement, but not as liability against cash."

#### July Pension Payments.

Washington, July 2.—With this month the new law in relation to the payment of pensions goes into effect. Instead of of pansions goes into effect. Instead of the Treasury paying out quarterly \$30,000,000 or \$40,000,000 to the Pension Department, the payments will be made monthly on the 4th of each month. The country is divided into four divisions of six agencies, and each division is paid quarterly, thus taking about \$10,000,000, each mouth. The payments for July will amount to between \$10,000,000 and \$11,000,000 and will be paid July 4. \$11,000,000 and will be paid July 4.

A Clothing Clerk Steals his Employer's Money.

Rouben Win, a young German 19 years of age, was before 'Squire Williams this morning, charged with robbing his em ployer, J. Colles, the South Main street clothier and dry goods dealer. While Mr. Coffee was absent yest rday afternoon Win stole \$471.50 from a drawer of a bureau in a sitting-room at the rear of the store.

Mrs. Coffee caused the arrest of the clerk this morning and Policemen Conners, Davis and Williams took charge of the clerk. In the pocket of a cost hanging in Win's room Policemon Williams and Davis found \$170 in gold and \$1,50 in silver. Mr. Obffee found 8105 secreted under the bureau in the sitting-room and the accused showed Policeman Conners where the balance of the money was hidden under the counter in the store.

Win, when first arrested, pleaded innoence, but subsequently broke down and admitted all. He wept bitterly and made promises of reform if released. The young man said it was his first crime and that he respectably connected in Lykens. He also said that he worked in the Delane shops a short time ago. He was engaged by Mr. Coffee about a week ago. Squire Williams committed him in default of \$1,000, but the indications this afternoon pointed towards a speedy settlement of the
