AFFAIRS CAUGHT HASTILY.

What News Gatherers Take a Moment to Tell About.

The frosty nights will soon nip vegetation.

Glass preserving jars continue scarce.

Even women who do not fancy work do fancy work.

Yesterday the town was lively with commercial drummers.

Apples, pears and all fruits in season are over abundant.

The merchant who advertises is the one who will be in the swim.

New fall and winter goods are arriving and the merchants are busy.

The big corn crop keeps growing. The hope is it may fill out full.

Soon the progressive, thrifty farmers will buy their stock cattle.

The police should stop ball playing on the streets. It is a dangerous sport.

The tide of commercial men has set in again and business is reported good.

So far as enjoying salt water sail is concerned, it is all up with the man who is sea sick.

Political matters are quiet, thus far, but there will likely be a warming up of affairs before the final roundup.

Crooks of all classes seem to be getting in their work just now as though they anticipated a hard winter.

The demand for school books has been so great the past week that some of the booksellers are out of some of the series.

Some of our merchants have completely sold out their jars, jugs, crocks, etc., many of them having been in stock for several years.

Did you ever see better pears or peaches in market? Nature seems to have turned her cornucopia mouth open towards the earth.

The latest health remarkable discovery is that it is wrong to wipe your face downward with the towel after washing, as most people do. The correct way, according to this authority, is to wipe upward with the towel. So.

WEATHER CROP BULLETIN.

The Rainfall Greater than Usual in the New England States.

WASHINGTON, Sep. 8.—The weather crop bulletin of the weather bureau for the month of August, just issued, says the month was warmer than usual on the Atlantic coast, in the lower lake region, Michigan and in all States on the Pacific coast, but it was cooler than the average temperature for August throughout the central valleys.

The excess in temperature amounted to about 2 degrees per day in Southern New England and southeast New York, and ranged from 2 degrees to 4 degrees per day on the Pacific Coast. In the west portion of the cotton region and thence northward to Iowa the deficiency in temperature amounted to about 2 degrees per day.

Frosts occurred in the extreme northward at about the usual time near the 20th, but the wheat crop was so well advanced that only very slight damages occurred in the extreme northern portions of Minnesota and North Dakota. Frost reached the northern boundary of Iowa, but reports generally indicate that no material injury resulted to the corn crop.

During the month of August the rainfall was greater than usual in the interior of New England and the Middle Atlantic States from Virginia southward over South Carolina, the heaviest rains occurring in the last named States, where the total precipitation ranged from six to eleven inches. The rainfall was also in excess from the lake region westward to the Pacific coast, along the northern boundary of the United States, and in the States of the Central Mississippi valley.

The Social Science Association.

SARATOGA, N. Y., Sep. 8.—The topic before the American Social Science Association during the day was the department of social economy. Prof. Jenks of Cornell read a paper on "The Possibilities of Trade Unions," and was followed by Samuel Gompers with a paper on "Trade Unions: Their Achievements, Methods and Aims." Prof. Edward W. Bemis of Vanderbilt University, Nashville, read a paper on "The Relation of Trades Unions to Apprentices," and F. J. Kingsbury of Waterbury, Conn., gave his views on labor organizations generally.

MONEY FOR THE FAIR.

Congress to be Asked For a Loan of At Least Five Millions.

CHICAGO, Sep. 8.—Congress is to be asked to loan the World's Columbian Exposition \$5,000,000 at least, and perhaps \$7,000,000. That is the decision of the National Commissioners, and the Chicago directors are giving them strong moral support.

For two days a special committee has been holding sessions, discussing the best policy to pursue in getting the loan. This committee is composed of Gen. St. Clair of West Virginia, and G. V. Mossey of Delaware, both influential members of the National Commission; Director-General Datus, and Directors Gage, Baker and Jeffery.

All are agreed that Congress ought to make the loan, but how to get it is the question now under discussion. Many of the members declared that Congress should make an outright appropriation of at least \$5,000,000. They argue that the United States has more at stake than the city of Chicago and should be liberal and magnanimous. Six million dollars have already been secured by popular subscription and the city of Chicago has issued bonds for \$5,000,000 more.

ZOLA'S SENSATION.

France and Germany Find that War Must Soon Come.

PARIS, Sep. 8.—An article by Zola in the Figaro, proclaiming the necessity of wiping out Sedan, is the sensation of the day. Zola says:

"France is ready and henceforth has nothing to fear. Time has worked for us against our enemies. Germany is at her apogee of power. Already one almost hears the voice of the tempest that it will sweep away another imperial dynasty and cause to totter a nation that has put forth its utmost efforts. Its best days are over. France, surviving Sedan and drawing strength from defeat, is invincible."
