# COUNCIL MEETING

THE NEW STREET COMMITTEE MAKES A REPORT.

SOME PLAIN TALK INDULGED IN

An Expensive and Thus far Worthless Stone Crusher. More Hose to be Supplied Two Companies.

Messra, Gable, Betteridge, Amour, Devers, Wurm, Holman, Coakley, Hopkins, James and Lamb were the members present at the regular meeting of the Borough Council last evening. Messrs. Portz and Scheifly were not present. If they had been there would probably have been a lively exchange of arguments, as the remarks made by the new members of the street committee regarding the transactions of the old members were of a very

saustio character. Mr. Gable was ill from the effects of a ramp and Mr. Hopkins served for him as chairman.

When a report from the street committee was called for Mr. Holman answered that held at Swanses, August 18, 19, 20 and 21, the committee, as reorganized, had accomin a large pavilion, erected especially for plished more work during the past two the occasion in Victoria Park. There were weeks than the old committee accomplished

Mr. Gable confirmed Mr. Holman's relargest ever offered for competition singing two weeks had shown that the old street in the N-tional Eisteddfod of Wales. On comm.ttee had been making a regular gersedd of bards. The presidents were the to it. He recommended that the crushing Rev. Archdeacon Griffliths and Sir T. D. of some be given on contract and hinted pended on the crusher

Mr. Wurm added, "The bills will tell a bigger tale."

Mr. Gable said that it had also been disovered that there was no patent on the creens ordered for the stone crusher, whereupon Mr. Lamb took the floor and declared that it was an outrage that any member of Council should try to hoodwink his colleagues by telling a deliberate lie about the matter. The excuse made for avoiding the home manufacturer and going to Tamaqua to get a small screen was that there was a patent on it "and here is a bill of \$196 for it," concluded Mr. Lamb.

Mr. Gable declared that the amount of the bill was three times the value of the creen. He also contradicted the statement made at the last meeting that Mr. Kurtz, the home manufacturer, did not care about the contract for supplying the screen. "I asked Mr. Kurtz about it," said Mr. Gable, "and he told me that the old members of the street committee had asked him for his terms, but before he could give them the screen was purchased in Tamaqua."

Messre. Lamb and Wurm protested opera house. Monday night, Sept. 7th against teamstars hired for borough work primary. Misses Lillie Phillips and Han

onstable if he was improperly arrested and Uned. The motion to refer the case was lost.

The lamp and watch committee states that a number of citizens were anxious that ouncil should app int one of the paid police for duty in the day time on Sundays after pay days to arrest drunks and other

disorderly characters. Chief of Police Amour said that the reuest was a vindication for the paid police.

It showed that the constables were not doing their duty and it recalled the charges made last spring that the paid police were interfering with the business of the constables, "I stated then," said Chief Amour "and I state now that the police did not

interfere with the constables, but were called upon because the constables could not be found and this request is our windication." Chief Amour concluded by saying that if the constables would keep a sloser watch on the places that sell on Sunday there would be less disorderly characters on the street. At 3 o'clock last Sunday afternoon the chief heard a keg of beer being tapped in a saloon. A citizen asked him why he didn't attend to the matter, but he declined to do so, as the constables are elected and are under bonds for that purpose

It was finally decided that with the present force a policeman cannot be put on day duty on Sunday. A request by Chief Burgess Lessig that a policeman be appointed for regular day duty was squashed by a sentiment that the Chief Burgens had power to make arrests.

Mr. Betteridge complained that the electric light is very irregular in lighting the streets. Matter was referred to the lamp and watch committee.

The Chief Fire Marshal recommended the purchase of 800 feet of fire hove, 500 for the Phoenix and 300 for the Columbia company.

The Chief of Police made the following report for the month of August : 31 arests, an average of one a day; 3 served time; 25 paid fines; 2 released; 1 gave security. Lodgings furnished, 4. Fines collected, \$93.

Mr. Seckleman, of Bethlehem, 107161 resent and made a contract for furnishing S00 feet of "Paragon" hose and was asked to give his opinion on fire plags. The narrative had hardly been commenced when the fire bell sounded an alarm. A moment or two later Councilman Gable was informed that the large stable at the colliery of which he is outside foreman West Shenandoah, was on fire, Council hastily adjourned and decided to meet again this evening to pass upon bills.

WEST SHENANDOAH COL-LIERY STABLE DESTROYED.

MANY VALUABLE MULES PERISH.

AZE.

The Total Loss Will Not Exceed Four Thousand Dollars-The Origin of the Fire Unknown. Incendiarism Suspected.

Thortly after 10 o'clock last night the blowing of whistles at the Turkey Run and West Shenandoah collieries, and the ringing of the fire bell, summoned the fire companies to the last named colliery. The large stable was in fiames. The fire companles were prompt in responding to the slarm, but the building was so incon veniently located it was impossible to do any effective work until the building was boomed. The only fire plug handy was the one at the corner of Cherry and Gilbert streets and the amount of hose re quired was so much the Columbia and Phoenix companies put a Siamese connecion on and made use of the one source of upply.

The stable was 66x40 in size, two storie high, had a corrugated iron roof, and contained fourteen valuable mules, besides about four tons of hay and other feed. The fire raged furiously for about an hour, at the end of which time the firemen had succeeded in getting the flames under control and were pouring streams upon the paring it for market. neap of ruins under the corrugated roof, which was held in position by badly burned upports.

All the mules and other contents of the stable were consumed, but \$4,000 will more than cover the total loss. The colliery officials are at a loss to account for the fire, but think it is a case of incendiary. The stable was destroyed on the 7th of June, 1890. At that time the starting of the fire was attributed to a spark from a locomo tive igniting the wooden roof. When the stable was rebuilt a corrugated iron roof was put on it. The watchman, Evan Butts, says he left the stable at about half past ten working time, to lower some men down the Continental slope. When he returned the stable was in flames. He said he was not absent more than twenty minutes. James Kane, of the L high Valley rail-road, says he walked we tward along the track past the stable at 10:08, slow time, and everything appeared to be all right. When he walked back at about 10:25 the stable was in flames.

George Cox had the thumb of his right hand badly lacerated by a piece from the steam gauge of the Columbia engine.

Firemen of Two States to Meet. The firemen of Pennsylvania and these of New Jercey will hold their respective annual conventions during September. The Pennsylvania State Firemon's Convention is to meet at Lock Haven, September 15th to 18th, and an announcement comes from the Reading Railroad that it will charge only a single fare for the round trip from any of its stations to Lock Haven and back, the tickets being available September 12 to 18 going, and until September 21 returning. To take advantage of the low fare a certificate is required from the ecretary of the association, W. W. Wundar, of Reading. The New Jersey fire-men will hold their fourteenth annual convention at Atlantic City, opening September 29 and closing October 2. A great turnout is expected. For this the Reading Railroad has segreed to charge all comers but a single fare for round trip tickets to

anding idle, w wagons and said that boys are not wanted, but men, and men who are able to do a day's work.

Supervisor Llewellyn said it is impossible to hire a man and a team for \$2.25 a day. The street committee was instructed to make any arrangements in reference to that part as may seem proper.

Tax Collector Schmidt reported that he collected \$208 the past two weeks from Poles and Huns, with the assistance of Policeman Conners, and, on motion, it was decided that the officer be continued in the service until further notice. The finance ommittee was instructed to ask the School Board to help bear the expense of employing the nollcoman.

When a report from the lamp and watch committee was called for there was a spirited debate. Mr. James said that a young Arabian peddler had been arrested by the Polish constable of the Fourth ward and had been sentenced to pay a fine of \$30 and \$5 costs by 'Squire Hugh Thomas. Mr. James alleged that the arrest was an unjust one. That, so far as he was able to learn, the Arabian did not peddle in the town and he was arrested at the instance of some Polish Jew peddlers who wanted to rid themselves of the Arabian's competi-

tion. A motion was made that the matter be referred to the lamp and watch committee for investigation. Mr. Lamb opposed the motion. He claimed that it was not a case for council to act upon and that the Arabian had his remedy against the 'squire if any blunder was made.

Mr. James said he didn't wish to receive any money that had been blod out of any one. He said he honestly believed the money had been bled out of the Arabian. He also produced the following letter from Squire Thomas to the Arabian :

Mr. George Asid. "Sin: You will please call and pay the remainder of the cost, and take your watch, as I am not supposed to hod it much longer. And, as you have tried to do all you could to hjure me, I want you now to come and settie."

Mr. Lamb held to the proposition that

Attention, Camp 1121

The members of W. C. 112, P. O. S. Penn colliery by the premature discharge of A., are requested to meet in their hall

of a blast while working in the Buck next Monday, September 7, at 7:30 a.m. Mountain vein. for the purpose of going to St. Clair to take part in the American demonstration. The Grant band will accompany the campa Special trains will leave the Pennsylvania depot at 8:30 a. m. Returning, leave St.
