The Request Means That the Commissions. of the Two Powers Will Make a Most Executable Report.-An Extensive Purticfpatten of English and German Manaffectarers Assured.

CHICAGO, Sop. 25.—England and Germany have both applied for about five acres of space in the World's Fair Building's for their exhibits. The applica-tions were made yesterday by Sir Henry T. Wood and James Dredge representing the Government of Great Britain, and by Herr A. Wermuth, Imperial Commis-

sioner from Germany.

The requests made by the foreign commissioners staggered the World's Fair officials. They expected that Eng-land and Germany would be largely repre-sented at the fair, but the thought never occurred to them that these two powers

would ask for ten acres of space.

"This request is significant," said an official. "It may be accepted as a forecast of the reports that will be made to the governments of Great Britain and Germany when the commissioners return.

"It means that they will give the World's Fair their unqualified indorsement and recommend the extensive participation of English and German manufacturers and artists."
