Dr. TALMAGE evidently believes in good cheer. At least here is one of the recent sparks from his anvil in the New York Observer: "If you would have more good cheer, instead of talking over so often your trials, your persecutions, your losses, your exasperations, revive the pleasanties. I warrant that in your life there have been comedies as well as tragedies. You could tell me if I were seated in your homes of scenes in your life enough relaxing to evoke a guffaw that would make the chandeliers rattle. On proper occasions bring out these old-time scenes for the regalement of yourself and friends. Do not get dried up before your time. Do not shrivel. I do not care how long a man has lived, he has no right ever to be more than eighteen."

NEW ORLEANS has started a new institution of learning which is to be called a ladies' college. It will strike the average man that this is a modern affectation which would much better be changed for women's college, not only as a matter of taste, but because of its effect upon the pupils. There is no higher word than woman, as there is no nobler creation of the Almighty's

GLEANINGS BY THE LOCAL CORPS OF REPORTERS.

WHAT THE SCRIBES SEE AND HEAR

The Water Company Question Remains the Prevailing Local Topic for Discussion—The Mass Meeting To-night.

Appearances indicate that the call for a mass meeting of citizens of town will be responded to by the attendance of a large number in Robbins' opera house to-night. What there seems to be a strong sentiment in favor of the formation of new water works, many of those in favor of it will sanction the movement upon one condition only, and that is that the new works shall be a public undertaking; that the borough shall take hold of the scheme and issue bonds to defray the expense.

This view is held by many who say that to make the proposed new works a private undertaking would be a farce. A public water works alone can be expected to accomplish the object for which the mass meeting for to-night has been called. If new works are established and left under the control of a private corporation what relief may be afforded the people will only be temporary, for the history of private local corporations is that they cannot withstand the temptation to pool their issues. As an instance, the consolidation of the gas and electric light companies may be cited.

It is understood by most of the people that the meeting to-night is called for the purpose of having public expressions of sentiments on a proposition to organize public water works to be owned and controlled by the borough and there are many warm supporters of the proposition; but should the meeting develop an undertaking to organize another private company it will be found that few people will be ready to encourage it.

If water reform is wanted the people must control the new plant.

PERSONAL.

William Shaw shipped his household goods to Latrobe yesterday.
John E. Phillips yesterday moved his family to Perth Amboy, N. J.
Miss Libbie Faust, of Scranton, is visiting friends and relatives in town.
Ex-Councilman John W. Williams left for his home at Craner Hill, N. J., on Monday.
Mrs. Wm. Phillips, of South Jardin street, went to Scranton this morning to attend the funeral of the infant child of her daughter, Mrs. T. S. Lewis.
Ex-Councilman Ted Hurley came up from Philadelphia yesterday. The City of Brotherly Love seems to agree with him.

Lodge Pastime.

Washington Camp, No. 112, P. O. S. of A., conducted a mock trial last night in lieu of its usual musical and literary entertainment. The case was one based upon a charge of assault and battery, with intent to kill. S. L. Brown was accused and William Bachman personated Policeman D. J. Conners, the supposed victim of the assault. The officers of the court were: Judge, W. N. Ehrhart; Prosecuting Attorney, S. G. M. Holloper, Esq.; Attorney for the defense, H. E. Dangler; Clerk, L. A. Freeman; Sheriff, B. J. Yeast; Tipstaffs, John G. Thomas and S. W. Yeast. The proceedings were both interesting and amusing. The accused was found guilty, the assaulted policeman was sentenced to pay the costs and the prosecuting attorney was censured by the court. The result of the trial was a witty reflection of the termination of some trials at the county seat.

A SENATOR MARRIED.

Two Marriage Ceremonies in the Annunciation Church.

Rev. H. F. O'Reilly, officiated at two marriage ceremonies in the Annunciation church this morning. At 11 o'clock Senator B. J. Monaghan and Miss Lizzie E. McAvoy were wedded and immediately after Dr. P. J. Gallagher, of Washington, D. C., and Miss Katie Monaghan, sister of the Senator, were made one. The couples served as bridesmaids and groomsmen for each other. The ceremonies were of a private character and only a few intimate friends of the contracting parties witnessed them. This afternoon Mr. and Mrs. Monaghan and Mr. and Mrs. Gallagher left town on the 4:10 Pennsylvania train for Philadelphia, from which point they will start on an extensive wedding tour. Dr. Gallagher and wife will locate in Washington, while the Senator and wife will continue residents of town.

Who Killed the Cat?

A bachelor residing on West Centre street is sorely distressed over the death of his pet cat. The animal was trained to perform many tricks and, it is said, it could tell the time indicated by its master's chronometer and upon the approach of the millman it would perform acrobatic feats of all kinds. Monday evening a couple walked away a few hours parking in the basement of the bachelor's house and yesterday morning the cat was found dead on the sofa. The bachelor asserts that the cat was sat upon, but the fair damsel who had a hand in the sparkling pleasantry of any circumstances leading to the cat's death. The residents of the neighborhood find the matter a refreshing subject for gossip and the prevailing topic of that portion of the town is "Who Killed the Cat?"

Daudray Acquitted.

David Daudray, who was arrested in town Monday night by Constable Neiswenter, of Mt. Carmel, on a warrant charging him with stealing clothing and jewelry, returned to town yesterday, having been acquitted of the charge after a hearing before a justice of the peace. Mr. Daudray called at the HERALD office today and asked that a correction be made regarding his past history. He admits having been in the Pottsville jail, but denies all knowledge of the "coolers" of Sunbury, Scranton or Cherry Hill.

Property Improvements.

John L. Hassler is now engaged in improving the appearance of R. W. Stout's property on South White street by artistically decorating the building with tasteful shades of paint. The work is being done under instructions to spare no expense in having everything done right, and that is an excellent example to follow.

Keagay has put a new and improved skylight in the roof of his photographing establishment on West Coal street. His place is now admirably adapted for his work and is equal to the best places of the kind in the county.

GENERAL NEWS!

HAPPENINGS OF A LOCAL CHARACTER.

NEWS GATHERED HERE AND THERE

What is Being Done at Mahanoy City and Ashland in Reference to the Admission of the Electric Road.

From the "Tri-Weekly Record."

An important conference took place at the Union National Bank on Saturday evening between the special committee of Council on electric railway, Messrs. O. C. Lewis, Jacob West and R. T. Lewis, Solicitor T. H. B. Lyon and Secretary E. S. Reinhold, and the following gentlemen representing the proposed builders of the Mahanoy City, Shenandoah, Ashland and Girardville Electric Railway, Messrs. J. R. Coyle, solicitor, J. F. Finney, of Shenandoah, and C. Eberle, of Philadelphia.

It developed in the course of the conference that the Carlele gentlemen who are putting up the capital for the road are interested in several electric railways throughout the state. Persons familiar with their commercial standing speak of them as men of large means, abundantly able to carry to a successful issue the enterprise. Mr. Eberle, electric engineer, is the gentleman who constructed the Pottsville electric railway, and who paid a visit to town when the project of building a road was under consideration by town parties. He is an electrical expert, whose knowledge of things in connection with work of this character is comprehensive. Mr. Finney, who was with him, and whose presence is accounted for by the rumor that he is to be secretary of the company, is very much interested in having a favorable consideration of the petition presented to Council by the company.

It is, perhaps, no longer a secret that the capitalists back of the enterprise are residents of Carlisle, Pa., among them such well-known men as Judge Wm. F. Sadler, President of the company, Messrs. J. H. Baer, M. F. Thompson, Dr. Neff, E. Biddle, and others. Not a dollar of the stock is held by Shenandoah parties, and when it was mentioned to Mr. Eberle that there was fear that the road would be run in Shenandoah's interest, he laughed at the idea.

The company proposes to run a line straight from here to Ashland. A branch of the road will start off at St. Nicholas, going over the hill to Shenandoah. Every second car coming up the valley will move directly up to Mahanoy City. The number of cars, frequency of trips, etc., will be regulated by the exigencies of the business. The object of the company in asking for the right to lay tracks on Main street, is with the intention to extend the line via Park Place, Delano, Grier City to Lakeside. The route to Lakeside, via Buck Mountain, has been gone over by the engineers and pronounced impracticable on account of the steep incline of the hill on the east side. The larger population on the line of the Delano route is also an essential consideration in its favor. It is also a very desirable thing for our business people, as it opens up to more convenient communication a district tributary to Mahanoy City trade. There will be three power stations on the route as above outlined. One at Rappahannock, one at St. Nicholas and another at Shoemaker's.

About the only hitch between the electric railway people and the committee in conference was on the question of rail. The company desires to lay "T" rail in the borough and the committee was inclined to insist upon flat rail. Mr. Eberle explained that if compelled to use flat rail in the borough, it would be necessary on reaching the limits of the borough to stop the cars, take off the wheels and put on wheels suitable for the "T" rail which would be used on the township road, as the same wheels will not do for both rails. The advantage of the "T" rail was that it permitted faster running of the cars, is safer and in every respect more desirable. It was decided that the committee should visit Allentown and Bethlehem to-day at the expense of the electric railway company and make inquiries of the people there, whether there was any objection to the "T" rail, and investigate the subject thoroughly.

From Ashland Telegram.

The Electric Railway ordinance passed second reading before Council last night, and was ordered to be published according to law, and the body adjourned to meet again on Monday evening, Oct. 19th, for the purpose of granting the franchise.

Mr. Rolland, Chairman of the Ordinance Committee, was the first to take the floor, and moved that "the resolution granting an ordinance to the Ashland-Centralia Electric Railway Company, which passed Council on Sept. 2nd, be, and is hereby rescinded, and that the initial lines of the ordinance that we shall pass here to-night shall be left open." This motion passed with the unanimous vote of the body.

The Hon. D. D. Phillips, who represented the Shenandoah, Mahanoy City, Girardville and Ashland Electric Railway

Co., was then granted the floor. He said that his company wanted the ordinance. They were now fully organized with sufficient capital to prosecute the work and had already given out the contracts for motors and machinery. That their engineer was now at work, and the Ashland line will be begun just as soon as they can secure this ordinance, and that they now stand ready to accept the ordinance and to give bonds in any sum that council may desire from \$10,000 to \$15,000 or upwards. His company are very desirous of getting to Ashland, and will, just as soon as the right of way is secured. If they do not get ordinance they will not build this side of Girardville. The company is a bona fide concern, and ready to push ahead at once with the work clear through from Shenandoah to Ashland. Mr. Phillips made a decidedly good case for his company.

After discussion the body adjourned to meet again on Monday evening when the question as to who will or who will not, run electric cars through this borough will be definitely decided.

Rail and Water.

The Reading's new depot and elevated road at Philadelphia is progressing rapidly. By the Pennsylvania Railroad you reach quickly, safely and cheaply all the best autumn pleasure places, the mountains, springs and seashore and all the favorite hunting grounds.

Mr. O. H. Briggs, General Passenger Agent of the famous Providence and Stonington Steamship Company, announces a general reduction of passenger rates for the remainder of the year on both the Providence and Stonington lines.

Will we have the new trains over this popular short line of the Pennsylvania?

Quite a number of important changes are in contemplation on the Reading road between Tamaqua and Williamsport.

Some Things Likely.

A new opera house.

A new water company.

An electric railway.

Several industrial establishments.

The boundaries of the borough enlarged.

A city charter—when next voted upon.

A better and more liberal feeling among our people.

A new picnic park.

Paved streets after the street railway is laid.

Better class of dwellings.

Council Meeting.

There will be a regular meeting of the Borough Council to-morrow evening at 7:30 o'clock. It will be an interesting meeting, and every member of that body should be present.

Ladies, if you want fine writing paper and envelopes to match, call on Max Rose.

An Improvement.

A new board walk has been laid from the foot of Main street to the Pennsylvania depot. The walk is a decided improvement on the old one.

Take good advice—I have suffered with bad headaches for years, and have tried many remedies without obtaining relief. I was advised to give a trial to a certain medicine, and it has entirely cured me.
