## THE EVENING HERALD.

ALL THE NEWS FOR ONE CENT.

How do our conscientious Republicans feel over the stealing of the New York Legislature by the Democrats? There are more old women in the Republican party than is good for it. Democrats take the bull by the horns and do not fear after results. It is time the Republicans stiffen their backbones and meet the issues as presented them and not promptly.

If the Republicans are going to carry this Congressional district next year all personal matters must be left aside. Let the party agree upon some good, live and popular man and vote for him; and his election will be assured. We have lost this district through personal fights. There has been enough of child's play, so let's get down to business.

President Harrison has probably, during his term, appointed more judges than any other President in the same period of time. He has already fallen 86 President Harrison's lot to appoint forty-three of these and he has yet over a year to serve in the Presidency. His selections for these important offices have generally won the commendation of all parties.

The Boynton Republican says with little effort of the people Pennsylvania might make the next House of Representatives body that would live in history, that would attract the attention of the entire country, that would be pointed to as the greatest aggregation of wisdom, experience and glory, both present and departed, that any state capital ever contained. Let all the great men of both parties, throughout the state, who are willing to occupy seats in the next House of Representatives at Harrisburg, stand

The New York Tribune says that "the majority of 136 that began tumbling into Washington in the latter part of November have not thus far fulfilled either their own programme or the public expectation. They came together, not harmoniously, but in violent collision. They began with wrangling over the very question on which they seemed so united and harmonious a year ago. They separated into factions on the question of free trade at the outset, and after spending weeks in a bitter controversy ended with a split which, according to their own organs, seems irreconcilable. On the question of free silver they are equally inharmonious and uncompromising, and the division of the official spoils instead of being made in accordance with the principle of civil service reform, has been so bunglingly done that hundreds have been disgraced, where one has been pleased, and the public service, so far as the new men in power can reach it, is borne down by incompetence and disgraced by the lowest partisan-ship."

### POLITICAL POINTERS.

Next year the following officers will be elected in this county: Judge, Congressman, six Representatives to the Legislature, Senator from the 23rd District, District Attorney and Poor Director. Among the Republicans mentioned for District Attorney are Max Wilhelm, of Ashland, and Shay, of Potsville. Lawyer Lyon, of Mahanoy City, wants to go to the National Republican Convention and "steer" J. J. Cagle, of the same place, wants to represent this district in the next Legislature. The Second Legislative district ought to be regained from the Democrats and can be if the right party is nominated next year. Among those named who can accomplish that fact is Hon. D. D. Phillips, of Gordon, and the Republicans will make no mistake in nominating him. Let all parties be laid aside next year, and not only the Second district be redeemed, but the First, also.

## MIKE BOBBIN DIES

THE MAN SHOT BY CONSTABLE TOOMEY DEAD.

### THE OFFICER IS UNDER ARREST

But He Will Very Likely be Released After the Verdict of the Coroners' Jury is Rendered.

Mike Bobbin, who was shot about two weeks ago, while trying to secure from Constable Jero Toomey, died at the Mines Hospital yesterday. John Bobbin, brother of the deceased, at once swore out a warrant for the arrest of Constable Toomey. The warrant was issued by Squire Douglas and executed by Constable Tosh. Toomey made a formal appearance and was incarcerated in the custody of Tosh until this afternoon. This morning Coroner Gault, went to the Mines Hospital and held a post mortem on the body, so as to be prepared to proceed with the hearing in Squire Douglas's office this afternoon. The result of the post mortem has not been made known yet, but it is believed to be confirmatory of Dr. Cullen's statement to the effect that Bobbin died from inflammation of the lungs. Dr. Cullen attended the man while he remained in town. At the time he was shot Bobbin had a good upon his chest that caused him to cough heavily and frequently. The shooting of Bobbin followed a riot in the First ward on the night of the 8th inst. Bobbin and six other Poles attacked three Hungarians who were on their way home and beat them severely. One of them remained in a critical condition for several days, but is now entirely recovered. Constable Toomey and three of his associates who were concerned in the attack. On the way to the lockup Bobbin ran away from Toomey, who gave chase and fired three shots. Bobbin was recaptured and an examination of his body showed that one of the shots had taken effect. The ball entered the back at the tenth rib and passed under the skin around the left side to the front, just above the last rib. The ball was extracted by simply cutting the skin. Dr. Cullen attended the man and said the injury was not a serious one.

### A Good Hiding Place.

Five days last week a lady of town, stood on the pavement near her residence, apparently searching for something. Her actions attracted the attention of the neighbors and they gathered about her in large numbers. Some suggested that the woman was about to fall into a pit and others said she was suffering from St. Vitus's dance. "What is the matter?" asked one of the neighbors. "I've lost a ten dollar bill!" was the reply. Then there was a general search, but the missing money could not be found. At last the loser said she would go back to her house and look for the bill. As she made a step a neighbor shouted "There it is!" Sure enough, there was the beloved ten-dollar bill lying on the road. The loser's foot had covered it during the excitement. This story is vouched for by several residents of South West street.

### THE POLITICIANS STIRRED

By the Annual Appointments of the Commissioners.

POTTSVILLE, Dec. 31.—This town was excited by politicians from all parts of the county and all were in a most lively frame of mind. Some are in a joyous mood, while others devote all their spare moments to making threats for the future. County Commissioners Powers and Reed have formed a compact by which, it is understood, they are to make all the appointments this year. The appointment yesterday of Walter Stevenson, Republican, as Mercantile Appraiser, was in pursuance of that compact and the adoption of the whole slate is now looked for. This will leave County Commissioner DeTurk out in the cold. Up to the time of Stevenson's appointment he had been left under the impression that he would be allowed to

## THE BROOKVILLE WATER CO.

A Correspondent's Report of a Vestibular Meeting.

Editor Herald.—I had a dream the other night and one of the most striking things in it was a meeting. It seemed that the meeting had been called for the purpose of discussing the subject of water works for the city. When I awoke the vision remained clearer and I concluded to put it in writing and read it to you for publication. I hope to see it in your columns, as I am sure the dread of feet running through the line of living, from east by the blind man, reaching next door to the best man in the next block, will cause sufficient energy to induce the deaf man on the opposite side of the street to shout "Herald"—I have supposed that the vestigular meeting was that of the Black Creek Water Company. Here it is: Chairman Ellingdale: "Gentlemen, we will now proceed with business."

Mr. Bassett: "Brother Chairman, do you water question?"
