This is Regarded by Senor Montt as Favorable to His Side-

Summary of the Proceedings Refore the Court of Inquiry at Sauliago-The Parties Guilty of the Outrage Up in the Baltimore's Men Will be Punished as koon as They Are Discovered.

WARHINGTON, Jan. 1.-Senor Monte, the Chilian Minister, had another in terview with Secretary Blaine yester-day. The Minister laid before the Sectary the following translation of a tele gram from Mr. Matta, the Minister of Foreign Affairs, bearing on the inquiry into the trouble in the city of Valpa-raiso between the Chilians and the sailors from the United States steamer Bal timore:

SANTIAGO, Dec. 31, 1891. MINISTER OF CHILI, WASHINGTON, D. C.: From the summary of proceedings it appears that the struggle commences Ward "Arrayan;" that it was con-tinued on the street, with the accession tinued on the street, with the accession of numbers of thabitants and transient parties from the streets called "Del Clava," "San Francisco" and "Ala-mos." The disorder continued and ex-tended to the streets "Del Arsenal" and "San Martin," where the police force succeeded in restoring order. All the North Americans except two state that the police did their duty, and from the voluminous proceedings it appears that the court has done and is doing its duty. duty

Whenever the prosecuting attorney renders his opinion, and the time for producing evidence shall have expired, sentence will be given, establishing whe who many are the giving estimating without a who may only be presumed at present who may only be presumed at present inhed. The legal proceedings are being actively carried forward to their proper termination. MATTA

The Minlister, when asked by a reporter for an opinion respecting the statements made in the telegram, called the apecial attention to the statement that alt the North Americans, except two, had said that the police did their duty. He regards that the police did their duty. He regards this as favorable to the Chil-ian side of no sectivo?ersy. It is noted that the Chilian Minister

of Foreign Allairs promises that when the dus processes of law, according to Chillan jurisprudence, are observed, those found guity will be punishel, and says that these judicial proceedings

are being carried forward actively. This, in connection with the state-ment that the police did their duty, is significant as showing that the Chilian government does not wish that the ac-tions of individuals belonging to Chili shall be confounded with the actions of those connected with the government and having official station. These law-less acts on the part of individuals as the despatch says, are being inquired into under the usual judicial proceed-ings of Chili, which are conducted secretly, and, it is said, with the cumbersomeness attaching to nearly all law courts deriving their authority and pre-

courts deriving their authority and pre-cedents from Spain. This Government has never asserted a right to interfere with the ordinary judicial methols of other countries. It is, however, watchful to sos that cus-tomary judicial methods are followed, regard, of course, being had to the ex-traordinary character of the offence, and is meantime making provision for the is meantime making provision for the always possible occurrence of some untoward event, such as undus delay, or a final response not consistent with the dignity of the United States.

an experiment.

It may be well to remark just here that when he went past he carried a portion of my pantaloon leg with him-a circumstance many would not mention, perhaps, but it struck me as being a very singular proceeding, especially as my leg was next to and in close proxunity with the cloth

He went ahead so fast that it was nearly impossible to restrain him, and went the entire length of the rope before I succeeded in checking him. As there ere quite a number of people on the treet at the time it naturally increased my interest in his movements.

The rope was a bed cord; it was full forty feet long; the dog was about four feet-in all forty-four feet. It was a pretty long line of communication to keep up on a crowded thoroughfare, especially with a mad and hungry dog on the loose end of it. He was straining with all his might and drawing me along at a rapid but not graceful gait. When I occasionally got my eyes down to a level with the walk, it was to dissover him crawling out from under somebody, with various results. Somelimes, as in the case of very heavy people, they did not get fairly on their feet antil I got abreast of them. These peoble invariably called my attention to the mbject, and would have got my fairest views on it had it been possible to have held up long enough to open my mouth. I endured these things pleasantly

snough; but when a man and woman both came down together, and the rope got mysteriously twisted about three ther people, and seesawed them in a wonderfully fearful manner, I lost all lestre to own a dog, and let go of my stil of the rope.

It immediately transpired that no one was needed there. The people who were seesawing across the walk and shouting for their friends were so inconceivably entangled in the rope that they held the log as firmly as a piece of meat could have done. The old gentleman and lady were full as mysteriously mixed, both creaming vigorously-although it is but thir to state that the former appeared to mke the fiveliest interest in the matter, as he was next to the dog, and in a very
