We agree with the Meadville *Tribune-Republican* that the agony is over in New York and the State Senate as well as the Legislature is Democratic lock, stock and barrel. It is a disgraceful affair—a disgraceful disregard of the rights of the voters, which, in the end, will prove more disastrous to the Democratic party of New York than anything which has occurred since the days when Boss Tweed and his "forty thieves" reigned supreme. David E. Hill has succeeded in his purpose to make the state Democratic in every department, law or no law, right or wrong, and now his successor can take up the driving reins and crush out the last remnant of Republican power. The state will be outrageously gerrymandered—gerrymandered beyond the hope of redemption until some tidal wave sets in and sweeps Democracy from power. Men who have been elected beyond the shadow of a doubt have been denied a free and impartial jury to present their claims; juries have been prostituted, thieves pardoned and the rights of the people trampled upon in the most ruthless fashion—and all to satisfy the ambition of one man who, holding the titles to two offices, is trying to grasp a third in the hope of settling himself upon the people of the state. It is possible, but not probable, that David B. Hill will be elected in his presidential aspirations, but God save the people!

A Little Girl's Experience in a Lighthouse.

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and a blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dread ailment and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at C. H. Hagenbuch's drug store.

STILL IN DOUBT!

FATE OF THE POTTSVILLE SHORT LINE UNSETTLED.

WORKING UNDER THE TRACKS.

Mike Bobbin, the Pole, Who Was Fatally Shot, Buried To-day.

Habeas Corpus Proceedings at Pottsville.

The fate of the Pennsylvania R. R. Co.'s short line between this town and Pottsville remains unsettled and nothing definite can be learned as to what the company intends to do. From what can be gleaned it is believed that the road will be abandoned. The place where the cave-in was threatened when the company discontinued traffic on the road has gone down and about two lengths of track are suspended in the air. Some people were under the impression that the cave-in would be followed by immediate filling up and repairing of the road, but this has not and cannot be done. There is a large bed of coal extending from the cave-in through the cut and the P. & R. C. & L. Co. people say they will continue taking it out until they have the place clear, which will require about six months' work. This decision means that there can be no traveling over the short line for at least that period and all the traffic revert to the old-time competitors—the Lehigh and Reading.

FROM THE SOUTH.

An Interesting Letter From a Former Citizen.

James G. Hutton, a former citizen of town, writes the following interesting letter:

The winter in this country is delightful when compared with the North. No frost in the ground to remain over twenty-four hours. White frost at nights, rendering the atmosphere as keen as mortals desire it, but it is soon over. I met an old-timer the other day, clad in a snowy-white vest, out enjoying the balmy air. Some are here to my knowledge, such are benefited. Others are here to have their kidneys rejuvenated and are experiencing good results from the use of Lithia and Chalybeate waters. This is a very good place for healthseekers to be just now. Others are here to make money. This class of individuals are favored by the opportunities for good investments offered here, especially in real estate.

Population now 4,100 and likely to double next year (1892). There are few nationalities here—none but American whites and colored. Have not met either German, Irish, English, Scotch or Welshmen since here. The American whites have an antipathy for the colored.

While in Atlanta recently I saw a strange sight. Convicts working on the highways paving streets, with armed guards close by, ready to deal death to him who should attempt to escape.

This town, Tallapoosa, is situated on a mountain ridge, 64 miles west of Atlanta and 40 miles east of Anniston. Farming is carried on in a primitive state, ox-teams being nearly all the go in the country; in town things are modern. Brick blocks, electric light, water system, street railways, etc.

The prospect is bright for a boom here in the spring. I do not hesitate to recommend investment just now. I am building some houses myself and have offers to sell or rent; either plan will pay handsomely.

Rents are high here. A three-roomed house rents for \$3.00 per month, according to locality, of course.

Pennsylvanians are ever glad to meet and greet each other on a strange soil.

Rev. Sam Small lectured here recently, and it was a treat to listen to him. He is a Prohibitionist out and out. I wish Shenandoah could secure him to lecture. He is now in Canada.

Socially speaking, things are home-like here; good schools will be found in this town hereafter.

Wishing you all a happy New Year though absent but not forgotten.
