There are two good armfuls of it. but he is going to bring it all in at once That is the better way, as it saves one trip. He is getting it upon his arm with great difficulty. The pile rises rapidly. It is all up but a few sticks, and he has to steady himself with a great effort while feeling around for them. Each

The slightest false motion would topple it to the ground. He real-izes it. All the color in his body is in his face and the cords thereof are drawn to the utmost tension. His eyes glow like a flame. He can't find that last stick. Elowly the right hand circles

around, feeling carefully for it. His eyes are bright, but they are ranged over the load on his arm, and the very nearest approach they can make to the scene is the distant horizon. Still he altirmishes about with the right hand. A moisture is beginning to well up in

the bright orbs, making the horizon indistinct. The muscles nearest the mouth are commencing to slacken, and the under lip slightly trembles. It is notice-able that the right hand is losing its caution and growing a triffe impulsive.

Its circles are sharper and less in sym metry. He has gone over all the ground in reach. He bends apprehensively forward for more territory. There is a waver, then another, a sudden plunge for recovery and over goes the pile; and a boy with passion distorted face is blindly kicking the moffensive sticks. Then the back door opens, and he sud-denly stops and glares at the wreck.

A Would-be Train Wrecker Apprehended

--Narrow Escape for Passengers. BOOMESTER, N. Y., Jan. 5.-The passengers on the train leaving Windsor Beach on the Rome, Watertown & Ogdensburg road at 11 o'clock yesterday morning, had a narrow escape. The train consisted of the engine, baggage car and two passenger coaches crowled with people. Near Ratil=nake Point the road makes

a sharp enrice and have the engineer saw a sman a short distance alread leave the track and run up the hill. The brakes were instantly applied and the engine rame to a standstill only ten feet from a three-inch plank instead between the mils with the evident intent of ditching the train.

The engineer and fireman gave chase and captured the man. When the pay-sengers learned whith had huppened there were excited eries of "Hang him!" "Lynch him?" and "Kill him!" at once The prisoner was not injured, how-ever, and was brought to Rochester and

LEGISLATURE OF NEW YORK. The Caucuses to Be Held To-Sight-Probable Nominations.

ATMANY, N. Y., Jan. 4 .- Such general quietude as prevails here was never be fore noticed one day prior to a legislative session. It is true that Gen. Husted has opened legislative headquarters and so has Dr. Bush, but there seems to be no opposition to their individual candidacies. The arrival of members of the Legislature

is very slow. Senator Cantor has not opened any quarters for president pro tem, and say he does not think he will. He will be the president pro tem, of the Senate and with out any opposition. For the Republican Senators Erwin and Saxton are the candi

The grievance of the gas men arises from the fact that the Fair managers have made elaborate arrangements for electri-cal displays, and a magnitizent building for this purpose is to be creeted for this purpose, while the gas men are left out in the cold. So the Amarilean Associa-tion of Gas Engineers has left it to John F. Harbison, of Hartford, to see if the Fair managers cannot be induced to give gas an equal chance with electric light. Mr. Harbison, who is president of the Hartford City Gas Light Company, is also chairman of the Committee on Gas Lighting of the association, us well as Lighting of the association, as well as past president of the association.
