CHILIAN SOLDIERS LENT AID.

Riggin, the Postswain's Mate, was Bayonstited in the Back.

The Police Charged the Mob, but Took ture to Wound Only Americans-The Assuult Seems to Have Been Premedituted -- Captain sching Says that the Stories as Cabled Were True-The Baltimore to Go to Mare Island for Repairs.

San Francisco, Jan. 6.-Cupt. Schley commander of the U. S. warship Baiti-more, which is back from Chili, states that the reports telegraphed to this coun try regarding the attack on a number of his men in the harbor of Valperalso were esubstantially correct, and that there was little if anything to add to them. He stated that one very significant feature of the assault on the Baltimore's men was that every one of them was stabled in the back and that soldiers, police and sailors took part in the affair. None of

the Baltimore's men were armed.

The Capitain said that a half dozen of his mea, if they had been provided with weapons, could have stood off the three thousand Chilians, as they were a lot of cowards. Further than this Capit Schley refused to talk. The future movements of the Baltimore are at present unknown. She is very foul and will probably go to Mare Island to be cleaned.

One of the sailors hold this story of the massacre at Valparalso.

There were a lot of us ashore that the Baltimore's men were armed.

thassacre at Valparaiso:

'There were a lot of us ashore that day, the 15th of October, enjoying leave, and not one of us was moiested during the day. There were thirty-four of the boys still on shore when it graw dark.

'Some of them were told that the Chilians were going to jump them and they had better get aboard the vessel. Those that were told this went to work to dig up the rust of the boys and get them off shore. Before half of them got wind of it, though, the row began. It started in one place where there were started in one place where there were three or four hamis but it spread like wildfire, and wherever a sailer with the American uniform was seen he was pulted with stones and clubbed and bayoneted.

"The boys fought as best they could, but what could they do against such fear-ful odds! There were about thirty of us against fully three thousand. If it had not been for the American consult I suppose they would have been killed. As soon as he heard of the row be asked the Intendente to arrest all of the Baltimore's men who were on land.
"He did this to save the men from the

mob, but the police were as bad as the mob. They charged on the crowd with bayonets, but when anybody was hare it was one of our boys, you can bet. They finally gathered all the boys up and took them to the lockup.

"Riggin was stabled to death with a

bayonet through the back, and Turnbull was cut in a dozen pixes and had a bullet through his neck. The first we heard of the trouble was when Jerry Anderson was hauled up on dech with five stabs in

was hanged up on decliwith the states in his back. One of the buyonets plerced his right lung. That kind of thing don't look much like a row, does it?

"It was just an expression of Chilian feeling toward Americans. When one of boys would be knocked down down the crowd would rush on him, kick him and stone him, but as soon as two or three of the other boys made a rush to rescue him

the crowd went back life shoup."

A petty officer in an interview said:
"We had been advised that the Chilians had no use for Americans before going ashore that morning. Capt. Schley had received assurance from the authorities that we would not be molested. When we landed, however, several sailors be-longing to a British man of war in the harbor warned us to be very careful, for they had beard the Chilians making threats all morning against the Ameri-

The mob was an angry one, and when ever they sighted one of us fellows they howled like madmen and immediately gave chase, flourishing their knives and bayonets. You see, the mob was composed of men who had just returned from the war, and most of them were in uni-form, so that we could not tell them from

before the Legislature, is the Governor's
belief, is to provide for an enumeration
of the inhabitants of the State, preparatory to a re-apportionment of Senate and
Assembly districts. The Governor says:

If there was needed heretofore any direct
proof of the injustice of the present legislative
apportionment, it is now furnished by the returns of the Federal census of 1830. Defective
apportionment, it is now furnished by the returns of the Federal census of 1830. Defective
at that commention was it shows an increase
of population in the State since 1875 of nearly
twenty-seven per cent. Yet the same apporttionment now exists as was cetablished in

1879.

So untenable is such a position that one is forced to the constraint that the refusal to provide for rightful representation has been fased upon the unworthy motive of scelling to retain partism advantage. The positional complexion of the present Legislature, however, removes the penalulity of such a motive as an obstacle, and, I hope, insures the premit passage of an enunceation bill, preparatory to a reapportionment of Senate and Assembly districts.

Continuing, the Governor gives figures which show that the State debt is practi-
