# THE KREBS HORROR Prospects for a Perceful Settlement Now

Believed that Over 100 Perished in the Mine.

# FIFTY BODIES ALREADY FOUND.

Of These Only One-Half Have Been Identified.

# CAUSE OF THE ACCIDENT UNKNOWN.

## It is Supposed that Some Miner Fired a Elast Without Warning.

Many of Those Rescued an Horribly Burned that They Cannot Recover-There were Four Hundred Men in the Mine when the Explosion Occurred ---- A Week Must Elapse Before All the Entombed Can be Reached--Identification of Many of the Victims Impossible.

Sourn MCALISTER, I. T., Jan. 9 .- The entrance to the Osage coal mine at Krebs, five miles from here, is surrounded by a mass of humanity, many of them women and children who have been at the scene almost every minute since the terrible explosion of Thursday night, hoping against hope for tidings of a lost one.

It is impossible yet to give even an estimate of the number of lives lost, but It is believed that the list will reach 100 and even more. Many of the miners who have been taken out are so hadly burned that they will die.

A hastily constructed but strong enge has been placed in operation and the work of rescuing the entombed miners is being expedited as rapidly as circumstances will permit. The crowd about the mouth will permit. The crowd about the mouth of the pit has increased to over a thousand people. As most of the miners are Swedes, Norwegians and Italians, the mine officials have great difficulty in preserving order and keeping them at such a distance as will allow the men to run the cage without interruption.

Physicians from the neighboring towns and cities have tendered their services and are working to their itemost caring for the injured. Miners from neighbor-ing coal fields have flocked in by every train during the night and day, tender-ing their assistance and heroically volumteering to enter the gloomy shaft in which so many of their comrades have perished, and in which perhaps death even awaited them on account of the loosened boulders which the shock of the explosion left upon a flimsy balance and which a breath of air might precipitate upon them. - The McAlister mines dot the prairie at

intervals from a quarter to half a mile, and each is surrounded by the usual hovels which serve the purpose of homes to the miners. These homes pre-sent a pathetic picture. There is not one in which the sound of mourning is not beard.

beard. Thus far about fifty bodies have been recovered, and of these twenty-four have been identified. New ones are constantly being brought up. The injured are so numerous and scattered so widely among the village houses that their number can hardly be estimated. There were about four burdend man at mark as marked four hundred men at work, as nearly as can be ascertained, about 150 of whom escaped injury, while the others are either imprisoned or have been brought up injured. Each trip of the cage brings to light a new victim, whom the volunteers carefully carry to the mine blacksmith shop, which has been utilized as a tem-porary morgue, and through which the anxious crowd of miners' wives and chil-dren surge in search of the absent mem-bers of their families.

Many of their tamines. Many of the men, some say nearly half, employed in the mine succeeded in effect-ing their escape by climbed up through the alrebatt. One of the men who escaped in this way climbing 450 feet with a broken leg. Many of those who

# Appear Very Bright.

WASHINGTON, Jan. 9 .- The prospects of a peaceful settlement of the Chilian troubles now appear very bright. This country has never changed its position in the matter, but insists now, as it has from the first, upon suitable reparation being made for the outrages of the mob at Valparaiso, and would resort to any means necessary to maintain the national dignity.

The peaceful outlook is due to a change of policy in Chill since the inanguration of the new government. Senor Montt has been trying ever since he became acquainted with the state of things in this country, to bring the Chilian Government to an appreciation of the folly of trying any bravado in dealing with this question. His efforts with the Junta

were entirely unsuccessful. Information attainable now indicates that the present Government is in accord with Senor Montt and 1s willing to do anything possible to restore the friendly relations between the two countries. Senor Montt, in discussing the question, said that there was no danger of war be-tween Chili and the United States.

"Chili," he explained, "is ready to do the honorable and proper thing, and just as soon as the report on the judicial action is completed it will be forwarded to this country, and it will, I am sure, be

satisfactory to this country. He expressed the opinion that Chili would not indulge in any more wars. There would certainly be no wars, he said as long as the present Administration or those in sympathy with it retained power. Though the last war was very successful, the strife necessarily was an injury to the country, and every effort would be made to preserve peace. Congressman John Raines in an inter-view on the Chilian situation, said:

"The English people are advised that "The English people are advised that at the present time every effort is being put forward by the Navy Department to place a fleet at the disposal of the Gov-ernment in case of need. What is more, ther know each order is not seened. they know perhaps what is not generally known here in this country-that parts of the work on new vessels awarded under contract to several firms are being hurried along outside the firms that rebeing

nurried along outside the hrms that re-ceived the contract. "England, as 'the ruler of the seas,' does not like this state of affairs. Our new vessels fairly outclass her ships of nominally the same grade and her su-premacy is threatened. With the people behind this movement for a navy, offen-sive and defaults forsion powers know sive and defensive foreign powers know that the United States will have a fleet that will command not only respect, but fear. "To prevent a continuance of the build-

ing of new battle ships and cruisers Eng-land will step in and fairly choke Chili into a necessary apology."

## The Official Investigation.

SAN FRANCISCO, Jan. 9.-In the investigation into the assault upon the sailors of the cruiser Baltimore at Vallejo, Chas. Langen, a seaman, testified that he was in the international Hotel, and gave evi-dence implicating the Chilian men of-war's men, police and soldiers in the kill-ing of Boatswain's Mate Riggin.

### An Incendiary's Work.

GREENSBURG, Pa., Jan, 9.—The fire in the basement of Sowash & Fink's drug store at Jenneatte is now believed to have been the work of an incendiary. The Cook block, valued at \$12,000, nine other buildings-stores and residences-were either destroyed or badly damaged. The total loss will exceed \$25,000, insurance total loss will exceed \$25,000, insurance about one half. During the fire a natural gas explosion occurred in J B. Zeigler's residence J. E. Scott, Frank Trimble. S. G. Keyes, John King and Mike Foley, who were removing the furniture at the time were terribly burned, but none of them fatally.

time were terribly burned, but none of them fatally. Schulteis Sneed for Stander. New Yong, Jan. 9.—When Commis-sioner of Emigration Schulteis returned to this country "incognito" on the Servia he claimed to have witnessed debauchery in hoard ship, and in the connection im-plicated Ingrov Petersen, a Swedish girl. A medical examination seemed to contra-dist the Commissioner's charge. Now he has been served with papers in a suit for \$25,000 for stander. The Petersen girl has since returned to Sweden; and the suit is brought by Lawyer B. Downer through the Roy. Peter Petersen.

## HE WAS A GREEN HAND. Granzki's Carclessness Caused the Explosion in the Neilson Shaft.

SHAMORIN, Pa., Jan. 9.-Fuller par ticulars of the explosion of gas in No. § vein of the Neilson shaft have been re ceived. Paul Grunzki is dead and Philig Desert is likely to die. Superintendent Steele is severely burned about the hands

men who were injured when a current of gas from one of the fizzures came in contunate miner was burled against the side timate minor was buried against the side of the mine and had nearly all his bones broken. English and Steele saw the danger a few moments before the explo-sion, but they could not get out of the way quick enough, and they were tossed against the side of the shaft with con-siderable violence.

TO OVERTHROW HIPPOLYTE. Plot to Oust Hayti's Ruler Said to Have

Been Hatched in New York. NEW YORK, Jan. 9 .- Mr. Price, the Haytian Minister to the United States, has, it is said, discovered a revolutionary momement having for its object the over throw of President Hippolyte of Hayti.

The revolutionary party, he has found, has fitted out in this country a man-of-war equipped with all the appliances of modern warfare, which it is intended to be used by the Haytian political exiles in Jamaica to capture Port au Prince

And establish a new government. Minister Price, it is further said, has denounced the revolutionary movement to the government at Washington, and it is expected that the detective machinery of the State Department will be set in motion for the capture of the man-of-war and the arrest of the agents here.

## Intended to Polson Her Brother.

EASTON, Md., Jan. D .- Laura Smith, the 15-pear-old colored girl arrested here charged with poisoning her father, has made a confession in which she declares that the poison was intended for her prother who had chastised her for going to a colored festival against his will. She put a dose of rough-on-rats in the tea pot from which her father took his tea. A few hours after drinking of the contents of the tea pot her father died in great agony.

#### A New Giant's Causeway.

SAN FRANCISCO, Jan. 9.--Special Field Agent Nelson of the Government's Death Agent Nelson of the Government's Death Valley exploring party has just reached here after an eventful trip through the mountains back of Yosemite Park, where he explored the new territory and dis-covered basaltic columnar cliffs which, he declares, are fully equal to the Giant's Causeway on the coast of Ireland.

## Tice's Excention Stayed.

AUBURN, N. Y., Jan. 9.-The attorneys for Joseph L. Tice, the Bochester wife murderer under sentence of death by electricity in the prison in this city, have filed a notice of appeal which will stay the execution.

## NEWS OF THE DAY.

Secretary Foster has gone to Fortreas Monroe, Va, where he will remain a week or ten days.

John Deane, who impersonates Cy Prime in "The Old Homestead," is dead at Cincinnatti of grip.

The Rev. Wm. A. Blenkisop, pastor of Peter and Paul's Church, South Boston, is dead, aged 73 years.

Twenty-two leather workers employed by R. Saloman at Newark, N. J., have struck on account of a reduction in their

HEADQUARTERS OF SANTA CLAUS TWO STORES: 6 West Centre Street and 34 North Main Street, Shenandoah.

and face, and Boss English is badly injured about the body. Grunzki was a green hand, and carried a lamp which did not have the proper protection. He was standing near the from us. #### Case of Dr. Graves.

DESVER, Col., Jan. 9.- The Graves trial and its subsequent developments are still the all absorbing topic here. Two well thrown then who were summoned as jurors in the trial have made affidavits that they were not called to act because they would not promise to return a ver-dict of guilty if selected as jurors. Judge Furnam, counsel for Dr. Graves, has raised the question whether a convicted person must be sentenced during the term of court at which he is found guilty, and has asked for a postponement of sentence for thirty days.

#### Rochester Axle Co. in Trouble.

Bochrsten, N. Y., Jan. 9.—The sheriff has lavied upon the works of the Roches-ter Axle Co., at East Kochester, on exe-cutions aggregating \$11,000. The capital tracked the start start of the start of curious aggregating \$11,000. The capital stock of the concern is \$100,000 and it has large assets and his always been re-garded as a wealthy corporation. Has members have experienced misfortunes in the last two years, three of them fail-ing in health, and the works were shut down in October on account of a cut in prices. DISCOUNT

## Cannot Use the Trolley System.

TRUNTON, N. J., Jan. 0.—By a decision of the Supreme Court, both the Trenton Horse R. R. Co. and the Rapid Transit of Newark, cannot exercise the right co, of newark, control exercise the right given by the Common Council of the two eithes to operate an electric road trolley system with side poles. Judge Reed holds that the Common Councils of those cities have no right to grant the powers

#### Think He Was Murdered

Wonuns, Mass., Jan. 8. — The poince are inclined to believe that Daniel McCarthy, whose body was found burned to a crisp in the rains of his imme, was murdered, and that his house was fired to conceal the crime. As are has been found near the house covered with blood. An in-veetigation will be had.

No Changes in Cierks.

WASHINGTON, Jan. 9.—The resolution providing for the appointment of com-mittee clerks has up to this time been delayed by the objections of two or three disgruntled members. The resolution was finally got to the Committee on Ac-counts, and the fight was transferred to that committe. There was quite a long discussion, which ended in a victory for the committee clerks. Bn a vote of 7 to 2 the committee recommend the assignment of cierks as heretofore.

#### Maupassant's Insanity:

Panis, Jan. 9 .- The manager of the asylum in which Guy de Maupassant is confined says that the insanity with which the distinguished French author is suffering dates back two years. The disease, he adds, has slowly developed, and it will be a long time before he recovers. In fact, the manager holds out little hope that M. de Manpassant will ever regain his reason.

#### Punctual Attendance Hereafter,

WAMMINGTON, Jan. 9.—The Treasury Department has decided to enforce the punctual attendance of elerks, and a record of the arrival of each employe in the morning will be kept. Punctual attendance will be taken into considera-tion when conventions are made. The tion when promotions are made. The regulations governing promotions are now being formulated by Secretary Foster

Foster Six Died in One House, Brain, Jan 9.- family consisting of six members have been found dead in their isolated dwalling near Relbweisen. of six members have been found dead in their isolated dwelling near Reihweisen, in the Sudetic Mountains, on the Bohe mian frontier. Evidences existed that the four adult members had died of in-fluenza, having been unable to secure medical attendance, and that the two shildren perisked from starvation.

#### Death of an Old Indian Scout.

Death of an Old Indian Scout. Nyack, N. Y., Jan, 9. -John W. Nel-son, grandson of Thomas Nelson; one of the signers of the Declaration of Inde-pendence, is dead here at the age of Su, The deceased was engaged in the Semi-nole war in Florida and was one of the scouts who went in search of the famous Indian chief, Black Hawk.

#### Weather Indications.

WASHINGTON, Jan. 9 .- For New England: Snow flurries, turning into light rain; slightly armer; southerly winds. For Eastern New York, New Jersey

Eastern Pennsylvania: Generally fair; southerly winds, slightly warmer. For Western New York, Western Pennsyl-

vania, Maryland and Delaware: Generally fair slightly warmer: southerly winds.
