COUNCILMEN and school directors are not as important public functionaries from a national standpoint as presidents and congressmen, but the tion of the electric railway and the introselection of the right sort of councilmen and school directors is of the utmost important to the people of Shenandoah. The time is coming to look up good men for these important positions.

THE SHORT ROUTE TO BE PUT IN CONDITION.

A TRACK AROUND THE OLD ONE.

Work Was Started This Morning and Speedy and Cheap Travel to Pottsville Will Soon be

Re-established.

It was cheering news this morning to earn that the Pennsylvania Railroad Company bad taken steps to put its short line route between here and Pottsville in condition for travel.

The suspension of traffic on this line has been a source of great inconvenience and the uncertainty that has hovered over the future of the branch has been the subject of considerable discussion, marked by expressions of regret.

The advantages of the short line over the Delano route bave been a saving of one-third in the price of fare and a saving in time of travel of at least half an bour made it very popular, and this popularity was increased by the adoption of a new schedule, just before the road was abandoned.

The new schedule enabled people to leave lown for Pottsville at 11:45 a. m., attend court and return here in time for supper. These are advantages with which the Lehigh Vally road cannot compete and when deprived of them the people naturally felt aggrieved.

But, with its usual spirit of enterprise, stepped forward and will again put the line in condition. The section of the road dam aged by the cave-in will remain abandoned and a new track will be laid around it. A gang of workmen and several horses and carts were sent to the place early this morning and began operations. It is believed schedule within a few days.

A. Surprise.

Opposed to the Bosses.

EDITOR HEBALD:-I notice in you entemporary, the News, yesterday, that Mr. Bradigan, assistant superintendent of the P. & R. C. & I Co., will be a candi fate for Council. With all due respect to Mr. Bradigan, I would say that he ought to see that there are too many of his com pany in that body now and it this thing keeps on the Council and, perhaps, the School Board will become boss machines. Elect good men not connected with the company and the people will not be led to suspect that the work of Council will first he for the company and then the people. Give the other people a chance. To those faithful souls whose toilsome lot becomes wearisome to flesh and blood there is an infinite preciousness in the divine power which helps and the divine election law it will be necessary to elect comfort which sustains.
