 ALL THE NEWS FOR ONE CENT.

Has a larger circulation in Shenandoah than any other paper published. Circulation books open to all.

THE seat of war has been transferred to Shenandoah.

WITH two water companies there ought to be a decline in beer, as there will be no excuse for a scarcity of water.

FOR the information of our contemporary, the Journal, we say the people are not up in arms against the electric railway.

THE miners along the line of the electric railway are more than satisfied with the low rates offered them. They could not have asked for better ones.

THE Street Committee will stand by the electric railway. No one questions that, and what is more, the railway will be built and in running order some time in February.

OUR editorial friends below the mountain are requested to keep cool. The war cloud among the corporations will not burst. There will be peace all along the line until near election time.

SHENANDOAH will be the metropolis of north of the mountain and were our voters permitted to vote on the question of a city charter at the next election, it would be carried by a handsome majority. The scales have dropped from the eyes of many people who were opposed to the change a year ago.

If the telegraphic dispatches from Hazleton are true, that place will have no use for its brand new city charter. There are signs of properties saving in different parts and people are becoming alarmed—unnecessarily, we believe. At all events, Editor Maue will not forget us when he is ready to give that thing away—the charter.

PENNSYLVANIA'S finances are in very creditable and satisfactory shape. The report for the year ending November 30 which is just out shows a balance of nearly seven millions in the treasury. The total receipts for the year were nearly seventeen millions and a half, an increase of \$4,381,242.64 over the previous year's receipts. No state in the Union has a better system of taxation, most of its money coming out of corporation profits, collateral inheritances, mortgages and licenses. These subjects like all subjects of taxation, reach the people finally, but it is in the indirect manner in which the burden is least felt by them.

Tested the Seating Capacity.

A melodrama of uncommon strength and merit is the attraction at the Corinne Lyceum this week, and the first production last night was enjoyed by an audience that tested the capacity of this popular theatre. "The Midnight Alarm" is built on usual melodramatic lines, and takes its name from a fire engine scene in which an illustration is given of the interior workings of a fire house.—*Buffalo Courier.* "The Midnight Alarm" will be produced at Ferguson's theatre on Thursday, 21st inst., for the benefit of the Columbia Hose Company. Reserved seat chart now open at Kirlin's drug store.

The Joint Committee.

The members of the joint committee of citizens and councilmen on the water question held a meeting last night and resolved to appoint a committee of five to act in conjunction with the citizens on the outside to circulate a petition endorsing the joint committee in their action in the new water works movement, the petitions to be used when the hearing on the injunction is heard on Monday next.

IT IS ALL WATER.

WATER HERE, WATER THERE AND WATER EVERYWHERE.

THE TOWN IS ACTUALLY FLOODED.

The Water Company Injunctions, Combined With the Heavy Falls of Rain, Gives us a Wet Season.

In conversation with a HERALD reporter yesterday afternoon Mr. E. J. Wasley, treasurer of the Shenandoah Water and Gas Company said: "There are many people in town who do not seem to understand why our company had an injunction issued against the electric railway. The water company's position is this: Our attorneys advised us that if we would sit idly by and let the electric railway company run over our pipe lines, and not say anything, in the future, should we have a break in pipe, or any of our pipes should pull apart, as they do, by the settling of the ground, or should we wish to repair the pipes in any way, that we would, of course, have to dig up the streets to get at them and, probably, pull down the railway and stop traffic on it. In that case the electric railway people could fall upon the water company for damages. Some people of town have said that we just want to hinder and obstruct the work of the railway, but such is not our object. Our reasons for securing the injunction are just as above stated. The railway people are so anxious to keep off of our pipe line as we are to keep them off and they have so expressed themselves, but the Borough Council has instructed the railway company to run in the center of the street and the water company was obliged to obtain the injunction to protect itself against the future. Another thing: this injunction was not obtained on the spur of a moment. The water company, about a month ago, served a notice on the electric railway company not to lay its rails over the pipes and also furnished it with maps showing the pipe lines."

COUNCIL CRITICIZED.

Hints That a Compromise Should be Made.

EDITOR HERALD:—While there is so much being said and done concerning the proposed new water works, will you please allow me a space in your valuable paper to give my views on the question. I have not had anything to say about our dandy Council for some time, not because there wasn't anything to say, but because I believed it was simply useless to try and get them to do what is right. There has not been, for many years, a Council organized with brighter prospects (financially) for doing good than the present one. With not a dollar of floating debt and a treasury in a healthy condition they started the fiscal year. Things moved along finely for a short time. Odd Fellows' day was celebrated at Tamaqua. Our Councilmen, ready to do honor to this day, turned out and went to Tamaqua, ostensibly for the purpose of taking in the parade, but in reality to take in the stone crusher. Result No. 1.—Swelled heads. Nothing but a stone crusher will satisfy them. An outraged public submit, while their desires are gratified. Result No. 2.—Stone crusher is purchased, placed alongside of the hill near Ellenogwan, a shed erected to hide it from the gaze of the public, and we are \$2,000 in the soup. A gracious public forgives and forgets. An agent for the Gamewell fire alarm system comes along and says his little piece. Of course the councilmen couldn't think of doing such an outrageous thing as to consider the matter at all. Result No. 3.—Contract is given the above named company and once more we are in the soup to the extent of \$2,400. Now, of course, they will quit. They have covered themselves with glory (?) have literally thrown almost \$5,000 of the people's money away. They have a stone crusher that don't crush and will have a fire alarm system to awaken the horses by night. But such financial schemes are small matters, and not at all suited to the calibre of our statesmen, and they are now going to establish water works and spend from \$100,000 to \$125,000. Now they have their gait, and were to the man who would be considerate enough to cry, "Whoa!" One of our leading statesmen reasons that if they spend \$55,000, which he claims they lawfully can do, and the water works aren't finished, they will go before the public and ask for more, and if they don't get it they are not to blame. No, the stone crusher don't work and they ain't to blame for that, either. Wouldn't it be better and more in keeping with good common sense to learn the wishes of the people concerning this matter? Now, it should be borne in mind that the election to increase the debt \$45,000 took place more than ten years ago. Public sentiment may have changed since that time and in all fairness to the public they should now be allowed to express their wishes, when it comes to a question of spending \$125,000, and not \$45,000. What if the old company does make 80 to 100 per cent. on their

investment. The citizens of this place are not paying as much for water as they are in the other parts of our county. Private enterprises of any kind should be encouraged, and not subjected to the selfishness of some of our would-be leading citizens, who are in the van in this new water works enterprise, not because they care for the welfare of the borough, but to gratify their selfish ends, and to give vent to their heretofore pent-up feelings concerning the old company, simply because they ain't in it. Shall we be compelled to pay for such things as these? Will not some of our councilmen open their eyes, and see things in their true light? I don't believe there are a hundred people in this place who believe in or want new water works. I do believe that if an agreement were made with the old company to satisfy the judgment they hold against the borough, pay all expenses incurred thus far, and give the borough free water, a sensible conclusion would be reached, and one of some good to every taxpayer in this place. Let something of this kind be done at once and stop this childish business.

Frank Leslie's Weekly.

Everybody should see this week's issue of Frank Leslie's Weekly. It contains a beautiful double page of illustrations of the Drexel Institute, the gift of Mr. Anthony J. Drexel, of Philadelphia, to that city, together with an interesting article descriptive of that institute and of the Childs-Drexel Union Printer's Home at Denver, Col. Among the other interesting pages are a page of illustrations of foreign events, a beautiful frontispiece descriptive of Washington life, and a page of specimens of the wonderful collection of Japanese works and curios at the American Art Galleries. The leading editorial is by Senator Charles T. Saxton on "How Should Questions Relating to Election Contests be Determined?" and will be of interest to all good citizens. Don't fail to see this number.

Of the cleanest comedy dramas on the road is "O'Flynn in Mexico." It will appear at Ferguson's theatre on Saturday, Jan. 16th.

A Rare Treat in Store.

Probably the richest treat ever given to connoisseurs in theatricals will take place with the advent of "O'Flynn in Mexico" and those well versed in stage history will readily recognize in the cast ladies and gentlemen who have been associated with none but first class companies. Artists from the great Daly's theatre, A. M. Palmer's famous stock and leading organizations such as Fanny Davenport's, Clara Morris, Mary Anderson's and others. The managers of this enterprise will present the full cast through these columns and request the readers to fully satisfy themselves through New York friends and commercial travelers of their standing. A list of well written and original songs and dances with a fine vein of the comic will be one of the features truly an entertaining combination of dramatic intensity and laugh producing comedy.

"Judge."

The opening cartoon of Judge for January 16th is devoted to the railroad question, presenting the proposition, "The wonder is that there are not more railroad accidents." A very amusing double page cartoon is entitled "Bashful Jimmy," and represents Mr. Blaine in a bashful attitude before two elderly maidens labelled respectively "For the Democratic Party" and "For the Republican Party." This cartoon is one of the most amusing of the Blaine-Harrison series. The last page cartoon is devoted to La Grippe and its various remedies. The pictures in this number are unusually attractive and suggestive. Price 10 cents. Get it of your newsdealer.

Another Candidate.

EDITOR HERALD:—I agree with "J. C. M." as to what he said regarding P. & R. C. & I. Co. bosses in the Council. While I think that Mr. Bradigan would make a good councilman as could be had, yet we know not what measures might come up before our councilmanic body that would place him in a position that he would have to decide between a good paying position and the interests of his constituents. There is a man in our ward who, I think, would fill the bill completely, and if the Citizen's party take him up they will be sure of victory. He is fearless in his speech and honest.

PERSONAL.

James Kane spent yesterday at Pottsville. J. O. Roads, of Pottsville, was in town last evening. Mrs. Walter Smith returned to her home in Olyphant yesterday. John A. Reilly attended to business at the county seat yesterday. Our good-natured and bustling friend, Maxwell, of the Nickle Plate Railroad, was in town yesterday looking after some business for his road. W. B. Biting, representing the Nesochagus Manufacturing Company, was in town yesterday and showed his pleasant face in the HERALD'S sanctum. "Squire Hessler and Daniel Snyder, of town, visited the HERALD office yesterday and after an inspection of our composing and press rooms, expressed the opinion that Shenandoah should be proud of such an establishment.

Entirely Satisfactory.

W. J. Arkell, publisher of Judge and Frank Leslie's Illustrated Newspaper, writes.

JUDGE BUI DING, Cor. Fifth Ave. and Sixteenth St., New York, January 14, 1891. "About three weeks since, while suffering from a severe cold which had settled on my chest, I applied an Alcock's Porus Plaster, and in a short time obtained relief. In my opinion, these plasters should be in every household, for use in case of coughs, colds, sprains, bruises, or pains of any kind. I know that in my case the results have been entirely satisfactory and beneficial."

"O'Flynn

In Mexico" company tests the seating capacity of every theatre.

Military Organization.

The members of the Major Jennings's Council, No. 368, Jr. O. U. A. M., of town, together with other councils in the county, have formed what is known as 1st Regiment, Jr. O. U. A. M., to be fully equipped in accordance with the regulations of the U. S. Army. The members of town are known as company A, are drilling Monday and Friday evenings of each week at the electric light house. They will make their first public appearance on Washington's Birthday. So Shenandoah can boast of a military organization, although it is not a government affair.

The Most Pleasant Way

Of preventing the grippe, colds, headaches, and fevers is to use the liquid laxative remedy Syrup of Figs, whenever the system needs a gentle, yet effective cleansing.
