READING'S BEST YEAR.

President McLeod, of the Philadelphia and Reading Railroad Company, has reason to feel proud of the work he has accomplished during the past year. He has entrusted to his management which has not been eclipsed since the reorganization.

The prosperity of this corporation not only affects the holders of its securities, many of whom reside in Philadelphia, but it interests a great army of wage earners, the railroad and the coal and iron companies giving employment to 41,537 men, to whom \$15,237,262 was paid as wages last year.

One of the commendable features of President McLeod's management is that the property is not allowed to deteriorate. He is quick to take advantage of extensions and alliances which will add to the company's traffic, and he maintains and adds to the equipment of the property that the traffic, when obtained, may be speedily and profitably handled. The expenditures for betterments of a permanent nature and for new rolling stock were \$1,775,469.

The management has looked out for the future also by arranging to issue \$10,000,000 of collateral trust bonds, from the proceeds of which betterments and equipment will be provided without diverting the earnings from the income bondholders and stockholders.

The junior security holders, especially, have reason to feel encouraged as the policy of the management is evidently one of justice to all classes who are interested.

Candidate for Council.
 EDITOR HERALD:—My attention was called to "Kicker's" letter in Saturday's issue EVENING HERALD yesterday. Not having given his letter any attention previous, I concluded I would carefully read it over. In justice to myself, I will say that he is wrong in accusing me of any personal feeling in this matter. I had fully intended retiring at the expiration of my term, but when I found that for the reason of having done what I considered my duty as a member of Council, and especially as a member of the law committee of that body, the friends of the water company boasted that this would cost me the position, I held, this, I concluded, I would resent and announce myself as a candidate. If my position is wrong the people shall so determine, and not the money of this corporation, or my personal enemies.

"A Royal Pass.
 The locomotive race in Staley's "A Royal Pass" is certainly taking first place of a mechanical effect, on the stage. The press everywhere pronounce it superior to all other effects. "A Royal Pass" will be produced at Ferguson's theatre next Monday evening.

THE ISRAELITES!

THE PROPHECY OF THEIR RESTORATION TO PALESTINE.
 A VERY INTERESTING SUBJECT.

Extracts From the Sermons of Rev. William McNally in the Presbyterian Church on its Speedy Fulfillment.

By request of a number of town people, including several of the Hebrew residents, the HERALD publishes the following extract from the sermon preached by Rev. William McNally in the Presbyterian church last Sunday evening on "The Restoration of Israel. Signs of Fulfillment." Text: Daniel XII. 67. Luke XXI. 24. If the prophetic utterances concerning Israel and Judah are to be fulfilled they will only be so when God has gathered His ancient people out of the lands whither He has scattered them. Their gathering and restoration will just be as literal as was their scattering. The blessing promised will be as surely and certainly fulfilled as was the curse, and we have seen that in the down-treading and oppression of the Hebrew people, and yet their distinct and inextinguishable national life are among the most signal fulfillments of prophecy. How they have maintained and preserved their national distinctions must be a hard puzzle to the man who does not read and understand what Jehovah spoke concerning them by His prophets thousands of years ago. Study the "signs of the times" in the matter of Israel's restoration and see how these ancient prophecies are being fulfilled, and how the set time to redeem Israel is nigh at hand. We will notice, first, the increased interest of leading Jews in the land of their fathers. Some years ago Baron Rothschild obtained a mortgage from the Turkish government on the whole of Palestine for money which he would loan to it on no other terms, and money which that dying nation can never pay. The Turks have had possession of Palestine for nearly 1,200 years and have dispossessed Israel since they captured Jerusalem in the year 635 or 6. The Turkish government has always been Israel's persecutor, as well as the usurper of their land, which God promised to Abraham and his seed. In case of a European war and the fall of the Turkish Empire, which will surely come, Baron Rothschild has only got to foreclose his mortgage and then all Palestine belongs to the "princely Jew." The name of Baron Hirsch is a household word, not only with his own race, but among the civilized people everywhere. He is now advocating the cause of his people against the barbarous cruelties perpetrated on the Jews by the Russian government and is devising a great scheme by which five millions of Hebrews in Russia may find homes in more congenial soil, and the cry is "Palestine! Palestine!" As by common instinct, the thoughts of all nations turn to Palestine as the ultimate refuge of the persecuted Jews. Second, notice further the events that are bringing about the colonization of Palestine. The Egyptian persecutions which forced the first exodus into Palestine are being re-enacted in Russia and Turkey today and most and in their expulsion from those countries, when they will largely settle down in Palestine, the land of their fathers. The horrid and sickening persecutions in Russia, in some respects, outstrip those of Egypt. Another sign of the fulfillment of prophecy is the large settlements of Jews already in Palestine. It is estimated that about 120,000 are now settled in different parts of the country. A few years ago but 8,000 could be found in all Palestine. In 1882 there were 20,000. The memorial which was presented to the President of the United States last March, and which was numerously signed by the leading men of the country, requesting the government to use its good offices and influence with the great powers of Europe to the end that an international conference be held to consider the condition of the Israelites and the expediency of restoring to them their ancient land of Palestine, as a country and a home, is a very significant event. There never has been an age since the destruction of Jerusalem and the subsequent dispersion of the Jewish people in which the race wholly abandoned the hope of one day returning to the home of their fathers. Eighteen centuries of exile and wandering has not dimmed their hope. Mrs. Gratian Guinness, of London, says a society has recently been formed there, called the "Co-operative Zion Society," for the purpose of promoting the re-colonization of Palestine by its rightful owners. A remarkable petition adopted at a large meeting of this society was presented by Lord Rothschild to the Marquis of Salisbury. It urged him to use his influence with Russia that she would make the departure of the poor Jewish exiles as easy as possible; and with Turkey, that she would receive them and protect them in Palestine and neighboring districts. The persecuted people are directing their aspirations with one consent on the land of promise. What is the mean-

WHAT SHALL THE HARVEST BE?

ing of this unprecedented, though natural, movement? It tells us that the time has arrived in the good province of God for the long predicted restoration of Israelites to their own land. The incipient restoration we are now witnessing is a profoundly interesting event to Christians, confirming their faith in the inspiration of the Bible and indicating to them in the strongest and clearest way that the coming of the Lord draweth nigh. It was the one sign wanting still within the last few years, but it shines out now each month more clearly and should arrest the attention of all. In a word, a careful study of Scripture shows that the present Jewish crisis is the beginning of the end. We are further informed, through the press, that the plans and specifications of the new temple at Jerusalem are out. There will soon be erected, on the Bethlehem road, 2,500 houses; and just over the Kedron valley 110 houses are going up. Another man has built a village at Jabok, or Jacob's bridge. They are buying ground and planting vineyards. One alone having planted five millions of vines and many trees, some with the intention of raising the silk worm and others taking up other branches of industry. This is a fulfillment of Jeremiah 32: 34-37. A railroad will soon connect Jerusalem with the sea coast. The trade of Jerusalem is now principally in the hands of the Jews. Jerusalem is ceasing to be trodden down of the Gentiles. This time the Turks were to have rule over the Jews' country was 1,200 years (Rev. XI. 2) to which, if we add 635, when Jerusalem was taken by the Turks, we come to 1835. An Episcopal clergyman in England predicted this in the year 1759, or 132 years ago. We are quite safe in saying that between now and 1895 the Jews will become a nation in Palestine. Take another view, as held by Prof. Totten, of Yale. "Times of the Gentiles." These commenced evidently with the first great empire, "The Head of Gold," or Babylon. It has been "Gentile times" ever since. The first King of Babylon was crowned 3378, A. M., leaving out months. Now how long were the times of the Gentiles to continue? Moses predicted that Israel should be punished seven times for her sins. The seven times or years of Nebuchadnezzar's insanity are also typical of Gentile times. 800 multiplied by 7 = 5600. 2520 and 3378 = 5898 A. M. or our 1900 A. D. This is the astronomical year of 5890. On March 23rd, 1892, the civil Jewish year of 5662 will begin; and in September, 1892, the 565-2 sacred year begins. March, 1900, will be the beginning of the Jewish year 5655-0, or, as we would say, 5660. Now what is the significance in this? Very much. It is the year of Jehovah! Another fact of peculiar significance to this Jehovahitic Jewish scale of time: As it is shorter by 238 years than the actual or natural astronomical one of 5898 years, it must have had its origin 238 years later. The key to the Jewish calendar, which has always mystified chronologists is to be found in the last paragraph of the last verse of Genesis XIV. "Then began men to call on the name of the Lord," i. e. of Jehovah. Now, who was this? It was two years after the birth of Noah, for Adam was 130 years old at the birth of Seth, and the latter was 100 years old when Enos was born, or the 237, nearly the beginning of the 238th astronomical year of the world. It was then that men began to call upon the name of Jehovah, and when they have called upon Him as many years as his name chronologically signifies, 5660. He will halt on it, as all collateral prophecy unites in testifying, 5660 and 238 = 5898, or 1900 A. D. So the great significance of the Jewish year 565-10, or 5660, as we would say.

Everybody Likes It.
 "The Midnight Alarm" as given at the Corinne Lyceum last evening is one of those pieces that everybody likes because it is every-day life, made doubly interesting by the introduction of a few more sensations and narrow escapes than usually happen off the stage. The scene of the attempt to wreck a "South Shore Express" and the fire scene are very realistic and exciting. It is a five-act melodrama and sure to draw good house.—*Buffalo Enquirer.* "The Midnight Alarm" will be produced at Ferguson's theatre on the 21st inst, for the benefit of the Columbia Hose Company. The Schoppe orchestra will furnish the music. Reserved seat chart now open at Ferguson's theatre.

BURLESQUING MARY.

The Hazleton "Sentinel" Man Says Naughty Things.
 May Davenport's Burlesque Company, which is to appear here, played at Hazleton on Tuesday evening, last, and this is what the dramatic critic of the Hazleton Sentinel says of her: "Hattie Hall held a queer crowd last night. It was a low browed, retreating crowd that made a man feel ashamed of himself. The faces in the front rows were like those peculiar mugs you see on the inside pages of the Police Gazette, which you read in the barber shop when you go there to get shaved."

There wasn't a woman in the audience. Men well known around town sneaked in with guilty smiles on their faces. When the curtain went up George Freebie came out as "end man." Hazleton has had many things charged to it, but if George Freebie bills himself as coming from Hazleton the town ought to go down the mine. A town that can produce a monstrosity in the end man line like that has a great deal to answer for. I have heard that George claims to come from the "metropolis," wherever that is. It was the earnest wish of a \$217 house that he would go there and stay.

There were seven females on the stage. Three little Hazleton girls were decoyed in to take part in the performance. They sat on the stage like blocks, painted worse than cigar signs. One of the girls was subsequently yanked out by her sister, who threatened to call the police.

But the show.
 May Davenport, a top-heavy looking specimen, was the interlocutor. There was a farmer, and three fairies with faces sharp and rough enough to cut cold slaw, and voices that could only blend with the sweet cadences of a saw being filed.

The jokes were villainous. The club swinger was great. The only thing that can be charged against him is that he is in very bad company. The pianist was a villainous player and Davenport refused to pay him more than fifty cents, and it was money thrown away.

The manager was fearful of arrest. He left the hall when the curtain rang down. But nobody made such a move, though it should have been made.

The Sentinel adds: "Performances such as the May Davenport Company give call for the intervention of the strong arm of the law."
