BURIED IN THE RUINS

A Russian Church Collapses With Awful Results.

SCORES OF DEAD AND INJURED.

Fire Breaks Out and Adds to the Hor-
row of the Scene.

Three Vessels Arrived at London Report
Having Passed Burning Ships—It is
Probable That Many Lives Have Been
Lost—Great Suffering Reported in Ire-
land—The French Troops Victorious in
Tangiers.

St. Petersburg, Jan. 23.—A Slobod-
skoj, sixteen miles from Viatka, a fright-
ful accident has just occurred. A large
congregation thronged one of the numer-
ous churches for which Slobodskoj is
celebrated. While worship was going on,
and without any warning, the roof of
the church fell in with a tremendous
crash. The people were crushed beneath
the great beams, and fearful cries went
up from the struggling and writhing
mass.

Those who were able rushed to the
windows and doors for egress, and a
number were hurt in the effort to get
out. The people of the town hurried to
the rescue and aided in extricating the
dead and the injured. Meantime fire
broke out in the wreck from the fire that
had been used to warm the church.

Fortunately the rescuers succeeded in
extinguishing the flames without addi-
tional loss of life. The number of
killed and injured is estimated at sixty-
five or seventy.

VESSELS BURNED AT SEA.

Considered Probable That in Each Case
Lives Were Lost.

LONDON, Jan. 23.—It is believed that
two vessels have recently been burned at
sea, and it is considered probable that in
both cases every soul on board was lost.
Three incoming steamers have reported
passing burning vessels supposed to
have been laden with petroleum for Eu-
rope.

The last vessel to report passing one of
the burning ships is the Egyptian Mon-
arch, Capt. Irwin, of the Wilson line.
Capt. Irwin says he left New York on
Jan. 5, and that at 1 a. m. on Jan. 16, he
sighted a wooden ship, apparently of
American build, which was on fire and
burning furiously as if her cargo were
petroleum. A high sea was running and
nothing could be done to help the crew.

As reported yesterday, the British
steamship Imperial Prince, Captain Cox,
which left New York on January 4, ar-
rived at Portland on her way to Leith
and reported having passed a burning
vessel. This was on the morning of
January 16.

It will thus be seen that the Egyptian
Monarch and the Imperial Prince on
January 16 sighted a burning vessel in
the same latitude and longitude about
400 miles southwest of Cape Clear, Ire-
land. Captain Cox expressed the opinion
that all the burned vessel's crew must
have perished, as no boats could have
lived in the sea then running.

The second vessel reported on fire was
seen January 11 in latitude 44 north and
longitude 43 west, by the commander of
the British steamship City of Dundee,
from Norfolk and Newport News January
5. He described her as a large steamer
and said she had been abandoned. The
City of Dundee's commander did not see
any boats, although he made search for
them, and came to the conclusion that as
there was a heavy sea on all hands had
perished or had been picked up by a pass-
ing vessel. This burned vessel was seen
about 450 miles northwest of the Azores,
and about 800 miles southwest of where
the Egyptian Monarch and Imperial
Prince sighted a burning ship.

French Victorious in Algiers.

PARIS, Jan. 23.—Telegrams from Algiers
say that the French detachment
sent out to punish the Samory tribe in
the French Soudan for acts of violence
and outrage, met them on January 11
and had an obstinate battle. The French,
although largely outnumbered, compelled
the natives to retire with a loss of hun-
dreds killed and wounded. The French
loss was six dead and thirty wounded.

Suffering in Ireland.

DUBLIN, Jan. 23.—There is terrible
suffering in the mountainous part of
northern Ireland owing to the deep snow
and the severe cold. Many persons are
reported as frostbitten, and cattle have
perished in the storms. In Tyrone two
girls named Quinn were lost in a snow-
storm. A searching party was organized
and after a long and difficult search the
girls were found frozen to death.

Cooking Main Arranged.

CORNLAND, N. Y., Jan. 23.—Articles of
agreement were drawn up and signed at
the European Hotel last evening for the
cooking main between Central New York
and Pennsylvania. Each side will fight
all the birds that weigh in and will give
and take two ounces. Eighteen birds
will be fought on each side at \$50 dollars
a battle, with \$500 on the odd fight or
the main. The main is to take place
before March 1.

Offers His Yacht in Case of War.

BOSTON, Jan. 23.—J. Edwin Addicks,
president of the Boston Gas company and
owner of the noted steam yacht "New
Then," has tendered a loan of the vessel
to the government without consideration
in case the services of a fast dispatch or
torpedo boat should be needed in the
event of a war. The vessel is now un-
dergoing thorough repair in this city.

FIVE KILLED, THREE INJURED.

Awful Wreck on the Atlantic & Pacific
in New Mexico.

ALBUQUERQUE, N. M., Jan. 23.—Shortly
after 12 o'clock midnight a Raymond and
Witcomb special going West on the At-
lantic & Pacific, and a passenger train
coming East collided a few hundred
yards east of Blue Water, a station on
Atlantic & Pacific Railroad 107 miles
west of this place, and five employees of
the road were killed and three injured.

The killed are: Engineer Taylor of the
regular train, Fireman Keaggy, Engi-
neer Moore of the special, Conductor
Moran of the passenger, and Fireman
Waverly of the special.

The injured are: R. S. Gordon, baggage
master; Tom Collins, baggage master;
W. C. Smith, express messenger on the
passenger.

The injuries are slight. The passengers
were badly shaken up, but none of them
on either train sustained serious injuries.
A special train bearing officials of the
road went out to the scene of the wreck.
The blame for the wreck has not yet
been located.

Monument to a Welsh Composer.

SCRANTON, Pa., Jan. 23.—Gwilym
Gwent, the great Welsh composer, whose
death at Plymouth last June was a source
of grief to Welshmen all over the world,
is to be honored by a monument for
which it is proposed to raise a fund of
\$10,000. At a meeting here, committees
representing the entire coal regions of
Pennsylvania and of Western mining
towns have been appointed to carry out
this object. It is also proposed to hold a
mammoth Bistedford next Fourth of
July at which Gwent's compositions will
be the principal competitions in behalf
of the fund.

Why They Cheered.

The Reading Railroad's Splendid
Showing for 1891.

Corporation meetings are not usually
demonstrative. On the contrary, as a rule,
such gatherings are characterized by cold-
blooded and business-like reticence. It
must, therefore, have been peculiarly grati-
fying to President McLeod, of the Reading
Railroad, when, at the annual meeting of
that corporation the other day, the stock-
holders applauded the unexpectedly favor-
able report of his administration of their
great property during the past year.

The results accomplished and the gains
achieved in every department of the Com-
pany's business during a year when other
railroads have barely succeeded in hold-
ing their own, have scarcely a parallel in
railway history, and constitute a most em-
phatic endorsement of the integrity and ability
of the road's present management.

As compared with 1890, the business of
the railroad itself for 1891 shows an increase
in net earnings of \$1,669,216.44, and an in-
crease in profits of \$1,510,038.82, while the
Coal and Iron Company's operations ex-
hibit an increase of \$633,839.94 in net
earnings, and a total gain over the previous
year of \$840,423.67, making a total gain,
for the two companies, of \$2,164,462.49.

The net amount set aside as profits for
1891 is considerably more than double that
of 1890. Out of this there will be paid the
full interest, 5 per cent, on the first prefer-
ence income bonds, and 4 per cent, on the
second preferences. That the management
did not strain a point to pay the full 5 per
cent on the latter securities is evidence that
Mr. McLeod will not descend to question-
able methods in order to make a good show-
ing.

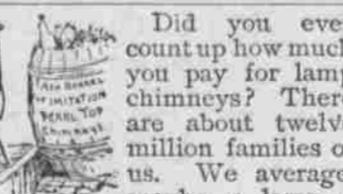

Many interesting facts are to be gleaned
from the President's report. From it we
learn that the Reading Company is one of
the greatest land owners in the Union, its
vast estates, comprising coal, iron ore and
timber lands, aggregating upwards of 194-
000 acres. The Company owns at least 50
per cent, of all the anthracite coal remain-
ing unmined in Pennsylvania. The Read-
ing is also a landlord on a very large scale,
owning 2,764 dwelling houses, built upon
its lands, and for the most part occupied by
miners and other employees.

To operate the mines there is employed a
corps of 24,754 men and boys, and it will
surprise most people outside of the "region"
to learn that this number only 9,709 are
foreign born. 2,600 horses and mules, 18
locomotives and 7,276 mine cars are in use
underground to move the coal from the
"chambers" to the breakers. Among the
commodities used at the mines annually
are 2,000 tons of blasting powder, 140 tons
of dynamite, and for horse feed 150,000
bushels of grain and 6,200 tons of hay.

There are 16,788 men on the railroad's
roll; these added to the army employed
about the collieries make a total of 41,537,
to whom were paid for wages during the
year \$18,237,262.70. It may be estimated
that fully 300,000 persons depend directly
for support upon the earnings of the Read-
ing employes. For supplies of various
kinds the Company disburses millions of
dollars annually, and the re-distribution of
these vast sums among the population in
general is suggestive of the interdependent
relations existing between this corporation
and the communities in which it operates.

Altogether, the report is most gratifying,
not alone to the holders of Reading securi-
ties, but also to the public at large, as dem-
onstrating the complete financial as well as
physical rehabilitation of a great and im-
portant property.

We should all be great men if we
could be measured by the great things
we intend to do to-morrow.

Did you ever
count up how much
you pay for lamp
chimneys? There
are about twelve
million families of
us. We average,
maybe, a lamp a
family; chimneys break, perhaps,
at the rate of one a week a lamp.
Six hundred million chimneys a
year for the ash barrels.

Suppose they cost ten cents a
piece on the average; that's
enough to half pay the national
debt. Nine-tenths of it waste.

If you get Macbeth's "Pearl-
top" or "Pearl-glass" you will
pay a trifle more apiece, but not
one-tenth as much a year.

Disreputable chimney makers
are trying to furnish the dealers
with cheap imitations. They
break from heat, ruin the temper
of the household and fill the ash
barrels; a plague and a nuisance.
Insist on having the right kind.

Remarkable Facts.

Heart disease is usually supposed to be in-
curable, but when properly treated a large
proportion of cases can be cured. This was
done by Dr. E. H. Egan, and Mrs.
Mary L. Baker, of Ovid, Mich., were cured
after suffering 29 years. N. E. Linton, Jr.,
of Ovid, Mich., was cured after suffering 29
years. Dr. Egan's Nervous and Heart Cure,
which cured the former, "worked wonders for his wife." Levi Egan,
of Ovid, Mich., who had been blind for
25 years, says two bottles made him "feel
like a new man." Dr. Miles' Nervous and Heart Cure

the doctors to do was muscular rheumatism.
I was unable to walk for nearly six
weeks. All this time I was using the medi-
cine prescribed by the attending doctor, and
from which I got no relief.

A friend sent me a large bottle of Castor

CHILI BLAMES EGAN

His Recall Demanded From Secretary Blaine.

FALSE REPORTS ARE ALLEGED.

Suspension of Communication Between the Two Countries Likely.

The Chilean Government Charges that
Egan Has Tried to Foment War—He
Has Been Instructed to Ascertain Chile's
Intention in the Affairs—No Word From
Him Yet Received—The Message to be
Sent to Congress Monday.

WASHINGTON, Jan. 23.—The formal re-
quest made by Minister Montt for the
recall of Minister Egan did not occasion
much surprise as the action had been ex-
pected for some time. It is said that the
Chilean Government bases its request for
the recall of Mr. Egan upon the allega-
tions that the American Minister had
been guilty of making reports to Wash-
ington that were deliberately false and
of engaging in intrigues for the purpose
of creating trouble between the United
States and Chili.

"The publication of the correspond-
ence with Chili," said a gentleman who
is acquainted with it, "will conclusively
disprove the assertions of the Chilean
Government. Mr. Egan has kept this
Government fully advised of the progress
of events in Chili since his arrival there,
but he has done so without partisan bias.
The members of the United States Gov-
ernment who are familiar with his con-
duct, fully approve it, and President
Harrison and Secretary Blaine are fully
in accord in the estimation with which
Mr. Egan is held.

"This action on the part of the Chilean
Government, which is the first official
indication of their dissatisfaction with
Minister Egan, will have a tendency to
precipitate a crisis in the relations of the
two countries. It is taken in official cir-
cles to indicate that Chili does not intend
to make reparation or apology for the
Baltimore incident unless it can attach
conditions which will preserve the pride
of the government of that country, and
enable it to retain the respect and sup-
port of the people who would resent an
unqualified apology.

"This incident, under the conditions
prevailing, comes perilously near a sus-
pension of communication between the
two countries, and the developments of
the next day or two will be awaited with
much interest.

The administration awaits a report
from Minister Egan as to the intentions
of the Chilean Government. The
Minister has been instructed to
call upon the Cabinet at Santiago for an
immediate categorical answer to the
question whether Chili has any intention
of making a favorable response to the
demands of the United States, either now
or at some future time. An answer to
the demand is expected hourly but nothing
has yet been received.

The Cabinet would not be surprised if
Minister Montt, finding himself set aside
in the negotiations, should conclude to
withdraw from the country. The action
of the administration was taken with
this possibility fully in view.

The time for diplomatic subtleties
has passed and there will be no more
delay for any cause unless the Chilean
Government states definitely and at once
its intention to satisfy fully the demands
of the United States. The message,
which will go in Monday, will be so com-
plete in its treatment of the question at
issue that a perusal of the correspondence
accompanying it will, according to the
statement of a Cabinet Minister,
be altogether unnecessary. The mes-
sage will cover the history of the case
from the beginning, and will be as clear
as it is complete.

Says there is No Animosity.

LONDON, Jan. 23.—Dispatches sent
from here declaring that there is great
animosity in Chili against the United
States have no foundation in fact. Every-
thing is quiet. President Montt is about
to leave the capital for the baths. The
Chilian squadron has sailed from Val-
paraiso for the usual evolutions at sea.
Private dispatches from Valparaiso par-
tially confirm the above and say that
nothing unusual seems to be going on,
but it is evident that the fleet is prepared
for any emergency. It is kept in a high
state of efficiency.

Killed by School Boys.

LEMA, Ohio, Jan. 23.—Frank Laughlin,
a 12-year-old boy, was killed here while
attempting to defend his sister, who
teaches school in McDonald Township,
Hardin County. Miss Laughlin was chas-
tising Bert Smith, John Stevenson,
Charles and William Spurlock, aged 14
to 17 years, when they turned on her and
were using her very roughly. Her
brother went to her defence. The boys
turned on him and beat him with clubs
and their fists until they inflicted injuries
which resulted in his death. Miss Laugh-
lin was badly injured. The unruly boys
were all arrested and are confined in the
jail at Keaton.

Why Shirk Was Removed.

READING, Pa., Jan. 23.—Levi S. Shirk,
for many years postmaster at Morgan-
town in this county, has been removed from
his office by the authorities. Some time
ago charges were brought against him
and an investigation was made. It was
alleged he had made uncomplimentary
remarks about Postmaster-General Wan-
maker and President Harrison, and that
the Administration was adversely criti-
cized. Samuel Dechley, an old soldier,
has been appointed in Shirk's place.

Protested Against Starching Machines.

ALBANY, N. Y., Jan. 23.—Five hundred
strikers, women and girls, made a
demonstration before the collar factory
of Cluett, Coon & Company, on River
street, Troy, last night, against the intro-
duction of starching machines. Frank
Wheeler, the foreman, was assaulted and
badly injured. A policeman arrested one
of the women, but she was rescued by
her companions and the policeman thrown
into the street. It took fifteen officers to
quell the disturbance.

pointed Reading Clerk, by Mr. Kerr,
Clerk of the House of Representatives.
This appointment comes after a long con-
test between a number of aspirants for
the position that has been going on ever
since Congress met.

CACTUS BLOOD CURE.

SUPERIOR TO SARSAPARILLA

Purifies the blood by ex-
pelling the impurities through
the proper channels and never
causes eruptions on the skin.

Regulates the bowels. Cures
dyspepsia, liver and kidney
troubles, tones up the system
and gives you an appetite.

Never fails to cure any con-
dition produced by impure or
impoverished blood, or a dis-
ordered state of stomach, liver
or kidneys.
