Appeals and Protestations of Repentance.

POPUMULEPHIE, N. Y., Feb. 17 .- A romance that has been interesting Dutchess County people for some time ended last night in a quiet wedding in the village of Wappingers Falls. The story is remarkable inasmuch as it embraces all the elements that go to make up a romantic novel.

John Dwyer and Mary Clear became engaged at Wappingers Falls some months ago. The bans were published at St. Mary's Catholic Church two weeks ago last Sunday.

Mary's father, Michael Clear, a prosperous farmer of Sylvan Lake, Dutchess County, hurried to Wappingers Falls, forbid the marriage and created a scene

in the village. The couple, however, were bent on matrimony, and were secretly married by Justice Hignell on the same day. A few hours later Michael Clear com-

pelled his daughter to accompany him to Sylvan Lake, leaving the disconsolate groom of an hour to ponder on the rug-

Farmer Clear learned for the first time that his daughter was married when the constable and Dwyer drove to his door with the writ last Friday night. Clear relented at once and permitted the bride and groom to meet for the first time since their marriage, which occurred on February 2.

Then a new trouble developed. The bride, being a devout Catholic, was not satisfied with the civil marriage, and re-fused to embark upon the honeymoon

This nearly prostrated the bride, who would not be satisfied unless properly matried in the church. The couple extrestly pleaded, cried and said they repented of their behavior, and the good priest's sympathies were finally aroused and hs consented to marry them.

The wedding took place last night and a bappier couple, after the culmination of their troubles, it would be hard to

EX CUTION BY GAS. Method of Killing Murderer-

SYRACUSE, N. Y., Feb. 17.-Assemblyman Stein, who has gained considerable notoriety on account of his opposition to the electrocution law, is in constant re ccipt of letters from all parts of the State commending his action

He has received a letter from Dr. Gib bons, of Syracuse, the inventor of the improved chair used in electrocution. The doctor not only disapproved of killing by electricity, but suggests a novel method for killing murderers by gas while they are sleeping. He says: "I would suggest the execution of

When the prisoner falls asleep the window should be closed and the gas turned on from a tank, or the city gas might be used. With either of these you could kill a man in a small cell before he could raise a hand.

"But the law should provide that the criminal be killed while asleep. This does away with the sight of the electric chair or gallows. Dr. Gibbous sent with his letter draw ings from which a better idea of his plan might be obtained.
