EUROPEAN IDEAS VERIFIED IN AMERICA.

The Most Important Subject of the Present Day Settled Beyond Question.

The cable dispatches which recently appeared in the daily papers indicating the great interest felt throughout Europe upon a subject of international interest have naturally awakened great attention, not to say excitement, in this city and throughout the land It is a well-known fact that the demands of modern life have caused a strain which seems to shorten life and undermine health universally. The efforts made abroad to Investigate its cause are most commendable, and we are pleased to say have been supplemented by similar efforts in America Careful inquiry has been made amonprominent physicians, and it is sur-prising what uniformity of opinion is expressed by them all. That opinion seems to be that the great modern dis-ease is kidney trouble, and that the kidneys are the first organs of the body to be attacked by over-exertion or over indulgence, and the first to become weakened by the grip. That this is a most lamentable fact there can be no doubt, but that these troubles can be prevented and cured the investigation made abroad clearly show. In the interest of humanity we have made similar investigations, and the result is given herewith. Dr. N. S. Davis said: "Peop edo not know what Bright's disease is. The term is applied popularly to every prominent physicians, and it is sur

term is applied popularly to every trouble that even remotely affects the kidneys. There are two forms of the trouble—one an enlargement and the

other a shrinking of the k dneys. Dr. Frank T. Andrews says: "The term Bright's disease covers a great many complaints. In fact, any case of albuminaria is called Bright's dis of albummaria is called Bright's dis-curable. The majority of these cases are curable. The reason a man dies of kidney trouble is the inability of the organ to perform its functions." Dr. S. Clarke declares: "There was a time when any man or woman suffer-

ing from any form of kidney trouble had cause for despair. That time has passed For the past eight years I have treated every variety of kidney trouble in both men and women, and I do not believe there is a case so I do not believe there is a case so severe, no maiter of how long stand-ing, that it cannot be relieved or cured by the careful and conscientious use of Warner's Safe Cure."

Dr. Charles W. Purdy says: "There are many diseases grouped under the head of Bight's disease of the kid-neys. One of the most serious forms heys. One of the mest schous that is almost always accompanied by heart trouble, which frequently causes the death of the patient. The acute form will kill the patient within a few years unless he receives proper treatment." Dr. R A. Gunn, Dean of the United States M-dical C diege, declares: "For years the treatment of Bright's disease has been largely experimental. I am independent enough and frank enough to commend most heartily that great remedy-Warner's Bale Cure

Dr. A. B. Hosmer affirms: "Acute Dr. A. B. Hosmer affirms: "Acute Bright's disease in children is curable. The kidneys, you see, are waste gates, and when they are partially closed trouble must result." Dr. Tyre York, of Washington, D. C., asserts: "I think Warner's Safe Cure a great blessing to mankind, and

if taken regularly will cure almost any disease of the kidneys. I prescribe it

a my practice " Dr. C. Washington Earle, of Chicago, says: "Disease of the kidneys may be slight or aggravated. The object to be attained is to limit the overworked

She had evidently wearied of the at-tempt to keep her St. Bernard companion with her and told the botel people she would not insist on the dog sharing her rooms with her: but during her ride the rooms had been engaged and Sarah's choler, which had been gradually rising, now reached a point which she could find relief in an outburst of the most em-phatic French that has greeted the ears

of the hotel folks in many a day. She again folded her wraps about her and giving the hotel clerk in particular and St. Louis in general, such a scorch-ing as only Sarah can give, once more ing as only Sarah can give, once more entered the cab, and at a late hour in the atternoon, was wandering about the streets in a pouring rain, seeking quart-ers for herself and dog.

FIVE LIVES FOR ONE.

Failing Walls Crush He cuing French Firemen to Death.

LILLE, France, Feb. 19 -Five men lost their lives here in a gallant attempt to rescue a person supposed to be within the walls of a burning building.

The disaster occurred at a fire in a drapery store. When the whole building was wrapped in flames a report was cir culated that one unfortunate person had culated that one unfortunate person had failed to escape, and the five men bravely entered the building and began to feel their way through the blinding smoke and flame in the direction where the miss-ing person was supposed to be. They had them in the building only a few seconds when the walls fell in with

a terrible crash and the five heroes were buried beneath a huge pile of burning debris and instantly killed.

Mr. Warner knew whereof he affirmed, for he himself had been cured of Bright's disease in its wort form.
