**STOLEN BEFORE.**

The action of Governor and Senator David B. Hill and the Democrats in stealing the Legislature from the people of the State of New York in 1891 recalls to mind the equally desperate and far more important burglary committed by the same Democratic party in the State of New York in 1884. No one acquainted with the facts has ever doubted that James G. Blaine had a plurality of votes in that state. The state which he had carried was stolen from him by Democrats, boldly and directly, and was accomplished through counting votes cast for Butler the Greenback candidate for President, as votes cast for Cleveland. General Butler in his autobiography, just published, says in reference to this now historical fact in the Presidential campaign of '84:

There were votes enough thrown for me several times over to have prevented Mr. Cleveland's election, but in many of the polling places they were counted, not for me, but for Cleveland, and so the electoral ticket for the State of New York was counted for him by a few hundred votes only.

General Butler adds that except for the unfortunate illness of John Kelly it would have been proved in court that Cleveland was elected President by counting for him votes that were cast for Butler. The Democrats stole the Presidency by stealing New York then, and thus put that great reformer, Grover Cleveland, in the White House. Now another New Yorker is trying to steal into the White House again by again stealing the State of New York. The Cleveland followers and papers in New York state who are so indignant at Hill now, were not indignant when the state was stolen for Cleveland and the Presidency thereby secured to him in '84. These two historical facts simply show that both elements and all elements of the Democratic party are corrupt and desperate when opportunity offers.

Up to date the present Democratic House stands pre-eminent as the one which has cost the country the most

and transacted the least amount of business in a given time. In both these particulars it has a record beyond that of any legislative body that ever sat in the United States.

**PHILADELPHIA'S LIBERALITY.**

Philadelphia is, indeed, the City of Brotherly Love. Up to the 22d inst. her people had subscribed \$72,002.25 towards alleviating the starving, oppressed Russian Jews, while New York, the New Palestine, where the Hebrew population alone controls the wealth of that Sodom and Gomorrah, subscribed but \$31,922.00. Philadelphia is a Republican city, while New York is Democratic. What a contrast!

On that day the American steamship "Indiana" set sail for Libau, Russia, laden to her utmost capacity with food for the starving subjects of the Czar, and the entire cargo was sent as a free will contribution from the people of that city. It is a notable event, and one that will live in history, for not only is it the first American contribution in aid of a cause that cannot but commend itself to all philanthropic hearts, but, moreover, it nearly doubles in money value the contributions of all the cities of Boston, Baltimore and New York combined.

The good work still goes on in that city and many thousand dollars more will be raised and perhaps another steamer will be sent in the wake of the Indiana.

**Noble Philadelphia! Kind-hearted Quakers!**

If a Democratic House, with a majority of two-thirds, can run two months at an expense of over \$700,000 without doing anything, or even getting as far as the adoption of rules, how much can it expend and how little can it accomplish in the course of two years?

If free coinage should send American gold to Europe the expansion in the volume of money there would cause a rise of prices and cotton would sell higher. Free coinage, while poison to the North, it is thought would be ment to the cotton states.

**STILL ANOTHER ELECTRIC RAILWAY.**

**ST. CLAIR AND MINERSVILLE TO BE CONNECTED.**

**IT WILL BE TEN MILES LONG**

Names of the Parties Interested in it—A Charter has Been Granted and Work to Commence This Spring.

Another street railway company has been chartered for Schuylkill county. It is to connect St. Clair and Minersville.

The company was chartered last week with a capital stock of \$100,000. Among the gentlemen interested are Hon. Charles N. Brumm, Minersville; Contractor Hall, Pottsville; Hon. Elias Davis, Broad Mountain; W. F. Sadler, Jr., of Carlisle, is the president and John F. Finney, of town, secretary and treasurer. The road will be about ten miles in length and will be known as the Minersville and St. Clair Street Railway. It will start at the corner of Market and Centre streets in Pottsville, cut Centre street to Fishbach and thence to Minersville. The connection with St. Clair will be made by Locust street. Work on the road will begin as soon as the weather opens.

**A SYNAGOGUE AND SCHOOL To be Erected in Town—Public Subscriptions.**

There is a movement on foot to establish a house of worship and a school for the benefit of the Jewish families in town. There are about sixty families in town who are members of the Kahels of Israel Congregation and, as such, have been worshipping in a room on the top floor of the Baddall building, corner of Main and Centre streets. These quarters, it is claimed, are not sufficiently large for a place of worship, and as a school for the instruction of the Jewish children is badly needed it has been proposed to erect a building that will serve for both purposes. As the Jewish families, with few exceptions, are poor it is proposed to appeal to the people in general for subscriptions to help defray the expense of such a building and to that end Mr. Charles Yarowsky, secretary of the congregation, has prepared an appeal for circulation and the following named gentlemen have volunteered to see that they are properly brought before the people: Messrs. Levi Rofowich, Louis Golden, Max Zupowitch and Wolf Levine.

**Cranks**

When we speak of cranks we do not mean men who attempt to blow up millionaires with dynamite.

The crank we mean is that piece of mechanism that transmits the power from the piston-rod to the working part of the machine. In a sense, the Instruction Papers of the Mechanical Course of The Colliery Engineer School of Mines are cranks. They transmit the experience and skill of the great mechanics of the past and present to the student so that he can do his work better, rise to a better position, and earn more money. It will cost you a postal card to learn how you can secure a thorough education in the theory of mechanics by studying at home, without losing an hour from work, at little expense, and by an easy method. Send a postal card for free pamphlet giving full information to The Colliery Engineer Co., Scranton, Pa.

**ALMOST TO THE SHEAVES.**

**Narrow Escape of Two Prominent Mine Officials.**

Assistant Superintendent Bradigan and Inside Foreman Morgan Davis had a narrow escape at the Indian Ridge colliery shaft yesterday. They stepped upon the cage to descend the shaft and the substitute engineer, who was acting in the absence of Jere. Roxby on account of illness, started the engine the wrong way. The cage darted towards the sheaves. Fireman Reynolds took the situation in at a glance and sprang to the lever. He reversed the motion in the nick of time to save the two officials from very serious injury, or death.

**PERSONAL.**

Henry Aregood is the happy father of a boy. F. V. Heisenberger spent last evening at Mahanoy City. G. W. Beddall is spending a week in New York City. Mrs. G. W. Beddall and children are visiting relatives in Easton. John H. Evans and Mrs. O. B. Williams spent to-day at Wilkes-Barre. David E. Faust, of Tremont, was in town last evening, the guest of his mother. Mrs. Woods, sister of R. A. Glover, and her children, are visiting at Mr. Glover's. Mrs. C. R. Eberle, of Philadelphia, and her two children, are guests at the Ferguson House. Miss Kate McDonald, of Ashland, and Miss Maggie Whalen, of Pottsville, spent last evening in town with friends. C. R. Eberle, superintendent of electric railway, is confined to his room in the Ferguson House on account of a fractured knee cap. Mrs. C. T. Gibson is representing the local corps at the ninth annual convention of the Women's Relief Corps, G. A. R., at Pittsburg.

**ALL HANDS UP.**

**Scores of Candidates for Borough Appointments.**

Never before have so many candidates presented themselves for political favors at the hands of the Borough Council as at the present time. Not only is the woods full of them, but every limb of every tree is grasping under the weight of the expectants. The Supervisorship is a bone of contention that will be pretty well gnawed by the time the Borough Fathers make up their minds. Among those who are said to be candidates for that position are D. H. Liewellyn, David Eynas, Jacob Loucks, William Phillips, George Ayer, Edward Hughes, William Jones and James B. Lessig. Then there is a string of Democratic applicants long enough to fly a kite. Among the rumored candidates for Town Clerk are Frank C. Reese, Jacob S. Williams and James J. Coakley. The applicants for the treasurer job have thus far been held down to two—T. F. Bradigan and William Neiswenter. Judging from the hands already up there is enough material in town to supply the Philadelphia police force.

**THE COMMITTEE OF THIRTEEN.**

**A MEETING IN THE COUNCIL CHAMBER TO-NIGHT.**

**TAXPAYERS TO ACT TO-NIGHT**

Resolutions to be Adopted Setting Forth the Reasons for Objections to the County Commissioners' Order.

The committee of thirteen appointed at the meeting of property owners in the Council Chamber on the 6th inst., will meet at the same place to-night, at 6:30 o'clock.

At 7:30 o'clock a meeting of the taxpayers will be held at the same place to receive, consider and adopt resolutions to be forwarded to the County Commissioners relative to the recent order for an increased assessment of Shenandoah properties.

At the meeting held on the 5th inst. vigorous protests were made against the order of the County Commissioners for the increase of assessments of properties to their full market value; and as a result of the arguments the following resolution was adopted:

Resolved, That it is the sense of the citizens of the borough of Shenandoah, in convention assembled, that their assessment is high enough, and that they instruct the Assessors to make the assessment on the same basis as heretofore. And that a committee be appointed to draft resolutions setting forth reasons for the adoption of this resolution.

In accordance with the above the following committee was appointed: M. E. Doyle, B. G. Hess, M. P. Fowler, S. A. Beddall, James Bell, B. J. Yost, George Folsner, R. A. Glover, M. H. Kahler, George W. Hasler and James Grant.

This committee is the one that is to meet in the Council Chamber at 6:30 o'clock this evening. At 7:30 o'clock it will meet the taxpayers and present resolutions prepared in accordance with the resolution above quoted.

The assessors of the respective wards have completed their work, with the assistance of the special committee appointed for that purpose, Messrs. M. P. Fowler, A. D. Gable and B. G. Hess, and will make their returns to the County Commissioners to-morrow; hence it is necessary that there shall be no postponement of the meetings called for to-night.

**WORK ON THE "ELECTRIC."**

**The Road Completed Almost to the Power House.**

Good work is now being done on the electric railway between town and Girardville and the signs of completion of that branch are budding every day. Track laying will be finished to Rappahannock to-night.

To-morrow the smoke stack and counter shafting will be put in place at the engine house and that part of the plant will be ready for running.

The dynamo will be put in place early next week.

The dirt bank at Packer colliery No. 6 has been graded and workmen were engaged in laying tracks over it to-day.

Mr. Hamilton, of the firm of Sciple & Co., boiler manufacturers of Philadelphia, is pushing the steam fitting work night and day.

Mr. Baker, representing the Frick Manufacturing Company, of Waynesboro, has charge of the work of putting the engine in working order.

**A Leader.**

Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alternatives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by C. H. Hagenbuch.

**Coroner's Inquests.**

The case of Joseph Skates, a Pole of town who was burned by gas in Packer colliery No. 3 on the 18th inst. and who died at the Miners' Hospital on Sunday, was considered by Deputy Coroners Brennan and Monaghan and their jury yesterday. A verdict of accidental death was rendered. To-night an inquest will be held on the body of another Pole who died at the Miners' Hospital Tuesday night from burns received by an explosion of gas in the same colliery on the 20th inst. The funeral of the latter victim took place in town to-day.

**EFFECTS OF THE DEAL.**

**Changes Under the Reading's Combined Management.**

It is rumored that Col. D. P. Brown, of Lost Creek, will resign his position as superintendent of the Packer collieries.

Superintendent Lathrop, of Wilkes-Barre, has resigned his position under the Lehigh & Wilkes-Barre Coal Company.

Lehigh Valley coal trains are now running from Packer to Philadelphia without change of crew or engine.

It is currently rumored that J. H. Olhausen, of the Central Railroad of New Jersey, and at one time the Division Superintendent of the Mahanoy Division of the Reading road, will be made general manager of the combined roads. This is important news to this region, if true.

As a result of the deal, it is alleged, Superintendent Broadhead, of the Lehigh Valley's Buffalo division, has resigned. He will be superseded at once by R. N. Vanotter, formerly of the Elmira, Cortland & Northern Railroad.

Supt. C. M. Lawler, of the Mahanoy division, was summoned to Philadelphia by President McLeod and a number of changes are likely to be made among the present officials of the Reading road in a few days.

There was much concern over the statement that the Reading Company would enlarge its big shops at Reading, as it was feared that the South Easton shops would have to go, but now it is learned that the Reading extension was decided before the deal was gotten in shape. The men in the Lehigh Valley shops at South Easton have received orders to continue working as usual.

It is rumored that some important changes are to be made in the local force of the Lehigh Valley road here.—Hazelton Sentinel.

**Templin-Hays.**

Joseph Templin and Miss Clara Hays were married yesterday afternoon at the residence of the bride's parents, on West Cherry street, by Rev. Havics, pastor of the English Lutheran church. Charles Guise was the groomsmen and Miss Lizzie Jones the bridesmaid. The Grant Cornet Band serenaded the couple last night. The following were among the guests who partook of an excellent spread: Mrs. and Miss Orgall, Pottsville; Mrs. Fellows and Misses Hattie and Lizzie Fellows and Maggie Fletcher, of Girardville; Mr. and Mrs. Watson, Mr. and Mrs. David Morgan, Mr. and Mrs. Charles Hornberger, Mr. and Mrs. William Goodrich, Mr. and Mrs. William Templin, Mrs. Fishburn and son, Mrs. Edward Williams and son, Mr. and Mrs. Charles Evans, Mrs. Adams, Mr. and Mrs. William Trezise, Misses Anna and Lizzie Davis, Misses Alice Walst, Rebecca Wragg and Lizzie Hughes, Messrs. Alex. and Joseph Morris and Mr. and Mrs. Marshall Myers.

**News for Local Investors.**

The Board of Directors of the Norfolk, Wilmington and Chesapeake Railroad Company held their annual meeting here this afternoon and elected officers for the ensuing year as follows: President, J. C. McNaughton, Philadelphia; treasurer, R. Duncan Harris, New York; secretary, Carroll Forster, Philadelphia; general manager, Chambers H. McKibben, Philadelphia. The general manager reported that the survey of the line between Norfolk and Charleston, 350 miles, was practically completed.—New York Press.
