Terrible Accident in Clecken- A TWO DAYS VIGIL KEFT UP ham, England.

TWELVE SERIOUSLY INJURED.

An Enormous Chimney Falls and Grushes Mills Like Eggshells-

All the Bead and Injured Have Been Removed-Shricks of Women and Shouts of Men Heard Above the Din of the Falling Mass-Many of the People Prisoners in the Demolished Mills and Had to be Rescued by Means of Ladders and Fire Escapes-A Pathetic Incident.

Lonpon, Feb. 25 .- The immense chimney of Thornton's mills, located at Cleckenham, Yorkshire, fell yesterday. The chimney was 180 feet high, and almost completely demolished the mills, Thirteen persons were killed ontright and twelve were seriously injured.

The dead and injured have all been removed from the rules.

The survivors say that they heard a terrible, ruabling sound, which seemed to come from the chimney. The great stack quivered and swayed, and then toppled over from the top, at first almost keeping the chimney form and then bursting into an avalanche of brick and mortar and dust, which fell with terrific force upon the mills.

All the employes heard the warning sound, and although they did not know what was the matter, they stopped work immediately, and many made a rush for the exits.

The exits. Then came the vast mass of material, crushing the mills like an eggshell, and everything was hidden by the cloud of dust that arose, dense and sufficient had from where the chimney and factory had stood.

The shricks of women and cries of men The shricks of women and cries of men could be heard by those who rushed to the scene, and here and there some wounded person made an appearance, with halting step seeking to escape from the scene of the fatality. Women dashed forth with dishevelled hair, some of them white and silent, others uttering cries of terror and of wain.

It was found, as the cloud of dust the was found, as the cloud of dist cleared away, that portions of the mills remained standing, but that the occu-pants could not escape except by the windows, other means of exit having been cut off.

Ladders and fire-escapes were raised and the employes were helped to the

ground. It was dangerous work, for the patches of wall seemed to real and shake and threatened every moment to fall be-neath the weight of the rescuers and

One poor widow woman stood at a window, while her little children, four in window, while her into combine, for in number, and not one of them over eight years of age, were in the crowd below, looking up at their mother and crying as if their hearts would break. She was safely carried down.

Apparently miraculous was the experience of the men who had been at work repairing the chimney. Only a few min-utes before the disaster they desisted from work for lack of material and left the chimney just before the catastro-

An investigation is to be held as to the cause of the accident. It is thought that the foundation of the chimney was not sufficiently strong, and the structure gradually settled out of plumb, until the fall was inevitable.

IMITATED THE SCHNEIDERS.

The Kaiser is Asxious That the Two Murderers Should be Convicted.

BERLIN, Feb. 25. - The Kalser has taken den and sure. Sad 1 Yes, but how common have these sudden deaths become. They give no warping. There is a quick pain, a struggle, and all is over. Stat-istics show that 90 per cent, of these sudden deaths are caused by kidney disease. Scarlet Fever in Newark.

NEWARK, N. J., Feb. 25.—The Board of Health has 188 cases of bad scarlet fever this month. Dr. Lehlbach has no fear of an epidemic of the disease. The doctor suggests the erection of a steam disinfector, the same as in use in Europe. This, it is said, would cost about \$12,000 to erect. The scarlet fever has proven very deadly, and a large percentage of the cases are reported among the adults.
