Views of the French Press.

PARIS, Feb. 27.—The French press views the Berlin riots with unconcealed complacency. The "Temps" says that the State, in Germany, is resting for support on a tight-drwn system of discipline, and the excesses committed may easily be the procursors of other and more serious outbreaks. It is evident that the Eniser is tired of the attempt to reconcile monarchial institutions with Socialism:

German Prees Comments.

Bennix, Feb. 27.—The newspaper "Vor-warts" says that, in behalf of the Social Democrats it disclaims any sympathy with the rioters, and denies that Social Democrats had anything to do with the outbreak, which, it says, was incited and carried on by the lowest dregs of

society.

The "Vossiche Zeitung" says that the roughs of every city are ready to commit destruction and outrage.

The "Berliner Tageblatt" says the

demonstrations were senseless and had no special meaning.

The "Borsen Courier" says that the rioters were not the same persons who attend the workmen's meetings, held before the cioting began.

MEN OF MARK WHO GATHER NEWS.

Some Personal Sketches and In cid nts of Brain Workers in the Highest Walks of Life.

The reader of the morning paper who sits by his c sy fireside and is in formed of what is transpiring in every quarter of the globe, seldom realize the amount of actual labor necessar; to a certain, collect, write, transmit and print this wonderful mass of news And yet, aside from the special dispatches, it is largely centred in one office, located near the Telegrapi building in New York and presiden from all portions of the United States over by a quiet gentleman in a momasterly manner.

Mr. William Henry Smith, mausg of the Associated Press, is in the prime of life, and possesses a minociear as to the requirements of the public. To properly and promptly handle the mass of matter that passes through his hands is an enormous understanding the property and promptly handle the mass of matter that passes through his hands is an enormous understanding the property of dertaking, and one which may well test the capacity of any man. Mr. Smith has always been an arduous worker, and it is by no means suprising that his health should, in the past, have suffered more or less thereby. by. The mental strain necessary to the performance of his duties caused difficulties of digestion which are not easily overcome, and also a ure the e sily overcome, and also a urealic colle, both painful and exhausting. All attempts to overcome these tendercies by force of will power failed and he consulted eminent physiciaus, among them Dr. Barthol, of Philadelphia. In spite, however, of the care and skill of these practitioners, he grew worse constantly. The resultant best be described in his ownwords.

ords. He said : "My brother, C. W. Smith, manager of the Coesapeake and Ohio Raifroad came to visit me, and, seeing my con-dition, took upon himself to conduct new case, and so secured a preparation which, I have since learned, he had used successfully himself and in his family. I be an its use, and commenced improving at once. This improvement continued, until now I am well, and wholly through the influence of Warner's Safe Cure. I have since then used the remedy with good results in my family, and keep it on hand constantly. I consider it a remarkable well, in all markable medicine."

Mr. G orge Aifred Townsend, the Mr. G orge Afred Townsend, the famous newspaper correspondent whose letters, written under the nom de plume of "Gath," have attracted such wide attention, said to the writer: "While in England I had a pleasant visit with ex-Gov. S. B. Packard, our Consul at Liverpool. We were remarking on the death of a number of distinguished Americans, when the distinguished Americans, when the Governor said: 'Townsend, I can't sewhy so many of our public men are passing away, victims of one dreat scourge. There is no need of their dying if they will consent to avail themselves of what has occur provided for them, as I have.' Gov. Packard went on to describe his experience, and went on to describe disexperience, and I found his symptoms corresponded almost exactly to my own. I soon afterward returned to America, began the same treatment, and when I had taken a number of bottles of Warner's Safe Cure—the remedy Gov. Packard and convended to me so strong. used and commended to me so strong ly—I, too, was rid of headache, bad fluids, tired feelings, nervous exhaustion, irregular appetite, 'thick head' and to day am as sound as a nut. It indicated my disorder and remov dis indicated my disorder and removed i entirely. I regard it as a god-send to this country, where Bright's disease and ad other kidney disorders are to prevalent."

The above statements are not from obscure sources, but from gentlemen in the most exalted stations of trust and responsibility, and the affirms trons they make are the results of actual observation. Does it not stand to reason, therefore, that the article of which they speak is a most valuabl-one, and such as may be used with great benefit by all who are suff-ring.

HOPE FOR MRS. BALDWIN.

Successful Operation on a Victim of the

YONKERS, N. Y., Feb. 27.—The first of the series of operations to graft live skin tissue upon the raw flesh on the skull of Mrs. Homer R. Aaldwin, a victim of the Hastings discoter, now staying at the Getty House in this city, has proved so

far successful. The ten flakes of skin that were placed in position on her forehead have all re-tained their vitality. This is considered by Dr. Shopen, who performed the operation, a very encouraging sign, for there is every mason to believe now that the many subsequent operations that will be

necessary will prove equally successful.

Mrs. Haldwin has suffered exquisite torture since that terrible Christmas eve. It has been discovered that the sight of one eye has been completely destroyed,

and that of the other is going.
"I have tried to be brave," said she,
"but now that my sight is going I can-

not help despairing."
Her face and head are horribly muti lated. Both ears are gone and there is scarcely a half left on her head. On one side a large portion of the skull is ex-posed. The rest of the scalp has the appearance of raw flesh.

The eyes stare out of leaden sockets.
There is a great scar apon the left shoulder. One hand has been amputated above the wrist, and all the fingers of the

other have been removed.

Miss Nellie Moore, the sister of Mrs.
Baldwin, is giving the flesh from her
arm for the grafts to heal the wounds of
the sufferer. She submits to the operation bravely

ANASTAY GUILTY.

The French Lieutenant to Die for the Brutal Murder of His Friend. Panis, Feb. 27.-The trial of Lieut.

Anastay for the murder of the Baroness Dellard, has been brought to a close.

The atrocious incidents of this crimwere fully proved. Anastay's long ac quaintance with the Baroness and her husbaud, he being received on a most husbaud, he being received on a most favored faoting in their house, his want of money, the brutal murder of his friend to obtain it, his surprise by the maid while in the act of plundering his victim, his attempt to kill the girl, and her identification of the murderer, were all very clearly brought out by the syl-

dence.
It is understood that Anastay confessed to his crime, and no attempt was made to rebut the testimony. His laywer in defence fell back on the plea of insanity.

The jury, after a brief deliberation, brought in a verdict of guilty, without externating circumstances or recommendation to mercy.

The prisoner was sentenced to death.

Yuma, Ariz., Feb. 27.—Boys playing on the river bank discovered there a time-worn bottle, in which was the foilowing note:

We are hemmed in by Indians on the head waters of the Gila river, and throw this in the stream with the hope it may be found by some one in time to have assistance come to us. There are three of our party and we are from Massachus-etts. We are John Welford, William Duncan and George Weston.
