Spring Styles for Ladies.

Our lady friends who wish to be properly and fashionably dressed would do well to glance over the monthly Fashion Letter in "La Mode de Paris," "Album des Modes" or "La Mode," the favorite fashion journals. This letter is one of the best on the subject with which it deals, explaining particularly the styles prevailing or coming in fashion. Ladies would do well to patronize these journals, which are not only reliable, but are now considered the Standards of Fashion wherever they are known. The Practical Lesson on Cutting given each month in "Album des Modes" and "La Mode de Paris" is intended to explain fully how to make the new styles as soon as they appear. The series of lessons has been produced under the direct supervision of Mr. A. McDowell, the inventor of the well-known Garment Drafting Machine, which has proved such a boon to thousands of dressmakers, and has made the cutting and perfect fitting of ladies garments an easy task to all. "La Mode" is a good family journal, price \$1.50 a year. "La Mode de Paris" and "Album des Modes" are intended for more general use, the subscription for each being \$3.50 a year. To every subscriber for either of these journals who pays a year's subscription in advance will be given a Premium Book on "Dressmaking Simplified," valued at \$5.00. Failing to obtain these journals from your news agent send for them direct to A. McDowell & Co., 4 West 14th street, New York.

Medical Testimony.

W. Thornton Parker, M.D., Recorder, Association of Acting Assistant Surgeons of the U. S. Army, writes: "SALEM, MASS., March 23, 1891. "When at Stuttgart, Germany, during the Winter of 1881-82, I was suffering from a severe attack of bronchitis, which seemed to threaten pneumonia. I met, at the Hotel Marquardt, Commander Beardslee, of the United States Navy. In speaking of my sickness, he remarked: 'Doctor, you can cure that chest trouble of yours by using an Alcock's Porous Plaster.' 'That may be true,' I answered, 'but where can I get the plaster?' 'Anywhere in the civilized world, and surely here in Stuttgart. Whenever I have a cold, I always use one and find relief.' I sent to the drug store for the plaster, and it did all that my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many times prescribed it for patients.

"The Alcock's Plaster is the best to be had, and has saved many from severe illness, and undoubtedly, if used promptly, will save many valuable lives. Whenever one has a severe cold they should put on an Alcock's Plaster as soon as possible. It should be placed across the chest, the upper margin just below the neck; some hot beef tea, or milk, will aid in the treatment.

"This is not a patent remedy in the objectionable sense of that term, but a standard preparation of value. The Government supplies for the U. S. Army and Indian Hospital Stores contain Alcock's Plasters, and the medical profession throughout the world are well aware of their reliability and excellence. I shall always recommend it, not only to break up colds, but as useful in allaying pains in the chest and in the back. It is a preparation worthy of general confidence."

It is useless to tell a pretty girl to reflect. Her mirror does that, with entire satisfaction.
