THE people are anxiously awaiting the reorganization of Council. Since the late election all attention of the average Councilman seems to be absorbed by "slate" making, "Fence" building before election and "slate" making after it deprives the borough of considerable service. But it will go on this way until the people see the advantages of a city charter.

EE time to prepare for the operations of the new election law is now at hand. The to-day. law went into effect onthe lat inst. and the state will soon issue instructions under which is is to be carried out.

The County Commissioners have prepared a table showing the number of voters in each election district in the county, which is compiled from the registry books on file in the Commissioners

The table has been prepared for the purpose of ascertaining how many booths for preparing ballots it will be necessary to put up at each polling place next fall, when tonnage and passengers to cause not reach the conclusion that all Republi- the people vote under the ballot reform

> The Baker law requires that a booth must be put up for every 50 votes. If a ward or district has 157 votes four booths will be erected. The first booth will cost each. No man will be allowed to fix his ballot

at home or any other place outside of a booth at his own polls. In fact he will not have a ballot until he gots to the polls. He must then enter a booth and in its solitude will arrange his ticket to suit himself.
