Questions of Importance to be Southed at

Will Be Presided Över by Sixteen Bishops, and Will be a Very Large Body-Serious Dissensatons are Expected-Many Delegates are Instructed How to Vote:

NEW YORK, March 7 .- The great deliberative, legislative and executive body of the Methodist Episcopal Church, known as the General Conference, will hold its next quadrennial meeting this year in Omaha. The session will occupy the entire month of May, and for several reasons they promise to be fraught with most notable results. Methodists are ooking forward to the General Conference with great interest.

At least two questions are bound to come up, the settlement of which may cause the birth of new denominations. A large number of other questions are likely to cause undue excitement, as upon them may be reflected the influence of the greater questions, without any reference whatever to the merit of de-merit of the lesser. Many of the annual conferences have instructed their dele-gates to the General Conference how to vote on the question of admitting women to the conferences, and, whether favor to the conferences, and, whether lavor-ably, to cast their votes on every other question, no matter how remote, accord-ingly. Thurefore, a delegate in favor of the admission of women will not wote for any man opposed to their ad-mission, no matter what office he may be MILWAUKEE, Minn., March 7. - The

The delegates that the Western conference have elected are known to be almost all "woman" men, while in many instances, to guard against any possibility of conversion by the eloquent orators of the other side in the conference, special instruction has been given to vote for the admission of women as lay delegates. In the case of the Cincinnati Conference, a delegate who has been instructed that way is a

They were Miss Frances E. Williard, of the Rock River Conference; Amanda G. Hind, of the Minnesota Conference; Angle F. Newman, of the Nebraska Con-ference; and Lizzle D. Van Kirk, of the Pittsburg Conference. They were elected under the interpretation of the term "Iny," as including both men and women, but the General Conference was not ready to let them take their seats.

When it was finally decided to har out the women, it was also resolved that the question as to their eligibility should be question as to their eligibility should be referred to the entire Church. The months of October and November, 1890, were designated as the time when every member of the Church over twenty-one years of age, without distinction of sex, should vote on the question. As the re-sult would only be taken as indicating the sentiment of the Church, it was further encoded that all the mound confurther agreed that all the annual con-forences should also paiss indemont in like manner on the matter in 1891, the provision being that, if three-fourths of their number favored the admission of women, then the General Conference of 1892 would take it up, while fourteen, a majority of the quorum of its members, should be sufficient to settle the question.
