THE EVENING HERALD.

ALL THE NEWS FOR ONE CENT.

HAS A larger circulation in Shenandoah than any other paper published. Circulation books open to all.

MARCH had better hurry up and get dressed for the lamb role.

A REFERENCE to the fact that winter is lingering in the lap of spring is about due.

UNCLE SAM'S new navy—the Indiana and Missouri. Their armor is peace and their armament charity.

HILL tells the Virginia Democrats that their home industries are growing more prosperous, and in the next sentence denounces the Republican tariff policy which is responsible for the increase.

A RAILWAY express messenger has killed himself near Middletown because his sweetheart was dead. It was the saddest but not the bravest thing he could have done in remembrance of her.

OMAHA is rising as a pork-packing centre and is ambitious to gain a place second only to Chicago. She increased her pack during the last four months 40,000 hogs, as compared with the same period of last year, while Kansas City fell off 22,000.

THE New York Tribune says Hill is seeking the Presidential nomination with a brass band and by means of studied and persistent absence from his official post. Cleveland says that a sense of duty may persuade him to overcome his personal and private feelings on the subject. Palmer coyly admits that in the last emergency he might not decline. Campbell will "take it if it comes his way." Meanwhile Russell and Bates and Gray and Gorman and Pattison—not to complete the list—look upon themselves as possibilities, and await developments at or about Chicago with unconcealed concern. The situation is an interesting one to all, and to im-

partial observers like ourselves afford much enjoyment.

Now that Southern Congressmen are again expatiating on "the honor of our flag" (referring to the one which went down at Appomattox), it is some satisfaction to know that they cannot look toward the Speaker's chair without beholding the only true American flag—the one against which so many of them fought. Now that they have to sit facing that banner, and with it flying above the halls of Congress, it is about time they should cease talking of the great things they did "upholding the honor" of another flag.

Owens Two Churches.
John Smith, of town, has purchased the Greek Catholic church of Shenandoah. The church was sold to satisfy a number of judgments entered against the property, and was purchased by Mr. Smith for between five and six thousand dollars. The property consists of a church and parsonage. Mr. Smith is now the owner of two churches, the deed of the Greek church of town being recorded in his name.—*Mahanoey Tri-Weekly.*

Quite a number of the members of the Evangelical church, of town, tendered the Rev. Glick, who was pastor of that church for the past year, but who is now stationed at Hazleton, a farewell greeting on the eve of his departure. With the 19th century dawned the era of wonders. It has also proven an era of surprises—for notwithstanding its giant strides toward knowledge, we are told that there are still in some places a few citizens who have not heard of Salvation Oil.

SINGERLEY AND "THE SONS"

"American" Criticizes the Philadelphia "Record" Man.

EDITOR HERALD:—A friend of mine called my attention to a clipping from the Philadelphia Record of February 24th, in which the editor of that paper severely and unjustly criticizes the Patriotic Order Sons of America for no other reason, it appears, than that the members of the order deemed it proper, as patriotic citizens, to appropriately celebrate Washington's Birthday.

This is the Record's opinion of the members of the P. O. S. of A.: "It is explained that no person not born in America can become a member of this highly patriotic Order. To have been born in this country is doubtless a very great merit, which these Patriotic Sons enjoy with Indians, mud turtles and other indigenous animals."

The above are only a few of the artful and studied misrepresentations contained in the article—sentiments that could emanate from no source other than the mind of one who has a deep-rooted hatred for the Order in question, and whose you but training is not in harmony with American nor American institutions.

To class the members of this organization with "Indians, mud turtles and other indigenous animals," only betrays the motive of the author. The Patriotic Sons have the proud satisfaction of knowing that within their ranks are the leading and influential men of the country. By their noble work of disseminating sentiments of loyalty and patriotism, creating a feeling of love of country, they have the hearty approval of all true American citizens of foreign birth, as well as native-born.

The Record man attempts to create the impression that the Order is opposed to all foreigners. Such is not the case. It welcomes all who come with the honest intention of becoming loyal American citizens; but it is hostile to those who land on our shores having no sympathy with our free institutions.

When Editor Singerley was shown that he had unjustly criticized the Order, he promised to make due retraction, but has yet failed to do so. This latter fact furnishes sufficient proof that the misrepresentation of the objects of the order was intentional. It also shows that there is an enemy of the Patriotic Sons high in authority in the Record office, who has taken this opportunity to strike a blow at our free institutions by injuring the P. O. S. of A. in the eyes of the public.
