## THE EVENING HERALD.

ALL THE NEWS FOR ONE CENT.  
Has a larger circulation in Shenandoah than any other paper published. Circulation books open to all.

It is not his own health Col. Dan. Lamont is seeking in the South, but the health of the Cleveland boom.

Southern newspapers are parading the old solid-South "force-bill" scarecrow. "The wicked fee when no man pursueth."

RECIPROCITY gives us as much or more as we give in exchange for it. Free trade would seize a large share of our best market at home and give us nothing in exchange.

THE South Carolina Senator who, just before the war of the rebellion, denounced Northern laborers as "mud sills," "greasy mechanics," and "small fisted farmers" ran against the Republican party as the champion of the dignity of labor not long after his denunciation, and found that he had been monkeying with a buzz-saw.

It is but a short time since the highly moral Cleveland was egging on the highly immoral Hill in the villainous theft of the Legislature of New York. Now the Clevelandites are railing because the bold robber is more popular than the sneaking receiver of stolen goods.

FIGURES that do not lie show that over \$20,000,000 of value was added to the woolen goods production of this country under the McKinley law during the last ten months of the year 1891, and these woolen goods were never before so low in price as they were during that time and are now.

SLAVERY abolished, free homesteads provided, industries vastly developed, and new employments opened, the dollar of the workingman and bondholder exactly equalized, high wages maintained, and protection almost perfectly adjusted are some of the

## OUR PLATFORM:

Good goods at as low prices as we can honestly afford to sell them. Honest weight and measure—no misrepresentation.

## OUR MOTTO: Not how cheap, but how good.

We aim to sell straight, honest goods, free from adulterations and impurities, so far as we know or can judge. Good goods are always worth their price, poor goods are dear at any price.

**Our Fancy Minnesota Flour** is the highest grade Patent Flour we have ever had. We have no better to offer at any price. The price has been \$6.00 until about a week ago. It is now \$5.00 per barrel. This is the lowest price ever known for the best Minnesota Patent Flour. We guarantee every barrel to give entire satisfaction.

**Our Country Lard** is strictly pure—is not adulterated with cotton seed oil, tallow or other foreign substance to reduce the price.

**Our Chipped Dried Beef** is the best cured, and always selected cuts. We never buy tough nor stringy pieces at any price.

**Our Chipped Summer Sausage**—Is the finest quality and well seasoned. Increasing sales is the best evidence that it pleases the trade.

salient points in the labor record of the Republican party that no laborer can afford to forget or ignore.

**MONEY** is the life-blood of commerce. Free trade would deplete and weaken the commercial body politic as bleeding depletes and weakens the body physical. Protection keeps our money at home, and so nourishes and strengthens our material health and prosperity.

It is now a well known fact that the average of labor wages is increasing yearly and rapidly in England, despite the efforts of trade organizations to prevent that inevitable result of a poor home market and a declining commerce.

At the present rate of progress under the McKinley law this country will soon take the wool products markets of the world from Great Britain and successfully compete in the markets of that rapidly-declining, terrible example of the results of free trade. Yet the party without any other issue proposes the repeal of this beneficent law.

**Prevention Better Than Cure.** Many persons are afflicted with skin eruptions, boils or ulcers. Brandreth's Pills taken freely will in a short time effect a complete cure of all such troubles. Ulcers of long standing have been cured by them. Carbuncles have been checked in their incipency by them. The worst fever sores, bed sores, and the like have been driven from the skin by them. Only begin in time and a few of Brandreth's Pills will prevent many a sickness.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.

**"Well, I'm Jiggered"** They will appear here to-morrow evening at Ferguson's theatre and a large audience will welcome them, for who could resist that very original young comedian, Jas. B. Mackie, especially when he presents for our amusement his new, bright burlesque, "Grimes' Cellar Door." This attraction has made a tremendous hit everywhere and in fun, satire, and in the order of the evening, from the first overture to the last curtain. "Grimes' Cellar Door" requires a whole car load of special scenery, mechanical effects and trick properties. Don't miss the fun. It will add ten years to your life.

## THE NEW COUNTY MOVEMENT GROWING.

WE COULD GET ALONG NICELY WITH HAZLETON.

MANY OF OUR PEOPLE FAVOR IT.

A Remarkable Change of Sentiment in the Matter During the Past Year or Two—Some Interviews.

WHEN the new county movement took life two years ago it was a very small, barely a noticeable thing, and it was little larger when it was put upon its feet a few weeks ago. But like the small snow ball which becomes larger and larger as it is rolled along in the snow, so has this movement grown in popularity. It has gained a size that warrants a belief that with proper care it can be brought to full vigorous maturity. Interviews with many of our leading citizens develop a strong sentiment in favor of a new county. "Why," said one from whom no encouragement was expected, "it would be the best thing that could happen the town north of the Broad mountain. Shenandoah is nobody now. In the new county she would have some show for claim to importance. I would prefer Hazleton to Pottsville as a county seat."

"Yes, I am with you," said a prominent property holder. "We would have better treatment, Shenandoah and Mahanoy City would wield considerable influence in the affairs of the new county and it would not require an increase of taxation. It seems to me that our present County Commissioners intend to squeeze all they can out of the big towns north of the mountain, and when they are not doing the pressing Pottsville steps in. I am for a new county for many reasons."

A Main street merchant said, "I see that Hazleton would receive us with open arms. All means let us go to her. Hazleton's hospitality has been tested and found full weight and I would willingly tramp to her court house. Her people are like our own, horny handed, liberal and sociable—no Ward McAllister business. Two years ago I was against the new county movement, for no particular reason, only on general principles, but I have experienced a change of heart since then and honestly believe that the sooner we can get into the new county the better."

One of the largest property holders in the town said he favored a division of the county and said he was confident that if the movement gets a serious start it will become exceedingly popular. He thought the small property holders and taxpayers would be benefited by it. He, too, was opposed to the movement two years ago.

Twelve of our prominent townsmen were interviewed yesterday afternoon. They are men of practical ideas and always figure prominently in affairs pertaining to the advancement of the borough's interests. Of the twelve eleven spoke earnestly in favor of the movement and the twelfth man would not commit himself one way or the other, as he had not given the matter sufficient thought. He promised to consider the matter and express himself in a few days. "From what I have heard and read of the project," said he, "I am inclined to favor it. There are a number of my friends, in whom I have great confidence, who favor the division, but they have given the matter some thought. For the present I stand non-committed."

**Strength and Health.** If you are not feeling strong and healthy, try Electric Bitters. If "La Grippe" has left you weak and weary, use Electric Bitters. This remedy acts directly on Liver, Stomach and Kidneys, gently aiding those organs to perform their functions. If you are afflicted with Sick Headache, you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need. **Specials Sworn In.** Chief Burgess James Smith last night met the special police he appointed, in the Council chamber, and swore them in. Edward Ratchford was made captain of the force. He received 18 votes and Edward Devers, of the First ward, received 15. P. J. Devers was elected 1st lieutenant; D. J. Williams, president; Tim Conkley, Secretary. Statesman Curley, of the First ward, considers Ratchford's election a big victory.

**Girardville's Progress.** Postmaster Eberly and Louis Blas, of Girardville, have ordered a number of Singer sewing machines for an overall factory they have established at Girardville. C. J. Quinn, of town, is filling the order.

## A SOLDIERS' MONUMENT.

A Suggestion That Our Town Have One.

Almost every important town in the state has a monument in memory of the defenders of the Union in the late Civil War and Shenandoah is with the places left out of the allotment. Our people have contributed towards several such monuments and it is suggested that they begin to look for one of their own. The money required to build it will not run into very high figures, and surely we can keep pace with Mahanoy City, Shenandoah and the surrounding places. A population that would contribute a least \$10,000, and a handsome and very suitable monument could be secured for much less than that. There is no doubt that the many societies of town would step forward and contribute liberally to a suitable reminder of the heroic deeds of the Union's brave defenders.

The G. A. R. Post, the Sons of Veterans, the P. O. S. of A., Jr. O. U. A. M., Odd Fellows and other societies could start a healthy list. The organizations named, with small contributions, could start the ball rolling with several hundred dollars, and with camp fires and other events the sum would soon swell to a healthy figure. A monument project was put on foot some years ago, but owing to a depression of business, consequent upon frequent strikes and other affairs, it dropped out of sight. Let the project be revived. It will help the town and put on record a lasting recognition of the services of the brave defenders. Who will second the motion?

## Fairley Wins His Suit.

In the civil court at Pottsville yesterday, before Judge Bechtel, the case of Ex-High Constable Robert Fairley against the borough was tried. Mr. Fairley sued on a claim of \$30 for extra compensation for dead animals he buried. The borough fought the claim on the ground that the alleged work was done in violation of the borough ordinances and contrary to the directions of the Borough Council. The jury retired yesterday afternoon with instructions from the court to hand in a scaled verdict this morning. The verdict was handed in to-day and found in favor of Fairley for \$37.38. Borough Solicitor Pomeroy stated to-day that the verdict was in direct conflict with the law as laid down by Judge Bechtel in his charge and a motion for a new trial would be made.

## NEWS OF THE TOWN AND REGION.

THE ANTHRACITE BASE BALL LEAGUE MOVING.

SHAMOKIN READY WITH A LEAGUE

Ex-High Constable Fairley Wins His Suit Against the Borough. Rev. Powick and Wife Surprised Last Evening.

Early and successful base ball season is predicted by some of the enthusiasts who have interested themselves in the Anthracite Base Ball League. Shamokin is particularly active in the work and has already formed a club. The players are W. D. Brennan, first base; P. W. Dumberger, third base; D. E. Brown and T. Jones, catchers; J. Eagan, second base; J. Ford and C. Kutzner, pitchers; W. S. Beckman, short stop; R. Williams, C. B. Calton, J. Snyder, J. J. Kelley and Bert Morgan, fielders. The club will hold a ball on April 28 to raise the \$70 required as a deposit with the League.

A number of business men of town have interested themselves in the movement to put a club in the league and as soon as some definite answer is received from the owner of the ball field in the trotting park, as to terms for the season, a club will be formed and equipped. One of the gentlemen interested said last night that the park matter would be settled within a day or two. It is hoped it will as Shenandoah should be able to make a definite report at the league meeting to be held at Ashland next Tuesday.

The Mt. Carmel News assumes that its town has been shut out of the league. This is not so. The town failed to send a representative to the league meeting and therefore could not be counted in, but there is an invitation for her co-operation awaiting acceptance.

The Ashland Telegram says: "The first step was taken at Shenandoah toward the formation of a coal region base ball league for the season of '92, and the proceedings as published in our local columns, denote that the action taken was a substantial one and worthy of consideration. Five towns have already signified their intention of placing a team in the field in the coming season. Will Ashland consent to be the sixth? That is the question that should engage the attention of our lovers of the National Game, and be decided by the time that the meeting is held here on March 29th. We believe that the sentiment here is for base ball. We held the reputation of being the best base ball town in the region in the days of the Central Penna. League, and we believe that we can again sustain that reputation if we have the material to form one of the best amateur teams in the region, and we hope to see it placed in the field against our neighbors this season, and though we don't want to brag, we think that when the time comes we will prove that Ashland don't need to shake before the best teams that the region can trot out."

**A Formal Welcome.** The members of the Methodist Episcopal church last evening tendered Rev. William Powick a reception in honor of his reappointment as pastor of the church by the conference. About 150 ladies and gentlemen were present and the greetings accorded the reverend gentleman were cordial. During the evening Mrs. Powick was pleasantly surprised by receiving a gift consisting of an elaborate silver service.

## ELECTRIC RAILWAY NOTES.

A Satisfactory Test at the Power House.

Mr. Curley, of the New York Leather Belting Company, who arrived in town Saturday, spent Sunday at work in the electric railway power house at Rappahannock and put two 32-inch belts on the immense fly wheels and counter-shafting, and two 12-inch belts on the dynamo. At 4:57 p. m. yesterday Wilbur F. Sador, Jr., the vice president of the road, turned on the steam and set one of the 250-horse power Corlies engines in operation. The immense machinery worked without a jar. The clutch was then thrown and the dynamo operated with equal success.

Construction trains will be run over the road between the power house and Lost Creek by the latter part of this week. The trains will be used to convey ballast to points along the section that need improvement. The motive power will be furnished from the power house.

A great deal of work has been done on the line the past two days and it is expected that by the close of this week connections will be made so that trial trips can be made between the power house and the corner of Coal and Glibert streets, in town.

All work on small trestles and bridges between Wm. Penn and Rappahannock was finished yesterday and to-day the entire force of carpenters, builders and track men were put on the large trestles on the outskirts of town.

## More Complaints.

The HERALD is in receipt of several more letters of complaint concerning gambling places. They are prominent ladies who complain bitterly of these hell holes. They say their sons are being lured on to worse crimes through them. One lady says there are two barber shops in the most prominent part of town where young men congregate and gamble until daylight, and that this is done on Sundays as well as week days. They are always well supplied with drink all day Sunday, the stock being laid in on Saturday night. In one of these dens, the lady says, young girls may frequently be found "carrying on" disgracefully. If one-half the stories told by these correspondents are true it is remarkable that the Chief Burgess and police have not gleaned some information upon which the places could be raided. One of the correspondents says the authorities know of the places. It is certainly a bad state of affairs and something should be done to stop the evil. It would be well if the parties making the complaints would lodge the information they have with the police.

## Points for Business Men.

Stop running round nights trying to be a Bohemian and a business man at the same time. Health is wealth in any vocation. It is of little use to kick unless you have something worth kicking at. When that is so turn in and kick with all your might. How long since you praised your clerk, office boy or type writing girl? Better try it, possibly you would get better service by doing so.

How much circulation has the paper in which you advertise, and does it circulate in the home or the gin mill? Those are mighty questions to the advertiser.

Cash is the ace and credit only the knave in the business game. Tramps may make the knave right power, but he is more often simply "the Jack" coming in behind king and queen.

You cannot wind up your store, office or counting-room like a clock and set it going to profit and success. One's vocation is like the bicycle it must be pushed all the while.

A table stands on its weakest leg and a rope stands the strain of its weakest strand, and in life it is not what you can do in one day but what you can do when you feel bad and are out of sorts.—Points.

No better known remedy exists for all forms of Rheumatic diseases than the Genuine Imported Anchor Pain Expeller. To be had at all druggists at 50 cents a bottle.

## Desirable Lodge Room.

A lodge desiring a cosy meeting room on Saturday, or Sunday evenings of each week can be accommodated at Mollet's hall which has been recently papered, painted and carpeted. Apply to M. Mollet.

## A Statement.

Rev. Owen Enoch, pastor of the Welsh Congregational church, regrets the error which was made in the church announcement for last Sunday and begs to state that it occurred entirely unknown to him. He trusts that no such occurrence will again take place.
