### URIG AGID.

WHAT IT IS AND HOW IT FORMS.

A Clear Description of This Most Subtle Enemy of Modern American Life-What a Prominent Professor Says.

A well-known professor connected with a leading medical college, in conversation, recently made the following wonderful assertions:

"There is probably nothing which has ever been known in the history of the world that has caused more real misery to men and women than that misery to men and women than that simple and yet dangerous element called uric acid. This dangerous substance gets into the blood of men and women, and even children, even before they suspect it, and the havoc that it works is simply appalling. It causes rheumatism, neuralgia, gout and pneumonia. It is the cause of most colds and the actual source of nearly every use of grio.

most colds and the actual source of nearly every use of grip.
You ask how this dangerous acid gets into the blood? Very easily. The principal duty of the kidneys and bladder are to expel uricacid from the system. They fail to work very frequently, and, instead of being driven from the system, this poisonous uric acid goes into the blood. When once in the blood it ferments, it poisons, it causes unnumbered diseases and too often occasions death.

poisons, it causes unnumbered diseases and too often occasions death.

'It must be plain, even to a novice, that the only way in which to keep this acid out of the blood is to keep the kidneys and bladder in a strong, a healthy and a vigorous condition. This is the whole problem in a nutshell, and the man or woman who does this is invariably free from urbacid and the infinite troubles which it causes. I have never known of but one thing that will in every case drive urbacid from the system, and that is Wa ner's Safe Cure. It has been found by the medical profession to be possessed of properties unknown to any discovery of ancient or modern times. I have known of women who to any discovery of anetent of modern times. I have known of women who have been weak, sallow, run down, of men who have been debilitated and wholly unnerved, who are to day pictures of health and strength, and they know as well as I do that the result is due to but one thing—the great cure of which I have spoken."

The great truths above stated are as certain as existence, and they reveal origin as existence, and they reveal the real ause of most physical misery of the present day, and they clearly reveal the way of escaping from such misery. No man or women at the present day should be the victim of uric acid poison. That it is very pre-valent is most true, but to permit it to yet into the system or baying a traget into the system, or having gotten there, to remain, is simply folly.

### PLEASURES OF TRAVEL

A Correspondent's Account of a Trip on the Penusyivania Railroad.

"Last call for dinner." "Dinner car second to the tront." Our vision is gone. Summoned from dresmy meditation, we quickly, keenly appreciate the luxuries of modern travel as set forth on the menu of the Pennsylvahia Limited—probably the most perfectly equipped train in all the world. Composed exclusively of Pullman world. Composed exclusively of Pullman Britain should send a fleet to Behring Sea to oppose the seizure of the Canadian vestibule drawing and state room, sleeping cars, a dining car, a smoking car, and an observation car, the entire train represents in design, construction and finish the most acceptable results of constructive and decorative art. As all these cars are connected by fullman vatent safety vestibules ladies and children may pass from car to sides of the chamber. car without danger or the slightest exposure to weather. These safety vestibules not

## IN SECRET SESSION

The Reply to Salisbury Received by the Senate.

MR. SHERMAN URGES SECRECY.

President Harrison Uses Plain Language to England's Premier.

Behring Sea Will Be Policed for the Protection of the Scale-The President Insists Upon a Renewal of the Modus Vivendi Pending Arbitration-The United States Will Not Abute its Claim to Jurisdiction in Rebring Sea.

Washington, March 24. - President Harrison sent to the Senate copies of Lord Salisbury's latest note and of his own reply, which was cabled to London Tuesday. In transmitting these notes, which place the entire carrespondence relating to Behring Sea up to date in the possession of the Senate, the President made no recommendation or suggestion. The text of his reply is in itself fully in-dicative of the wishes of the administra-The Senate, immediately upon the receipt of this correspondence, went into executive session and continued be hind closed doors for an hour, when the correspondence was referr d to the Committee on Foreign Relations, which al ready has bofare it the proposed arbitra-

The greatest secrecy is maintained at the Capitol upon the entire subject of the Behring Sea negotiations. The ac-curacy with which the evasive and un-satisfactory character of Sallsbury's note, and of the vigorous and patriotic tone of the President's reply, were stated in these dispatches, caused considerable approximate to members of the committee. annoyance to members of the committee

on Foreign Relations.
It is said that in the executive session yesterday Senator Sherman, the chair-mad of that committee, spoke at some length upon the importance, in view of the critical stage which the correspond-ence with Great Britain had reached, of preserving the strictest silence until the time should arrive for publishing the full correspondence. Senator Sherman pointed out that as Salisbury's action was undoubtedly guided to some extent by motives connected with the domestic policies of Great Britain, indiscreet newspaper comment might have an un-fortunate effect, especially if based upon

information bearing evidence of accurrey.
The rejoinder of the President plainly informs Salisbury in language which, though, diplomatic, cannot be misunder stood, that his equivocations are not consistent with that frankness which this Government has a right to expect from a friendly power acting in good faith. The President, as was also an-ticipated, insists upon a renewal of the modus vivendi pending arbitration; de-clares that the United States, in advance of arbitration, will not abate its claim to jurisdiction in Behring Sea, and con-cludes with a stirring paragraph which declares that this Government will pre-vent the destruction of the seals, even though it require the use of military

This can only be interpreted as meaning that the President intends to police Behring Sea, if it takes half of the navy,

THE SILVER BILL

Its Fate of the Measure Will Probably be Settled To-Day.

Washington, March 24.—The silver debate yesterday dragged along rather monotonously. Every one is waiting for the events to-day, when the critical stages of the discussion will be reached. Mr. Bland gave notice that he would move the previous question at 1 o'clock,

move the previous question at 1 o'clock, so that he may have the remainder of the day in which to overcome the fillbustering tactics of the anti-silver men.

But it is an even question whether Mr. Bland will be able to accomplish his purpose, for General Tracy has numerous expedients of fillbustering to tie up the debate and carry it beyond the legislative day. Should the day expire without the passage of the bill the silver men out the passage of the bill the silver men would have received a distinct repulse, as the bill would then lose its preferred place and would go back to its place on

STANDARD OIL COMPANY. Change of Name and Increase of Stock in

New Jersey.

TRENTON, N. J., March 24.—The Stan-dard Oil Company of New Jersey has filed a certificate with the Secretary of State, changing it sname to the Standard Oil Company. It drops the words "of New Jersey.

Another certificate was filed by the new company signed by Paul Babcock, the President, increasing the capital stock of the Standard Oil Company to \$10,000,000. This is an increase of \$7, 000,000. The certificate states that this increase was determined at a meeting of the Board of Directors held March 4,

1892.
The Black Wonder Gold and Silver Mining Company has filed a certificate of incorporation. The incorporators are all residents of Massachusetts. They will work a gold mine in Colorado. They also intend to deal in mining property. The capital is \$1,000,000.

CAN BE NO RECONCILIATION German Social Circles in Scranton, Pa., Agitated.

SCANTON, Pa., March 24.—The elopement of Emily Armbrust and Thomas Dully has created an unusual stir in German social circles here, in which Miss Armbrust was a star owing to the wealth of her father.

The couple sent word from New York York that they were married there, and upon receipt of the news there was a storm in the Ambrust household, where there has been great opposition to the marriage by reason of the opposite reli-gious belief of the young people. The young woman's father declares there can be no reconciliation between her and her family, and that she cannot be in any way recognized as a daughter. Young Duffy is nicely slinated, how-

ever, and is doing a prosperous furniture business. He has his own home and can settle down very comfortably upon his return from his wedding trip, which will be through New England.

Tried To End Her Life.

NEWARK, N. J., March 24 - A very handsomely dressed and pretty woman was discovered struggling in the cold water of the Passaic River last night She was rescued in an unconscious condition by Frank Dunn and James Bishop, of Harrison. She was taken to St. Michael's Hospital and revived. She described herself as Clara Heaver, aged 21 years, of Hunterdon street, but would not say why she tried to end her life.
