TRUE TO THE END WOMEN'S WET FEET.

THE SOURCE OF INFINITE Betrayed Pretty Edna Pauld-TROUBLE.

What the Combin d Wisdom of the D ctors Is Upon This Important Subject, and What They Have to Say.

The New York Sun has been doing some valuable work lately in investi gating the real cause of all the sickness which is devastating the land Sergeant Dunn, of the Weather Bureau and all the leading doctors agree that wet feet are the prime cause of the trouble. One prominent physician said ;

sician said : "If people would only have sensi-enough to keep their feet dry they would be all right. I tell you wet feet fill more graveyards than an epidemic of choiera. The average business-man goes down town and tram is around in the wet until his feet are cold and damp. When he goes home, instea of putting on dry so ks and warm slippers, he takes a drink of something hot. He gets into another perspiration, and the chances are that he will catch more cold. "With the women it is the same way. Take the young girls you see tramping about in the mud of Fifth avenue and Bro dway, or any city for that matter Nin-out of ten have got on low shoes. Is it surprising that they have colds? They have not had in a to have in their winter stock of

on low shoes. Is it surprising that they have colds? They have not had time to lay in their winter stock of footwear, or else they think their fect look better in low shoes, and they wear them until the snow falls. It simply taking cold were all it would be the second store A cold can be not be so serious. A cold can be secured very quickly, but it is not a-casy to get rid of it. No wowan ever secured very quickly, but it is not as easy to get rid of it. No woran ever took a cold but what it affected her kidneys. The kidneys are the first goot that a cold attacks. A man or woman may cough or sneeze. Why? Because the kidneys are clogged— stopped up with a cold. The cold farms a dam that stops the current, and it overflows into the head, and we call it influenza; into the lings, and we call it inpeumonia. The quick-est way to check a cold is to open the kidneys, and the sure t way of doing this is by the use of something reliab e kidneys, and the sure-t way of doing this is by the use of something reliable iike Warner's Safe Cure. I am cer-tain this great cure has stopped more colds and saved more lives than any other k own remedy of the present day, or, for that matter, of any age" In connection with, and in com-plete confirmation of the above, is a statement made by Mrs. R. F. Mu-Murray, residing on St. Paul's avenue, Staten Island. She save :

Staten Island. She says: "My mother, Mrs. S. A. Vanderbilt, and myself owe our health, and I al-most feel our lives, to Warner's Safe Cure. I steak from a long experience. Recently I had a most severe attack of grip, arising from a cold, and the Safe Cure made me feel like a new person. Other members of our family. of grip, arising from a cold, and the Safe Cure made me feel like a bew person. Other members of our family, and also many friends and acquaiut ances, have received equal benefit, and all bighly recommend it." Wet feet start a cold. A cold in-variably attacks the kidneys. Sick-pess suffering and death often foliow. Keep your feet dry. If pos-ible avoid

A coid, but having contracted it stop it at once and by the best means you can find for certainly doing so. This advice is sound; it comes from the highest sources and it should be fol-lowed most carefully.

DON'T SCOLD EMILE, PAPA"

The Last Words Spoken of the Boy-Lover Who Had Deserted Her.

He is the Son of Papal Count Alphonse Do Relathal, of Brooklyn, and is Accused of Having Lead the Girl Astray - Her Father is a Descendant of John Paulding. One of the Captors of Major Andre, the British spy.

PREESSULL, N. Y., Murch 25 .- Miss Edna Paulding, who died Tuesday in New York, was a beautiful Peekskill girl, who, it is now claimed, had been ied astray by a young student at the Peekskill Military Academy named Emile De Reisthal.

Miss Paulding was a very attractive girl of 17 years, with dark eyes and a handsome figure. Her manners were exceedingly winning.

She was the daughter of John Paulding, who for several years conducted a restaurant on Main street. He recently married a second wife, who came from Boston, and with her came her pretty daughter to live at Peekskill. Edua developed great fondness for her step-sister, and they were often seen on the streets

and they were often seen on and stores together. When Mrs. Paulding and her step-daughter left town, considerable com-ment was heard. It soon became known, however, that Edna was in trouble.

The matter culminated in the arrest, on the charge of betrayal under promise of marriage, of Emile De Reisthal, son of Papal Count Alphonse De Reisthal, of Brooklyn.

Emile is about 20 years old. For three years he was a student of the Peekskill Military Academy. While here he was frequently seen in the company of Miss Paulding, often accompanied by another girl named Murden. Strong mutual at-tachment was manifested between the two

After this intimacy had gone on fo after this finite and a second and the second and t De Reisthal, informing him that young De Reisthal had wronged his daughter, and demanded that he save the girl's

honor by marrying her. Count De Reisthal then called on his son, who declared in the most positive terms that the charges were without foundation

The elder De Reisthal then accused Paulding of being a blackmailer, and refused to have anything further to do with him.

Mr. Paulding then had young De Reis-thal arrested, and he was balled by his

ing, as stated. The hearing of the charge against young De Reisthal was to be held before Judge Barton at Peekskill next Monday. It is said that Miss Paulding dreaded the Providence and New Haven Admitted as Members. SYNATURE, N. Y., March 25. — Providence SYNATURE, N. Y., March 25. — Providence
