### BERING SEA TREATY

Unanimously Ratified by the Senate.

IN SECRET SESSION TWO HOURS.

The Proceedings to be Conducted in the English Language-

The Board is to be Composed of Distintinguished Jurists, and They Are to Meet in Puris Within Twenty Days After the Counter Case, or What Might be Catled Evidence in Rebuttal-Five Questions to be Submitted.

Washington, March 30.—The treaty or convention providing for arbitration in the settlement of the differences between Great Britain and the United States over the jurisdiction of the Behring Sea was ratified by the Senate yes-

terday afternoon by a unanimous vote. The secret session which resulted in the ratification lasted two hours. Shortly after the doors were closed, a call of the Senate was ordered and au unusually large number of Senators anawered to their names, the number being increased to 72 before the vote on

There was some general discussion conerning the perfection of the treaty, and Mr. Sherman announced that the propositions made by some Senators at previous sessions that the arbitration proceedings should be conducted in English had met with a favorable response from Lord Salisbury, After Mr. Sherman made this statement the treaty was amended so that English should be the language used in the conduct of the proceedings.

The treaty provides that the Behring Sea controversy shall be submitted to a tribunal of arbitration, to be composed of seven arbitrators, the President of the United States and Her Britannic Majesty to name two each, and the President of France, the King of Italy and the King of Sweden and Norway to name one each. The arbitrators are to be dis-tinguished jurists in their respective countries, and the treaty provides that they shail meet in Paris within twenty days after the delivery of the counter case, or what might be called evidence in rebuttal. The printed case of the two parties, accompanied by documents, official correspondence and other evidence is to be delivered in duplicate to each arbitrator, and to the agents of each high contracting party, as soon as possible after the appointment of the tribunal, but within a period not ex-ceeding three months from the exchange of the ratification of the treaty. Within the next three months, unless more time is required, the counter cases are to be

delivered. The arbitrators are commissioned to "proceed impartially and carefully to examine and decide the questions that have been or shall be laid before them." All questions considered by the tri-tunal, including the final decision, are

to be determined by a majority of the arbitrators. Five questions are to be submitted to the arbitrators. These are: First—What exclusive jurisdiction in the sea now known as Behring Sea, and was exclusive rights in the seal fisheries therein did Russia assert and exercise prior and up to the time of the cession of Alaska to the United States?

2. How far are those claims of juris-diction as to the seal fisheries recognized

and considered by Great Britain?

8. Was the body of water now known

as Behring Sea included in the phrase "Pacific Ocean" as used by the treaty of 1825, between Great Britain and Russia, and what rights, if any, in the Behring Sea, were held and exclusively exercised by Russia after said treaty.

4. Did not all the rights of Russia as

to jurisdiction and as to the seal fisheries in Behring Sea east of the water boundary, in the treaty between the United States and Russia of March 30, 1867, pass unimpaired to the United States under that treaty?

Has the United States any right and if so what right of protection of property of the fur seals frequenting the islands of the United States and Bebring Sea, when such seals are found outside the ordinary three-mile limit?

If the arbitrators decide that the concurrence of Great Britain is necessary to the establishment of regulations for the proper protection and preservation of the fur-seal in Bebring Sca, the arbitrators shall then determine what concurrent regulations outside the jurisdictional limits of the respective Governments are necessary, and over what waters such regulations should extend. The high contracting parties also agree to co-oper ate in securing the adhesion of other Powers to such regulations. The question of the liability of either Government for damages is to be subject to further negotiation, although the arbitrators

negotiation, although the arbitrators may decide on questions of fact involved. The treaty also provides for the ap-pointment of two commissioners by each of the high contracting parties to inves-tigate and report facts having relation to seal life and measures necessary for its preservation. The decision is to be made within four months after the close of argument on both sides, and it is to

The exchange of the ratification of the treaty is to be made either at Washing-ton or at London, within six months or its date (February 29) or earlier, if pos-

Thought to Have Been Drowned,

Lynn, Mass., March 50. - Richard Brown and Warren Gott of Swampscott, started in their dory Monday morning after lobsters five miles off shore and should have returned at noon. Nothing has been heard from them as yet, and it is believed they were drowned in the heavy squall yesterday afternoon.

#### ABSOLUTELY PURE

SHE IS BADLY DAMAGED.

The Steamer Eider to Be Drydocked To-Day to Undergo Repairs.

London, March 30.—The North Ger-man Lloyd steamer Elder which was taken off the reefs at Atherfield Ledge yesterday has been towed to Southamp-ton and will be drydocked to-day.

It will require an immense sum of money to repair the damage to the vessel, for not only is her hull damaged but her saloon furnishings are about completely destroyed by the sea washing in and out of her. The company, will have her thoroughly repaired, and it is believed that she will shortly be again employed in the trans-atlantic trade. Captain Heinecke, who has stuck to

his ship with never-wavering confidence that it would at length be rescued, and who has labored night and day in the work, accompanied the ship to Southampton. He has nearly exhausted himself by his incessant efforts and shows marked signs of the anxiety he has endured for nearly two months. But for Captain Heinecke's earnest representations, it is probable that all attempts to savethe Eider would have been given up, and the vessel allowed to beat itself to pieces on the rocks.

The rescue of the Eider is a distinct

victory for the German salvers who were onguged on the work. The entire expert opinion of England ridiculed the assertion that the Eider could be saved, and in-sisted that the steamer was doomed to go to pieces on Atherfield Ledge, These experts now express curiosity to see how the Eider looks.

A HOT POLITICAL CONTEST. Caleb W. Mitchell Elected President of

Saratoga. SARATOGA, N. Y., March 80 .- The hottest political contest that has taken place in this village in many years closed last night in the election of Caleb W. Mitchell, Democrat, to the village presi-

dency, by 385 plurality over Albert F. Mitchell, his Republican competitor. The retiring village president, Devoa Lohnas, Republican, was elected two years ago by a plurality of 400. The entire Democratic village ticket,

including three trustees, is elected. The fight was on a moral basis.

Bell Telephone Statement.

Bosron, March 30. - About 100 persons attended the American Bell Telephons Company's meeting, which re-elected the officers and voted to increase the capital from \$15,000,000 to \$17,000,000, the stock to issue at par to present holders in the proportion of one new share for six now held. The report shows: six now held. The report shows: Number of instruments under rental Number of instruments under rental 512,407, increase 25,917; increase in 1890, 38,929; in 1889, 38,350. Total miles of wire, 266,456, increase 26,040, increase previous year 47,199; number of subscribers 216,017 increase 13,086; increase previous year 17,928. Total number of employes 8,376, an increase of 1,087. Number of daily connections in United States 1,584,712, or per annum about five hundred million.

May Look Into Dr. Warsaw's Case. New York, March 30.—Dr. Charles M. Warsaw of the Health Department, who was arrested Monday for mailing a pos-tal card on which he had writted a re-quest for a list of lottery drawings, is connected with the Bureau of Contagtons Diseases. He is a sanitary inspector under Dr. Edson. Dr. Edson said yesterday that Dr. Warsaw had been in the department about five years. He has not reported for duty since his arrest, but sent word that he was sick. It is likely that the Board of Health will take some the cames to call on your the comes. connected with the Bureau of Contaglaction in the matter of his arrest.

Will Push the Cases

Boston, March 30.—When asked as to the outcome of his visit to Washington, United States District Attorney Allen said to a reporter yesterday: "Attorney General Miller is in perfect sympathy with the attitude of this office toward the Maverick Bank and Whiskey Trust cases. We intend to keep steadily on in the prosecution of these suits until their merits have been passed upon by the juries who will sit in judgment upon them. We are determined that justice shall be done to all parties interested, in-cluding the defendants."

MORE EXPLOSIONS THREATENED

Judge Beneit Ordered to Leave His House by the Owner.

A Rich Distiller Warned that His House Will be Blown Up on May Day-It is Thought that the Anarchists Guilty of Recent Explosion Can be Punished with Death-The Reds Watched in London-All Baggage will be Examined.

PARIS, March 30 .- There was a dynamite explosion late yesterday afternoon in the building of the Credit Lyonnais, one of the largest banking institutions of the city.

Police are in charge of the building and refuse to let anybody approach. Two arresti have been made.

The bank building is one of the most important in Paris architecturally. It is a massive building, in the heart of the great business quarter. It is unlikely to be more than wrecked in a room or two. Probably the explosive was placed in the courtyard.

The Anarchists have sent a warning to a rich distiller named Premier, who lives in Romans, in the Department of Drome. They threaten that his distillery will be blown up with dynamite on May Day. They have no grudge against him, but will distroy his building because be is the richest man in the place. M. Bulot, the public prosecutor, in answer to in-quiries about the dynamite outrage at

quiries about the dynamite outrage at his residence, says:
"At the trial of the Anarchists in August I demanded the heads of De-camps and Dardare. The jury was timid and only imposed three years' imprison-ment. Juries are so cowardly that I doubt if any would convict Ravachol If arrested. I am a Radical, even a Social-ity but appropriate Anarchism. It is exist, but reprobate Anarchism. It is ex-tremely probable that there is a grudge against me. Decamps, who is a violent fanatic and who is now in Poisey Prison, is the real leader of his party. He is beloved by his wife, who may be secretly inciting his friends."

Premier Louber has conferred with the chief of the detective force. It was resolved that all who were arrested on suspicion should be treated with the ut-most rigor. The landlords of buildings in which arrived believed to be obnox-leus to Arrest the reside are getting anxlous about the property, and Judge Beneit has received notice to quit. His landlord had received notices from his tenants that they would quit if Benou did not.

The Royalist "Gazette de France', is The Royalist "Gazette de France", is trying to make political capital out of these attempts. It taunts the Republicans with having banished God, liberty and honesty, with having set up statues to insurgents and celebrated anniversaries of rebellions. They are now resping what they have sown. The harvest is not yet ripe, but will be so quickly. It is thought that the Anarchists guilty of the recent explosions can be

guilty of the recent explosions can be punished with death under the law then in force. This, however, is somewhat

THE STOLEN DYNAMITE.

London Officials Fear that it is Stored in that City. London, March 80.-The police here have been ordered to watch Anarchists who arrive here from the Continent. In the last three weeks 200 of them are said to have come over from Paris and Zurich. Their presence has been noticed at the Socialists' meetings on Sunday nights, and the attention of Home Secretary Matthews was called to the fact. It is apprehended that many of the 300

dynamite cartridges stolen from the Solsp-Sous-Etiolles quarry in February have been brought over and stored here for future use. Consequently the stringent regulations made after the attempt to blow up the Parliamentary buildings have been revived, and the Custom House officials have been ordered force them without exception or modifiention. All baggage will be examined, and immense inconvenience will result Miss Chinner-He's afraid if he comes for all tourists in Europe this spring and

Several Paris detectives have arrived here, it is said, with proof of the co-operation of the Paris and London Anarchists. The Socialists here deny that they know more than the general public about the outrages, and say that no refugees have arrived from the Conti-nent. They do not countenance the methods of the Paris dynamiters.
