WHEREVER England has cheaper woolen goods than the United States it is on account of the cheap labor of women and children, and not because of free wool.

Y. DOODLE IN HARD LUCK. Yankee Doodle came to town, riding on a pony. Which they called Free Trade—by gosh! But that horse was bony!

THE *Daily Standard* is a new candidate for journalistic honors. It is published at Hazleton and is the offspring of the old *Semi-Weekly Standard*. It is politically Democratic, and starts out in the world without a bluster, and has a very healthy look for a youngster.

REPUBLICAN

In 1890, during the month of November, the exports of steam engines from the United States to Cuba amounted in value to \$267,194.

In 1891, under Republican reciprocity, during the corresponding month, our exports of such articles to that country amounted in value to \$551,127.

This increase of \$283,933, or 106 per cent., was caused by Republican reciprocity.

THE approaching election in Rhode Island, which takes place on Wednesday, is looked forward to with a feeling of more than usual interest by both parties and special efforts are being made by each to carry the day. The Democrats have sent a number of their ablest speakers into the state, and the Republicans have done as

LIVELY CONTESTS AT THE PRIMARIES.

PARTICULARLY IN THE SECOND AND FOURTH WARDS.

THE FIGHT AGAINST FINNEY FAILS

His Supporters Carry the Second Ward by Two to One—The Third Ward Battle Divided to a One-Sided Affair. Close Fight in the Fourth.

POLITICS waxed warm in town Saturday afternoon among the Republicans and the scenes about the polls were of a lively character. The primaries in the Second and Fourth wards were particularly interesting.

The Fourth ward battle had a most peculiar result. The fight was a more bitter one than in the Second and the old war horse, Hon. M. P. Fowler, was beaten by a few votes. Mr. Fowler was selected for the election board, but upon being taunted with the boast that he was to be defeated in his fight for County Delegates he secured a substitute for his place on the board and pulled off his coat to make votes. He made an excellent stand and there is a feeling of sincere regret among many who did not vote for him that he failed to rout his opponents.

The Tosh-Morgan combination carried the Third ward with flying colors. Surprises were expected and watched for, but they failed to materialize. A few votes were cast for J. H. Pomeroy, Esq., who made a personal fight during the week for election as a Pershing delegate, but Mr. Pomeroy states that the votes were cast by people who failed to learn that he withdrew from the fight Friday evening.

Squire T. T. Williams and Councilmen Lamb and James seemed more interested in the Second ward fight than they were in that in their own ward and they spent considerable time near the Second ward poll ng place. Councilman Lamb was so much interested in it he failed to pat in an appearance at the Third ward poll and his vote was not recorded there.

In the Second ward a desperate fight was made against the Finney-Baird ticket by the Morgan-Broughall combination, but it failed miserably. The result was a big surprise to the latter combination and its Third ward friends. There was no opposition in the First ward.

The results of the primaries, as shown by the returns were as follows:

FIRST WARD. County Delegates—Adam Mort, John Hesser. Alternates—David C. Hughes, Harry Moyer, Legislative Delegates—David Rennie, John Kendrick. Alternates—J. S. Williams, Charles Haskins. Standing Committee—A. E. L. Leckie, Jesse Davis. Alternates—Edward Dougherty, Alex. Morris.

SECOND WARD. County Delegates—Thomas Baird, 80; John F. Finney, 84. T. J. Broughall, 43; Harry Goodman, 25. Finney and Baird received the same vote for district delegates. Their alternates, Frank Lewis and Elmer Wasley received 84 votes each. The opposition candidates for district delegates were W. J. Morgan, 39 votes, and George Holvey 27. Standing Committee—Squire C. W. Dengler, 94; Harry Keiper, 84. Alternates—Thomas A. Evans, 92. On the opposition ticket, first standing committee, R. H. Morgan polled 17 votes.

THIRD WARD. County Delegates—Thomas Tosh and William Trezise. Alternates—John H. Reese and Lewis Hafner. District Delegates—F. C. Reese and Robert Oliver. Alternates—John Reeves and Henry Bickelman. Standing Committee—David Morgan and Daniel Neiswender. Alternates—John G. Thomas and Benj. Beacher. The votes polled were 175. Morgan, Reese and Thomas polled all of them. None of the candidates received less than 170 votes.

FOURTH WARD. County Delegates—Davis and Brown. Alternates—Lorah and Gable. District Delegates—Powell and Tempest. Alternates—Pritchard and Schmidt. Standing Committee—Walker and Leha. Alternates—Lebe and Reigel.

FIFTH WARD. County Delegates—Charles Hornberger and Samuel W. Davis. Alternates—Frank Bock and Henry Warnick. District Delegates—William Bachman and Richard D. Reese. Alternates—John Brown and William W. Trezise. Standing Committee—John L. Hasler and Christ. Foltz. Alternates—William Bachman and Geo. M. Boyer.

NOTES. The voters of the Third ward who had their eyes and ears open must have known that during the election Saturday D. J. Williams was one of the most loyal supporters David Morgan had and no reference to the opposition could be construed as a reflection upon Mr. Williams.

Squire Dengler was at the Second ward poll on Saturday and expressed himself in unmistakable terms against the continued

hostilities against one or two men because the Morgan people failed to get the post office three years ago. There are more intelligent people in the Second ward of the same belief, as shown by the returns.

One of the numerous false color devices resorted to in the fight to defeat Finney Saturday was a story that Finney had attempted to get T. J. Broughall to run for School Director at the last spring election so he could be sacrificed for one of Finney's favorites. Just before the polls closed Finney declared publicly, in the presence of Broughall, W. J. Morgan and others that before the spring election, when Finney suggested that Broughall be a candidate, John W. Morgan declared he would not vote for him.

Come home, Henry, come home. To-morrow the Republicans will name a winning ticket. Let harmony begin with a big H.

John I. Mathias, who is a candidate for delegate to the National Convention, never gets discouraged. He has been knocked out often more than any man we know of, yet he comes up to the scratch, smilingly every time, or another bout. That's what we call true Republicanism.

Whatever bad feeling existed among the Republicans on Saturday it should now be buried out of sight. Let the party be a united one this year.

J. Harry James, Esq., is among the latest candidates for District Attorney.

Scott, of Frackville, candidate for National Delegate, has made a very close canvass.

The Clevelandites are on top in this county.

Hon. Eugene Donahue, of the Second district, will be a candidate for re-nomination on the Democratic ticket for the Legislature. John Dence, of Ashland, is also a candidate.

The following gentlemen will contest for the Republican nomination for the Legislature in this district: John J. Coyle, Mahanoy City; B. J. Yost, A. E. L. Leckie, Frank C. Reese, Shenandoah; Edward Welsh, Brownsville.

BAKER BALLOT.

Secretary of State Harity will shortly issue cards of instruction explaining the Baker ballot law to voters and election officers. The instructions will be plain and useful and will begin by stating that the object of the new law is secrecy.

The right of the inspectors to challenge voters remains. No one can pass the guard rail if he is challenged or his name is not on the ballot check-list, until he proves his right to vote. No one can be given a ballot until he has passed the guard rail. Ballots must be folded before they are given out, so that only the official indorsement can be seen.

No ballot should be given to a voter who desires help in marking it until the judge has allowed such help to be given. A voter desiring such help must declare specifically that he cannot read, or is so physically disabled that he cannot mark his ballot. The voter must choose his own helper.

Election officers are responsible for the safe keeping of all the ballots, whether used at the election or not. No voter can be allowed to take any ballot out of the inclosed space, whether he has marked it or not. If he attempts to do so he should be arrested for an attempted violation of the act.

The card will also give detailed instructions to officers as to the manner of conducting elections.

A Leader.

Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alternatives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by C. H. Hagenbuch.

Will Remove. The undersigned will remove the balance of the clothing and gent's furnishing goods to Swalm's old stand, next to the post office. Now, if you wish to secure bargains, don't forget to call as the goods must be sold. PHILIP COFFEE, Administrator.

If you wish suits for boys, from four to fourteen years, for \$1.00, call and see them. 3-29-1w

Removal. The office of the Gas and Incandescent Electric Light Company has been removed to the store vacated by E. Wasley, North Main street. H. A. SWALM, Secretary, 4-1-91

LIGENSE MATTERS UNDER DISCUSSION.

THE QUANDARY OF A POLISH LICENSE HOLDER.

HE COMPLAINS OF A FREEZE OUT

One of Many Peculiar Cases That Arise From the Granting of Saloon Licenses. The Landlord Puts on the Tariff and the Tenant Must Do the Rest.

CONSIDERABLE discussion has been going on since the last term of the license court and if all that has been said could be reduced to space in the HERALD the public would have some very interesting reading matter. One of the latest cases under discussion is that of a Pole residing on South Main street. He complains that he applied for a license for the building at the southeast corner of Main and Poplar streets with the understanding that he was to have the use of the whole building. The place was considered an excellent stand because of the room on the top floor used for public and society meetings. He says that when he went to take possession of the building, after securing the license, the understanding of the landlord did conform to his views. The landlord said he could not have the whole building and would have to be content with the lower portion. Another condition of possession which the landlord insisted upon was an increase of rent from \$70 to \$100 per month. The first condition was a hard knock, but the second dazzled him. The Pole thinks a game of freeze out is being played on him so that Paul Samms, who moved from town to Plymouth a few months ago, can get the place; but as the Pole secured the license in his own name he thinks he will be able to bring about terms satisfactory to himself.

A well known gentleman, in discussing the case, said that the license business is being abused. Rents have been raised to gilt-edged figures by landlords whose places have been licensed and on the average the rents are equal to those charged for some of the best places in Philadelphia and New York.

Another feature that seems an abuse of the license system is the readiness with which licenses have been granted to parties who applied for them simply to give their properties a selling price on the market, while cripples, old people and widows with small properties to protect were refused. The fact that many worthy people were thus handicapped has aroused a strong sentiment among the people in general and there is no doubt that views on the subject will be given to the public more fully in the near future. It is argued that it is unjust that needy and law abiding people should be denied licenses upon bona fide applications and unquestionable bonds, when new licenses are granted the big fish right and left. It certainly looks as if the English, Welsh and American people are being scrutinized to an extent that gives an appearance of unjust discrimination. If the three judges of the Pottsville court would pay our town a visit they would certainly accept this conclusion.

Maple Hill Starts. Part of the immense breaker of the Maple Hill colliery was put in operation to-day and will continue working hereafter. The gangway and other work inside will be pushed ahead as fast as possible and when coal enough can be had the whole breaker will be put in operation. In time this colliery will be the largest in the anthracite region.

AMERICAN SABBATH.

The Work of the American Sabbath Union. Rev. F. A. Dony's Appeal.

The Rev. F. A. Dony, of Scranton, secretary of the American Sabbath Union, spent Sunday in town in the interests of Sabbath observance. In the morning he preached in the Presbyterian church and in the evening in the Methodist Episcopal church. He is a man of pleasing address and is very enthusiastic in his work and succeeded in inspiring his audience which not only listened attentively to his discourses but contributed generously to his society. He called attention to the fact that God intended the Sabbath to be a blessing—a delight—to man and to make it the means of dispensing these heavenly influences which are necessary to his highest welfare. The necessity of preserving it to the working people as a day of rest and worship cannot be over-estimated. The great majority of the people are slaves through the week and if something is not done to protect the Sabbath they will become slaves on Sunday too. The demand for Sunday trains and open exhibitions on Sunday is made not by the laboring classes for their own benefit, but by smaller corporations and wealthy individuals in order to increase their own wealth. The opening on Sunday of the Columbian Exhibition at Chicago next year would, if accomplished, strike a deadly blow at the laboring classes from which they would never recover. It would mean the downfall of the Christian Sabbath and the enforced labor on Sunday of multitudes who will desire to rest. The question of opening it on Sunday not only affects those who want to visit it, but those who have to conduct it. Rev. Wm. Powick followed in the evening with a brief account of his experiences concerning Sabbath desecration in France and the demoralization resulting from the opening of the Paris Exposition on Sunday, and attributed the recent anarchistic plots in Paris to the fact that France is practically without a Sabbath. At the close of each service a vote was taken on the question of endorsing the petition of the W. C. T. U. to Congress to forbid the opening on Sunday of any exhibition for which public moneys are appropriated. The vote was unanimous and the petition will be forwarded to Congress at once.

Post Office Notes. Schuylkill county has two new post offices—Festnot and Sheppton. Postmaster Murray, of Mahanoy Plains, has resigned and William Cope appointed in his place. "D.C." a post office in Fulton county, and "Top" in Armstrong, have been discontinued.

There has been an increase of 413 post offices since March, 1891. There is a post office in this state for each 1,100 inhabitants.

The number of registered letters sent from our local post office for last quarter were 992, the highest point ever reached. Pennsylvania has 463 postmistresses, the largest number than any state in the Union, being over 200 more than New York.

The First Alarm. At an early hour yesterday morning clouds of thick black smoke swept through Emerick street and the source was discovered in the chimney of a house occupied by a Polish family near Lloyd street. Efforts to attract attention of the inmates of the house failed and as the smoke continued to sweep down the street in large volumes an alarm was sounded. The department responded, but when the firemen appeared on the scene occupants of the house declared that they had just started a wood fire in the kitchen stove.

Maple Hill Starts. Part of the immense breaker of the Maple Hill colliery was put in operation to-day and will continue working hereafter. The gangway and other work inside will be pushed ahead as fast as possible and when coal enough can be had the whole breaker will be put in operation.
