LOCALETTES.

The blossoms are coming. Next Sunday will be Easter. All kinds of fish are plenty and cheap. The weeping willows are changing color. In a short time people will be planning for picnics. Styles of the present spring especially favor tall women. It takes early rising these mornings to get up with the sun. The house painters are getting ready for a busy spring campaign. A man without enemies is like bread without yeast; he never rises. The florists are beginning to tack on the Easter tariff to their prices. Diamonds are mounted with merely enough gold to hold the stone. Since the first of April quite a large number of new residents have been added to our population. "Gunpowder blue" is a new color. The girl who meets her match dressed in that will be sure to go off. It is well to be neat, but a fellow whose brains run chiefly to clothes is seldom of much use in the world, unless it be an advertisement for his tailor.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by C. H. Hagenbuch, Druggist.

WELCOME VISITORS.

Keep Their Pledges to the Public Faithfully.

There is no more welcome visitor to this town than the Adam Forepaugh show. They come bearing the prestige of a long and honorable career; of truthful announcements and honest dealings with their patrons. Every assurance is given that upon their coming exhibition here on Monday, May 9th, they will present shows that will prove a veritable revelation in well-nigh limitless magnitude stand superlative merit. The established standard features of the circus, menagerie, museum

and hippodrome are not only retained, but there has been the addition of a long list of real novelties, among them a genuine Moorish Circus Co., of thirty-five men, women and children—the women, the first genuine Moorish women ever brought to America. But the grandest feature of all in the shows as exhibited this year is a sublime historic Bible spectacle, the Fall of Nineveh. There is every reason to believe that the claim made by the shows that this is the most tremendous display of spectacular splendors and grandeur ever made on the American continent, is fully justified. It illustrates the oldest city in the world while in the zenith of its glory and while it passed through the throes of destruction, death and the oblivion of centuries as prophesied by God's chosen messengers. The story of the destruction of earth's first magnificent capital is most eloquently told several times in the Bible, and doubtless all Bible readers are familiar with it. Certain it is that they will feel a deep interest in the spectacle as it is produced upon a scale of unequalled splendor and is made as archaeologically and Biblically correct as is possible. In its presentation the Adam Forepaugh show are happily uniting pleasure and a better understanding of some of the underlying basic principles of both the Hebrew and Christian religions. Truly the car of progress is rolling swiftly on when we contrast the little circus show of past years with the superb, instructive exhibition now being presented by the Adam Forepaugh shows.

Steel Roofing the Best.

Steel roofing is steadily forcing itself before the people as the best, cheapest and most durable kind of roofing that can be placed on buildings and the demand for it is increasing daily. It can be put on quick and without tearing off the old roofing or otherwise inconveniencing the occupants. Hazleton now has over 70,000 feet of it. F. B. Cummings is the town agent for the roofing. 4-13-eod-3w

More Territory.
R. E. Flick has just finished placing a steel roof on the macaroni factory. Mr. Flick has been in Hazleton for some time past and has placed over 300,000 feet of steel roofing in Hazleton and every job has given great satisfaction. He has had the courtesy of Schuykill added to his territory and has appointed F. B. Cummings, of Shenandoah, agent. These roofs are unequalled for durability as well as neatness. He is prepared to put up roofs at reasonable figures and we think it will pay our readers to call on him.—Hazleton Sentinel.
