

THE SISSETON LANDS.

Over Five Thousand Settlers Already on the Reservation.

BROWN'S VALLEY, Minn., April 16.—There are now fully 5,000 settlers on the Sisseton reservation. These are pretty well divided between the Northern and Eastern borders. The squatter is monarch of all he surveys. The filer is literally out of the running. Gov. Mallette had 250 deputy sheriffs on the reserve heavily armed and instructed to maintain order; peaceably, if possible, forcibly, if necessary. They checked several rows before serious results ensued.

Wells are being dug everywhere, and all the squatters apparently intend to live on their land. In a couple of weeks breaking plows will be at work everywhere. There will be good lands open to settlement for weeks, as not half the land has been taken up at this hour. Col. Bernard has received orders to hold the troops here until Monday, but they are not needed.

The reservation is the source of the Red River of the North, which flows ultimately into Hudson's Bay; of the Minnesota River which crosses the State and empties into the Mississippi near this city; and of the Big Sioux River, which flows south and joins the Missouri River.

The lands are rich and numerous lakes cover the entire extent of the reservation, a good portion of which is wooded and of a hilly character. In fact, the character of the land reflects much credit on the judgment of the Sisseton Indians, who chose this land as their reward for their help to the settlers in the Indian War of 1862.

OUR RELATIONS WITH CHILLI.

Conflicting Reports in Connection With the Return of Egan and McCreary. New York, April 16.—A despatch from Washington to the "Commercial Advertiser" says that notwithstanding the reports published denying that the United States Government proposes suspending diplomatic relations with Chili, the fact remains that such is the intention. Every possible precaution is being taken by the officials here to prevent the true state of affairs from leaking out. The fact, however, that Minister Egan and Consul McCreary have both been granted leave of absence at the same time is in itself significant, and it has been decided beyond a doubt that neither of them will return in an official capacity to the little Southern Republic.

The Charges Against Ravachol.

PARIS, April 16.—The indictment of the public prosecutor against Ravachol and his accomplices in the dynamite outrage sets forth that there was an anarchist conspiracy against public authority and order, and the lives and property both of officials and private citizens, and that it had its origin in April, 1891, when an Anarchist named Decamp was convicted of wounding a policeman. After the conviction of Decamp, his friend and fellow anarchist, Chaumartin, urged others of the same stripe to take revenge on the courts and police. Ravachol was the leading spirit in the plans then laid for vengeance, and led in carrying them out.

The Railroad Rate War.

PIESBORO, Pa., April 16.—A despatch from Chicago says that the Pennsylvania, Monon and Big Four rate war is growing hotter every day and spreading rapidly all over the Southeastern country. It promises to disturb rates to every point in Ohio and western Pennsylvania. The Monon and its Cincinnati connection has announced a reduction of 50 cents in the rates from Chicago to Lima, Elletts, Troy, Dashler and Sydney, by way of Cincinnati, thus hitting directly at Pennsylvania interests and at the same time bringing other roads into the fight. The Erie, for instance, is a direct line to Lima and consequently is forced to meet the Monon's action.

"Joe" Feighed Under Arrest.

ST. LOUIS, April 16.—Joe Feighed, the correspondent, who was married to Mrs. Elizabeth Sims two weeks ago and who was contracted by another woman who claimed to be his first wife and whom he laughed to scorn when she threatened proceedings, is under arrest on a warrant issued for the complaint. The woman secured the warrant on exhibiting to the assistant prosecuting attorney a certified copy of their marriage record. From this it appears that the marriage was performed at Milwaukee, Wis., on September 14 by Rev. Sabia Halsey.

Denied by His Friends.

PHILADELPHIA, April 16.—The report that Dr. Charles B. Penrose was arrested as a member of the Wyoming gang of cattle thieves is denied by his friends here. They assert that the doctor went to Wyoming for his health and was induced by the cattle men to join in their crusade against the rustlers as a surgeon. He is a member of a prominent family, his father being Dr. Richard A. H. Penrose and his brother State Senator Boies Penrose.

Will Ask Citizens to Subscribe.

BROOKFIELD, Me., April 16.—At the meeting of the Brookfield Board of Trade the committee recently appointed to devise means to assist the State Board in raising the sum necessary to complete Maine's buildings at the World's Fair, reported in favor of soliciting subscriptions at \$1 each from the citizens. The report was accepted and a subscription list started.

A Famous Builder Dead.

NEW YORK, April 16.—Moro Eldridge, the well known builder, is dead at his home in this city. He was 67 years old, and was one of the most prominent German Americans in New York. He built the Astor library building, the Metropolitan opera house, the Eden Musee, and many other notable structures.

LAKE-SIDE LOCALS.

The Coming Attractions for the Favorite Summer Resort.

The coming season at Lakeside will be a brilliant one. Pawnee Bill has telegraphed the management for a lease of the grounds to exhibit his greatly improved Wild West show and for the merry-go-round privileges.

Captain Boynton's agent will shortly pay the pack a visit to make arrangements for exhibitions of his water combination. Those who have seen his exhibitions pronounce them the greatest of all shows. All acts are done upon water and will be framed on the lakes, which afford excellent advantages.

Arrangements for the grand open air musical festival have been under way for several weeks past. This festival will be held on Monday, August 15, 1892, and will be the greatest event of the kind ever held in this section of the state. The management, profiting by last year's experience will make many improvements and give better satisfaction in every way.

A number of gentlemen visited the grounds last week with a view to selecting a site for a factory. They gave no intimation as to whose interests they represented. Before leaving they said the place had impressed them very favorably. It is said Blausius & Sons, piano manufacturers, may locate there and that the gentlemen who visited the place did so in their behalf. As soon as the weather is more settled the grounds will be given a thorough cleaning and the trotting park will be put in condition for spring races.

There are a large number of applicants on file for picnic dates, already and it looks as if the grounds will be occupied every day during the year, with the exception of Sundays. A good police force will be on duty on the grounds this season. A strict watch will be kept on all trespassers and "crooks."

This is Important.

It is important for you to know, and for us, too, that you should know how to increase your business. A splendid opportunity is now offered to you. The HERALD and the electric street railway can induce people from Girardville to Shenandoah to make purchases at your store, "How can't it do it?" you ask, by placing an attractive advertisement in the HERALD. You say that it is expensive. It is only the non-progressive merchant of one idea that considers advertising an expense. True, the paper that he pays his money to never pay it back to him, as money; but they do better: they give him what his business lives on—publicity and trade. Advertising is an investment, just as much as any commodity or goods the merchant buys. Not only that, but it is the best investment he can make. There is no line of goods, dollar for dollar, that gives him so large a return for the amount laid out. If you, Mr. Merchant, are doing a small business, and would like to see it grow, there is only one way to make it—bring the people to your store. Try it. Call on the HERALD office, or drop us a postal card, and we will send our representative to you. Have your photographs taken at Hall's new mammoth gallery, 29 West Centre street, Shenandoah. It

DR. SANDEN'S ELECTRIC BELT

WITH NEW ELECTRIC SUSPENSORY.

The Crowning Triumph in Medico-Electrical Science! It cures all diseases curable by Electricity. It is a complete battery, as used by the foremost physicians, made into a Belt, so as to be easily worn during work, or at rest. It gives soothing, prolonged currents, which can be carried to any part of the body where there is pain, and will give instant relief, as Electricity permeates the entire system with a natural, glowing heat, rejuvenating every weak organ or part of the body.

WEAK MEN. Suffering from Nervous Debility, Sensual Weakness, Impotency, Drain, Losses, Nervousness, Stenipmatics, Lame Back, Kidney or Bladder Pains, or general ill health, resulting from over-taxation of brain or nerve force, absence, excess, worry or exposure, will find a speedy relief and permanent cure in this marvelous invention, which requires but a trial to convince you of its medicinal value. In your ignorance of effects or by excess, or abuse, you may have unduly drained your system of nerve force and vitality—whether it be by over-exertion or lack of force. If you reduce into your system the elements thus distilled, which are required for vigorous strength, health, strength and vigor will follow at once and in a natural way. This is our plan and treatment.

Dr. Sanden's Electric Belt is no experiment, as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of strong letters bearing testimony to their recovery after using our Belt. Our 200 page book "Three Classes of Men" should be read by every young, middle-aged and old man, sent sealed, free.
