A MURDER MYSTERY Another Strange Tragedy at Rahway, N. J. TWO DEAD MEN DISCOVERED.

> One Had a Bullet Wound in the Side of the Head. 8

He Has Been Identified as a Rough Named Purry-Various Theories as to the Explanation of the Mystery-The Man Supposed to Have Relonged to a Gang of Tramps Who Had a Fracas With Officers.

RAHWAY, N. J., April 16 .- This city has another murder mystery which, from the present outlook, will remain unravelled. The bodies of two men were found in a patch of bushes half a mile Buigaria's interests and that the Turk-ish government protects Bussia's prote-ges, who have entered upon a campaign of assassination, from Prince Ferdinand down. The note demands that Turkey be compelled to expel the assassins whom Russia supports on her soil. The note is supposed to be the precursor of a pro-clamation of Buildennia's indemandent east of the city, yesterday by an officer. One of the bodies had a bullet wound in the side of the head, but the other showed no external signs of violence.

The bodies, when found lay some dis-tance apart. One was that of a man about six feet tall, weighing about 150 pounds. He had worn a brown mous-tacke and his hair was thin and partially bald on the top. He was roughly and poorly clad. This was the body of the man who had a bullet wound in the side of the head.

The other man weighed about 140 pounds, was five feet five inches in height and wore thick curly hair and a brown moustache. The man who was shot has been recognized as a rough named Purry, who has been around the city for some time past. A theory advanced as to the cause of the deaths of the men is that Purry was shot by his companion while both were intoxicated. The mur-derer then, it is supposed, wandered off a little distance, lay down to sleep off the effects of his potations, and perished from cold and exposure.

from cold and exposure. The most plausible theory is that the dead men were members of the gaug of tramps which gave the police of Newark a hot battle on Wednesday night last. Word was received at the Newark Police Headquarters that tramps were breaking open freight cars at Waverly, and a number of officers surprised them at a camp fire drinking beer they had stolen from the cars. from the curs.

Oue of the tramps blazed away at the officers with a pistol, and they returned the fire. One of the tramps was shot in the wrist and nine others were captured. Some many to the evenps, and it is thought Purry when one of the tramps and received a build in the head during the firing. He and not companion may have walked on to liahway, where Purry, finding he could go no farther, lay down to die. His companion remained by which an organization in China is smig-gling Chinese into Canada on bogus cer-tificates.
