On the south side of the reservation there are not half enough soldiers to patrol the line, and great crowds are entering the land and push-ing in toward the county seat.

THE SECRET OF BEAUTY

IN WHAT IT REALLY CON-SISTS.

Gentleman who Has Made

It a Life Study. (N. Y. Recorder.)

There has been far too little attention given to the question of women's complexions and women's beauty; not that the world has been insensible to beauty, so-called, but that it has always, since the days of Cleopatra, looked upon it from a wrong standpoint. sprint races on record. The crowd of negroes north of Kingfisher now number about 4,500, and they will go in a body to County C. The largest part of this county is already taken by Arspahoe Indians, and it is thought there will be trouble, for these Indians hate negroes and will not live with them. It is estimated that there are 12,000 who has made a life study of this sub-persons walting to enter the reservation ject, and I give you his views because who has made a life study of this sub-I believe them to be valuable.

Dr. John H. Woodbury, President of the Dermatological Institute, 125 West 43d street, New York City, and inventor of Woodbury's Facial Soap for the skin, scalp and complexion, has probably done more toward enhancing the real beauty of women than any other man in America. He said:

"How many really and naturally beautiful women do we meet? Very few. Most women, even young wocolor, freekles, blackheads-in fact, most of the things which render them The U. S. Senate Executive Clerk Has Suffered Injustice in Silence.

Washington, April 18.—The truth in the case of James Rankin Young has just transpired. He was dismissed, it will be remembered. From his possible of the things which render them unattractive to their relatives, friends, lovers or husbands. They know it themselves just as well as one can, and what do they do? Powder, paint, use cosmetics; some even use arsenic remembered. From his powders, in fact, anything them. powders; in fact, anything they hear of that can possibly make the surface of the skin attractive. Others resort to enamels and he thousand devices to enamels and the thousand devices in-vented by charlatans for beautifying the surface and really producing mod-ern whited sepulchres. There never was a greater mistake. Beauty arises from good health, care and the use of just the right things. I will admit that some healthy women have irregu-lar features, but few healthy women have sallow complexions or bad color. These things arise because the blood is not healthy, throbbing and pure, and because the female organs of life are not doing their duty. Any woman who desires to become beautiful should look to these things, rather than to any outward appearance, and the outward Business

appearance will take care of itsel.
"What should she do? First of all, consider her health, consult the proper authority and use the proper remedy. I know there are very many ways in which women try to preserve health, but I really believe there is but one but I really believe there is but one way, and that is to keep the organs of the body healthy. I also know that there are many things that claim to do this; perhaps many of them are very good; but one thing that I know from my win experience that is exceedingly valuable is Warner's Safe Cure. I have used it personally, and have also recommended its use to friends, and the results have been more than satisface results have been more than satis e results have been more than satis

factory,
"It is said that a tree is known by its irnits. If women who were once unattractive have been transformed into blooming health and beauty, there is a reason for it, is there not? And the reason is usually to be found ingroved health, strength and vigor, which come only from developing and strengthe ing the organ—which sustain health. These are at the basis of all 6 male health and health? all female health and beauty."

I was greatly impressed by the sin-

cerity and intelligence of the doctor, and I believe if American women would follow his suggestion they might become, as they deserve to be, the most beautiful women in the world.
