THE MODUS SIGNED

Blaine and Pauncefote Come to Terms.

SYNOPSIS OF THE AGREEMENT.

It is Like That of 1891. With a Damage Clause Added.

If the Arbitrator Goes Against the United States Canadian Sealers May Recover—The Document Considered by the Senate in Executive Session—Referred to the Committee on Foreign Relations—General Business of Congress.

WASHINGTON, April 19.—An agreement between the United States and Great Britain for a modus vivendi in relation to the fur seal fisheries in Behring Sea for the present season was signed yesterday morning by Sir Julian Pauncefote, the British Minister, representing the Government of Her Britannic Majesty, and by James G. Blaine, Secretary of State, representing the Government of the United States.

This important agreement was signed at 11 o'clock at the residence of Secretary Blaine, who, owing to the inclement weather, did not go to the Department. He at once took it over to the Executive Mansion and laid it before the President, who in the afternoon transmitted it to the Senate for its action.

The modus is in the form of a supplemental convention to the treaty of arbitration recently negotiated and ratified. The modus vivendi states that both governments will prohibit during the sealing season the killing of seal in that part of the Behring Sea lying eastward of the line of demarcation described in the act of 1891.

The United States, it is understood, is allowed to kill for the subsistence of the natives on the islands of St. Paul and St. George 7,500 seals, the same restriction as was made last year, and the United States binds itself to observe this prohibition.

The vessels of either the United States or Great Britain, or citizens of either country, offending against this agreement may be seized by either of the high contracting parties, but as soon as practicable should be handed over to the authorities of the nation to which they belong, who shall have sole jurisdiction to try the offense and impose the penalties for the same.

In general it may be said that the document is a renewal of the agreement of 1891, with the addition of a clause providing for the settlement of damages sustained by the Canadian sealers through the interruption of their business in case the arbitration goes against the United States.

Under this clause, owners of Canadian sealing vessels have already begun to file their claims with a commission appointed to receive and present them. But Gen. Foster, the agent of the United States, who is preparing the case for this government, and Hon. E. J. Phelps, counsel, are leaving no point unexplored, and will be fully prepared to meet the claims on this score in the event that they shall ever be pressed for payment.

Doings of Congress.

WASHINGTON, April 19.—The Senate passed the two court bills laid over from Thursday and spent most of the remainder of the day in executive session over the modus vivendi in Behring Sea and other matters. The session of the House yesterday was without incident, the entire day being devoted to the consideration of the Naval Appropriation bill, which was finally passed as it came from the Committee with the exception of the dry dock at Algiers (La.) which was stricken out on a point of order.

Editor Crasner Found Guilty.

ROCKPORT, Mass., April 19.—Levy Crasner, editor and publisher of the Poughkeepsie Sunday "Sun," was yesterday tried on a charge of criminal libel preferred by ex-Alderman M. J. Downey, and found guilty by a jury in the regular session of the Dutchess County Court. Judge Guernsey will sentence him to-day. Crasner has persistently assailed prominent citizens in his paper for almost a year, and another indictment for criminal libel hangs over his head which was procured by Chief of Police McCabe.

Mrs. Gregory's Murderer on Trial.

NEWBURGH, N. Y., April 19.—The trial of Frederick McGuire for the murder of Mrs. Amelia G. Gregory near Middletown on Oct. 14, 1891, commenced at the court house in this city before Justice Bartlett in the Court of Oyer and Terminer at 10 o'clock yesterday morning. The drawing of jurors commenced at 1:45 p. m. and continued until 3:30, at which time the jury was called, nearly all being farmers. The trial proper was commenced at 9 o'clock this morning. There will be forty-eight witnesses for the prosecution and about twenty for the defense.

DO YOU COUGH

DON'T DELAY TAKE KEMP'S BALSAM

THE BEST COUGH CURE

It Cures Colds, Coughs, Sore-Throat, Whooping Cough, Bronchitis, Asthma, A severe attack of Consumption in five days, and a cure in ten days. You will see the excellent effect after taking the first dose. Sold by druggists everywhere. Large bottles, 75 cents and \$1.00.

Did you ever count up how much you pay for lamp chimneys? There are about twelve million families of us. We average, maybe, a lamp a family; chimneys break, perhaps, at the rate of one a week a lamp. Six hundred million chimneys a year for the ash barrels.

Suppose they cost ten cents a piece on the average; that's enough to half pay the national debt. Nine-tenths of it waste.

If you get Macbeth's "Pearl-top" or "Pearl-glass" you will pay a trifle more apiece, but not one-tenth as much a year.

Disreputable chimney makers are trying to furnish the dealers with cheap imitations. They break from heat, ruin the temper of the household and fill the ash barrels; a plague and a nuisance.

Insist on having the right kind.

SEVEN WERE KILLED

A New Jersey Powder Co.'s Works Blown Up.

SEVERAL OTHERS ARE HURT.

A Heap of Flesh and Bones All that Remains of the Dead Men.

The Report Terrific and Heard for Many Miles—The Wrecked Buildings Caught Fire and Came Near Communicating With the Storehouses of Powder—The Search for the Victims—Cause of the Explosion Unknown.

NEWARK, N. J., April 19.—The works of the American Forcite Powder Company, a short distance from the landing station at Lake Hopatcong, on the Morris and Essex Railway, blew up shortly after 3 o'clock yesterday afternoon and seven men were blown to atoms. The killed are:

J. D. SMITH, superintendent of the works.
JACOB GARLSON.
WILLIAM PIERCE.
JAMES VAGR.
A. JOHNSON.
GOSFREY WATER.
AN UNKNOWN SWED.

Besides these, two men were injured. One of them, Benjamin Cassimore, will probably die.

The works of the company consisted of a number of small buildings, scattered at a distance of about 300 feet from each other. The nitro-glycerine mill was the first building to go up, and the snick of this explosion caused six other buildings to be rent asunder by their dangerous contents exploding.

The report was terrific and was heard in the surrounding country for many miles. Buildings in the vicinity rocked as if on a stormy sea and in some instances appeared as if about to topple over. The startled residents rushed from their houses and saw a cloud of dust and smoke flying through the air, near the lower part of the company's works.

They knew instinctively what had happened and ran for the mountain side, fearful that some of the large storage houses of the company, in which there were tons of the highest and deadliest explosives, might go up at any moment. Within a few minutes had passed without their fears being realized, the people advanced cautiously to the scene of the explosion.

The wreckage was found to be on fire and burning fiercely. The most timid of those present, seeing in this a new danger,—there being a possibility that the flames might spread to the storage houses,—again fled. The others, however, ran out the company's fire apparatus and water from the lake was used to fight the fire.

In a short time the flames were under control, and then the wreckage scattered about was overhauled for the purpose of finding the men who had been at work in the buildings. Within a few minutes two men were found, both badly injured. The roll of the company's employees was then called, and it was found that seven men were missing.

These men were undoubtedly dead, and a search was begun for their bodies. The searchers were mostly old employees of the company, and knew that in a case like the present one it was useless to search among the ruins that still remained where the buildings had stood.

The searchers have succeeded in gathering about 150 pounds of mangled flesh and bone, which is all that remains of the dead men.

The cause of the explosion is unknown, and a representative of the company on the scene says it will be impossible to ascertain it.
