PROVIDENCE went against the Democrats in Rhode Island.

THE Louisiana lottery is the Dave Hill of Louisiana Democrats.

RHODE ISLAND workmen don't want any free trade treaties in their hands.

MR. CLEVELAND had an idea he was large enough to carry Rhode Island.

AGAIN the voice of the ex-Confederate brigadier is heard in Congress threatening the stability of the Government in case his demands are not granted.

MUST the question of protecting home industry and of paying pensions to defenders of the Nation be fought over with the South in each and every generation? It looks so.

THE reported sale of San Domingo was an interesting but absurd fable. With many the wish is father to the thought.

THE New York police force is not laughing at Dr. Parkhurst now. The staking up it got seems to justify the means the reverend gentleman used.

NOW it is said Cleveland will not accept the Democratic nomination unless he is sure he can carry New York. That settles it. Cleveland will not run.

THE fool who tries to shoot an apple from the head of his companion and perforates his forehead is a little worse than the crank who "didn't know it was loaded."

THE door to matrimony never closes. A couple of lovers recently married at the respective ages of 88 and 72. No stern parent attempted to sever the hearts that beat as one.

THE claim that Cleveland will be nominated for New York is reached in the roll-call of states won't hold water. He would lack about a hundred votes at that stage if he had them all.

HERR JOHANN MOST, after 10 months' imprisonment, is again at large, and has already begun to wag his athletic and trouble-making tongue. There are some men who learn little by experience, and Herr Most appears to be one of them.

THE Democratic majority in Congress is beginning to find out some of the difficulties of doing business when they put themselves in the grasp of an idiotic set of rules that allow the minority to say just exactly when business shall stop.

THE Democratic House is inconsistent in promptly passing a rigid Chinese exclusion act and in then passing a bill to take off all duty on the filthy and disease-infected woolen rags of Asia and the old world, which will be brought to this country to be made over into "cheap" woolen clothing for American workmen.

CLEVELAND said in 1889 that the only way to keep gold coin in circulation was to suspend "the present purchase and coinage of silver." Bland says the purchase of silver and issuance of silver notes under the Sherman law is fatal to silver as money and free coinage is all that will save it. Yet we have not suspended purchase and coinage of silver nor have we free coinage of silver, and still the gold is not driven out of circulation and the total product of American silver mines is represented in our currency. The divided Democrats are part of them gold monometallists and part of them silver monometallists. The Republicans are the true bimetalists.

RETAIN YOUR SENSES

COULD YOU IF YOU WERE CONFINED IN AN ASYLUM?

Some Interesting Facts From a Prominent Scientific Man Who Has Had a Most Valuable Experience.

(Chicago Journal.)

We sometimes see in the papers a thrilling account of where a perfectly sane person has been confined in an asylum. Think of it, reader! How long would you retain your senses if you were confined with a number of lunatics, night and day, and yet think of the physicians in charge of these patients who are compelled, day by day and year and year, to live among them. What wonderful opportunities they have for studying character traits and vagaries; what a wonderful chance for learning the miseries of life and how best to overcome them.

We are brought to these reflections by a conversation lately had with Dr. J. C. Spray, of 163 State Street, Chicago. For nearly ten years Doctor Spray was in charge of the Jefferson, now Dunning, Institute, at Dunning, Ill. This tremendous institution contained about twelve hundred patients in the insane department and fifteen hundred in the ordinary. Among this large number of persons there were a vast number of physical ailments, Dr. Spray, speaking about it, said:

"I treated the great cause for most of the mental and indeed physical disorders very carefully, and while some authorities make an estimate that seventy-five per cent. of the people in the United States are afflicted with some form of kidney disease, I do not think that the rate is so high, taking all ages into consideration. Before middle life it is less than seventy-five per cent., but after middle life it is, I should think, fully that percentage."

"This is something terrible, Doctor. Few people can certainly be aware that so large a percentage exists?"

"The Doctor thought a moment and then said: 'It is a fact not generally recognized that where a person has diseased kidneys and the organs fail to perform their functions of removing the waste and the impurities from the system, it soon produces the melancholy. As a result our asylums are filled to overflowing, while if the people would strike at the root of the matter and see that their kidneys were in good order, there would be fewer patients in the asylums. I have noticed that a large portion of all persons cases had kidney difficulties.'"

"What have you found, Doctor, to be the standard and most reliable remedy in such cases?"

"Dr. Spray spoke with great confidence. He said: 'Having so many cases to treat, I tried various remedies, and after a long and exhaustive trial, finally decided that Warner's Safe Cure was the best, most effective and most reliable remedy. I found it especially reliable in cases of incipient Bright's disease. It is certain to stop it, and even in the advanced conditions it always the disease, and to my surprise at first, cured many cases. Before structural changes set in, it is certain to cure, if properly administered.'"

"Has your experience while at the asylum, Doctor, been confirmed in your general practice since leaving it?"

"Yes, I have occasion to use the Safe Cure almost daily. Whenever I find traces of albumen in the urine of a patient, I prescribe the Safe Cure, and in nearly every instance where I notice indications of nervous troubles, I analyze the urine, and almost invariably find that it is caused by some affection of the kidneys. I now have a patient to whom I am giving the Safe Cure, and find that it is having the desired effect. Some time ago a gentleman came to me, who had been examined for life insurance, and traces of albumen were found. I advised the use of the Safe Cure, and he passed the examination without difficulty after having used it."

"I understand, then, Doctor, that you attribute a large percentage of the ills of life to some disease of the kidneys, and that you have found the remedy of which you speak the most effective in such cases?"

IN EXTRA SESSION

Proceedings of the New York Legislature.

GOVERNOR FLOWER'S MESSAGE

Reapportionment Bills Presented in Senate and Assembly.

The Republicans Protested Against Any Legislation During the Session, Claiming It is an Unconstitutional One—Some of the Changes that the Bills Provide for—New York to Get 31 Assemblymen and Kings 19.

ALBANY, N. Y., April 26.—When the gavel fell at 8:30 p. m. Lieut.-Governor Sheehan ordered the reading of the Governor's proclamation, and then Senator Cantor offered a resolution, which was adopted, that the regular employees of the Senate be retained. Resolutions were adopted to notify the Governor that the Legislature was ready for business and a like committee to notify the Assembly. Senator Erwin then offered the following, which was laid on the table:

"The undersigned hereby protest against any legislation during this so-called extraordinary session, for the reason that the same is not a valid or constitutional one. The Governor's proclamation does not recommend any subject for consideration. The call is not such as authorized and cannot be construed into an extraordinary session. We therefore protest."

The Governor's proclamation was then read as follows: ALBANY, April 25, 1893. TO THE LEGISLATURE: You have been convened in extraordinary session pursuant to the power vested in me by article IV, section V, of the Constitution. I commend for your consideration the subject for a reapportionment of members of Assembly among the several counties of the State and an alteration of Senate districts, in conformity with the Constitution.

The organic law of the State, recognizing the right of the people to fair representation in the Legislature, provides for an enumeration of the inhabitants at the end of every ten years, and directs that a reapportionment of Senate and Assembly shall be made "at the first session after the return of every enumeration."

Such an enumeration, although neglected in defiance of Constitutional obligation for seven years, has at last been taken, and the return thereof was made to the Legislature at its recent session. It is now the duty of the law-making power to apportion members of the Assembly among the counties in proportion to the number of their respective inhabitants, excluding aliens, and to alter the existing Senate districts that each will contain as nearly as may be an equal number of inhabitants.

The performance of that duty in a manner satisfactory to the people of the State is not without difficulty, but personal and political considerations should be subordinated as much as possible to the purpose of securing, for each locality its fair proportion of the representation. The task is rendered the more difficult by reason of the fact that the existing reapportionment was not only unfair at the time of its enactment, but has become more and more unfair with the changes of population. Under a fair division of members of the Assembly, therefore, some counties must make sacrifices and suffer a reduction in their representation. But such sacrifices should be made willingly, and I trust the Legislature will approach its task with conciliatory disposition, determined to discharge its duty impartially and to heed the demand of the people for a fair system of legislative representation.

The Senate then took a recess until 11 o'clock. At the hour appointed for the Senate caucus the Democrats met in the Lieut.-Governor's room, but Senators Parker and Walker refused to go in. The clerk of the Senate was sent to interview Mr. Walker, and later Senator Cantor came out and had a long talk with him. Mr. Parker finally went in, having been assured he could have four Assemblymen, but Mr. Walker said among the majority member, and refused to be appeased.

It was 11:48 when the caucus adjourned, and Senator Cantor immediately offered the bill which apportions the districts. The Senate then adjourned till 11 a. m. Assembly. The Assembly had not been called to order when a committee of the Senate arrived to announce that that body had convened and was ready for business. The proclamation of the Governor issued last week was read, the Senate Committee was received, the roll was called showing 113 members present, and the House was ready for work. Messrs. Guenther and Varney were sent as a committee to the Governor, and Messrs. Webster and Hubert to wait upon the Senate. On motion of Mr. Bush the clerk and employees of the regular session were retained.

Both committees had reported Col. Williams, private secretary of the Governor, brought in the Governor's message, which was read by the clerk. Mr. Bush moved that the message be printed and referred to a committee of the whole House. The resolution was adopted after much discussion, and a recess was taken until 11 o'clock. It was 11:30 before the gavel fell. Then Mr. Bush offered the Apportionment bill, which was ordered printed and referred to the Committee of the Whole House. An adjournment was then taken till 11 a. m. to-day. It is figured that there are eighteen sane Democratic districts and four doubtful. New York city practically gains two Senators and Brooklyn will have three more Senators, although one Kings district is bunched with Richmond County. New York gets thirty-one Assemblymen and Kings nineteen. Albany gets four, Monroe three, Queens three, but Steuben only one. Westchester has three, Richmond one and Suffolk one. Albany, 3; Erie, 6; Onondaga, 3; Oneida, 3; Orange, 2; Rensselaer, 3; Ulster, 2, and all the other counties 1 each. Mary Booley Will Die. PROVIDENCE, April 26.—Mary Booley, who was murderously assaulted Saturday, will probably die.
