GIVE THE REPORT.

It is essential that the people of this town shall be furnished with a detailed report from the joint com mittee that handled the proposed new water works movement. The parties who precipitated and engineered the project were reckless in their charges. and insinuations and would listen to no arguments on law or reason. The people now demand that that committee give to the public the basts of their stubborness. It is but fair to admit that members of that committee were misled, ill-advised, or mistaken in their views, but it is not fair that the committee should squander two thousand dollars, and, perhaps more, of the public money and treat a demand for an accounting with indifference. Three orders, one for what has It done? Got the borough

\$300, another of \$500 and a third for \$1,000, has been granted this joint committee to carry out its work-and into a fult, mortgaged the borough treasury for another bill of costs, and put the people in the position this see-or-hear-nothing-committee was warned against. There is not a sensi ble man in the town who will hesitate to declare that the public water works movement up to date has been a rank tarce and an imposition upon the people. Ever since the committee was appointed there has been a leak In the borough treasury. For every day upon the calendar, for instance, three dollars have rolled out of the tazpayer's pockets to "protect the streams" and they are still rolling, People may talk about tattooed friends but they can't get away from the fact that the pockets of the people of Shenandoah are being unmercifully tattooed. If reports are true, and there is no good reason for doubting them, this borough is paying two men \$1.50 a day for trout fishing. Certainly this is not in accordance with the spirit of economical government. But this is only a sample of the reported extravagauce and recklessness. Surely the Councilmen will not let these reports to go by unnoticed. In conformity with the duty they owe to themselves, as well as the people, they should make a public accounting. We are aware that the HERALD's demand for this accounting is stamped by some as an "cld water Company" measure, but conscious of the fact that we are doing our duty to the people, we still insist and throw the assertion back

On Thursday the Daily Republican entered upon its sixteenth volume as fresh and spry as a spring chicken. The Republican has been very successful. We have always wished it success and still harbor the same feeling. We have attacked it, but that was Plasters. I have used them for twentyonly when friend Z rby tried to make the people believe that his paper, gave him a license to rule the universe. As when thrown from a carrisge and seriously a whole Zerby is a pretty good fellow and is very much interested in the welfare of Pottsville, so much so that we can't hint that Shenandoah is the largest town in the county without causing him to kick.
