# LET US HAVE

TRUE REFORM.

THE BOROUGH SHOULD OWN A LIGHT PLANT.

WHITE HAVEN HAS ITS OWN

And Public and Private Electric Lights are Supplied at Almost a Nominal Figure-Street Paving.

by one of our Councilmen that the borough is in a position to pay off every cent of its indebtedness is gratifying as it is surprising. We hope the statement is back-

ed by facts, for if it is there is no reason why the streets should not be paved and the borough may just as well have its own electric illuminating plant.

For the benefit of our Councilmen and taxpayers we refer to an article just pubillumination of any town in the state. The streets are lighted by 2,000 candle power electric lights and the total cost is less than \$600 per year. The private residences, too, are illuminated at a comparatively trifling cost-20 cents per month for each 16-candle power incandescent light.

The low rate is due to the borough owning the plant and the fact that the dynamoes are propelled by water from the Lehigh river, which power the borough anjoys without cost.

Now if our people should decide to have of Main and Centre streets at 6 a. m. and other sources from which cheap fuel can be secured in abundance.

Now is time for reform all around. Our Councilmen, who say the borough is in a position to free itself of debt, should now be a position to give the poor people of town employment by deciding to permanently improve the streets by paving. This work, coupled with the contemplated work on the borough water works, would make Shenandoah a veritable bee-hive.

Let the Councilmen be honest in their reform declarations.

#### THE ELECTRIC.

Ashland Council Grants an Extension of Three Months Time, Etc. At a meetin, of the Ashland Borough

Council on Wednesday evening an ordinance was passed granting the Mahanoy City, Shenandoah, Girardville and Ashland Street Railway an extension of three months in which to build their road.

Work will begin at once upon the Electric Railway at Mahanoy City. Thro carloads of rails were received this week and were sent to Mahanoy Plane. An engineer corps, in charge of Mark D. Bowman, with Robert Bowman, Horace Hagenbuch and Phil McIntyre as assistants, are surveying the route between there and Gilberton. Work will start first at Mahanoy Plane, and gangs will be working in town in a few days, and work will be pushed rapidly from both ends until the forces join.

It is said that Surveyor Bowman has orders to survey a line from St. Nicholas to Lanigans. This branch will not run into Shenandoah, but will constitute a valuable feeder to the Mahanoy branch.

Representatives of the Electric Railway and the Mahanoy City Water Company are expected to come together in a few days and make arrangements between them that will be mutually satisfactory. The electric tary, W. J. Watkins. Subsequently the railway people would have preferred to have gone a little to one side, to clear the mittee to take charge of the active affairs company's line of pipe, but as this is likely of the project and the second committee to create opposition from business people lished in the Freeland Progress.
