Approval of the Register Clause-He Intimates That His Country's Embassy

Will be Withdrawn from the United States-The Vice-Consul at New York Very Indignant-Speculation as to the Prohable Course of the Celestial Empire in the Matter.

WARHINGTON, May 7 .- Tsui Kwo Yen, the Chinese Minister to the United States, has cabled his Government that the new Chinese Exclusion Act has been signed, and that in it is included the registration and certificate clause, against which he had vainly protested to the President. The cablegram asks for instructions as to the action of the legalation here.

Mr. Tsul said to-day that he cannot help expressing his disgust and disappointment at the passage of the register clause, but he can not say what action his Government will take in the matter, He does not expect his Government to act hastily in the matter, and therefore, he thinks it will be 10 days before he receives any reply.

In regard to what action China will take, it can only be conjectured from statements made upon the floor of Con-gress upon the debates on the measure. It was stated in Congress that China would retaliate for such legislation by issuing a decree excluding all Americans

from that country. The Chinese Minister is quoted as in-timating broadly the intention of his government to withdraw its embassy from the United States if the presence of from the United States if the presence of the subjects of the Celestial Empire were no longer desired here. It is stated at the Chinese Legation that the matter may soon be settled by the withdrawal of Minister Denby from China. If this is done Minister Tsui will im-mediately depart from America. New YORK, May 7, --Vice-Consul Wing, in an interview on the act just signed, said:

said:

"The authorities at Washington have been most unfriendly and to my mind the act which has just gone into effect is a plain violation of treaty obligations. The effect of the measure I do not think will be easily forgotten. It is an insult to the Chinese residents of this country, many of whom have been here for year many of whom have been here for years engaged in promoting the commercial interests of the two countries. The idea of so-called freedom in America is ridic-ulous when one stops to consider the way insults have been heaped upon my countrymen." "I do not see why the action was taken " could Ma Wine Upper for the

Mr. Wing placed a very conservative estimate upon his opinion in so far as it touched upon the action the Chinese Government would take in the matter. He deferred to the diplomatic qualifica-tions of the Chinese Minister, and said that the latter would be the proper per-

He declined to express an opinion as to whether or not China would retailate for such legislation by issuing a decree excluding all Americans from that coun-try. He hardly thought, however, that recourse would be had to such an ex-trame proceeding as terminating the treme proceeding as terminating the treaty existing between the two coun-tries, or that the Chinese Government would recall its embassy.
