THEY TOOK REVENGE

Anarchists Kill Six Men and Three Women in Spain.

A DYNAMITE FACTORY BLOWN UP.

Two Discharged Workmen, at Galaceno, When Refused Re-instatement, Deliber ately Exploded the Works-Many People Injured by Falling Walls.

Madato, May 21 .- Six men and three vomen were killed by the explosion in the Galdaceno dynamite factory, which was blown up by Anarchists yesterday. Many others were seriously hurt.

Two workmen were discharged from the factory Thursday for insubordina-tion. They threatened revenge. At 10 o'clock in the morning they applied for reinstatement, but this was refused.
They went away and sat down by the roadside within sight of the factory.
They were still there when the superintendent went out for coffee half an hour later. As the superintendent returned he saw them running away from the back of the smaller of the two buildings in which a large quantity of nitroglycerine was stored.

A few seconds later there was a ter-rific report, both buildings being lifted about forty feet into the air and then went to splinters. All the people in the immediate neighborhood were stinned by the shock. In Bilbao, five miles away, the ground trembled as if shaken by an earthquake, and people ran into the streets in a panic.

the streets in a panic.

At Galdaceno the scene of destruction was appalling. For hundreds of yards around the factory only ruins are left. Splinters of the ruined factory covered the ground, but not a piece of board or beam as large as a man's hand could be found. Trees were split down the trunks, outbuildings were laid flat, and not a chimney was left standing within not a chimney was left standing within a mile and a half. The factory was working short handed and several of the men had gone out for their second breakfast so that there were but nine persons in the buildings when the ex-plosion came. Of these nine but few vestiges remain. Belatives and friends have been searching the fields but have been unable to find anything but shat-tered pieces of limbs and small pieces of clothing belonging to the dead. The

fragments have been collected in boxes. The number of injured has not been ascertained, but many women and chil-dren living near the factory have been severely ff not mortally hurt. The two workmen who were discharged are un-der arrest. Both deny that they were responsible for the explosion. One of them has injuries which show that he was pear the factory when the avalories. was near the factory when the explosion took place, and both have been con-fronted by the superintendent who reseated his accusations in their presence. WORLD'S FAIR AND SUNDAY CLOSING Not the Intention of the Managers to Run

the Machinery on the Sabbath. Washington, May 21 .- Congressman Hopkins of Illinois says that nearly all the people who are sending in petitions to have the World's Fair closed on Sunday are doing so under a misapprehen-

"They all seem to think that those who want the Fair opened on Sunday want the wheels of the whole exposition to be going round. This is wrong. In the first place, it has not been decided yet whether the Fair will be open Sun-day or not. I am told that the subject has never been brought up by the Board of Directors. In the second place, these directors who are in favor of keeping it directors who are in favor of keeping it open Sunday, are not in favor of permitting any of the machinery to be oprated. They merely want the fine art galleries and similar exposition halls open, so that people can stroll through them just as they do through all the art galleries in the cities.

"As for running the heavy machinery, that has never been contemplated by anybody.

anybody.
"Then, again, some people claim that "Then, again, some people claim that if the Exposition is not shut one day, all of the employes will have to work seven days a week. The fact is that the World's Fair is being built on the eight hour plan, and six days constitutes a week's work. An additional force of employes would be kept in reserve so that nobody would have to work seven days."

The Granite Cutters' Strike.

New York, May 21.—It was announced this morning that all the men connected directly with the granite industry, who will be ordered out because of the National Granite Cutters' strike against the New England Contractors' Association tractors' Association, have been taken out A few more will be ordered out to-day in various cities affected by the strike, but their number will be small. It is now estimated that from 75,000 to 80,000 men, in all, are out.

OSWEGO'S BIG BLAZE. The Loss Will Reach a Million Dollars-

Narrow Escape of Firems Oswego, N.Y., May 21.-It is believed that the loss by last night's fire will reach \$1,000,000. The flames started in the big Washington Mills, which were soon destroyed. A brisk wind prevailed, and the efforts of the firemen were for a long time unavailing. The fire next spread to the Corn Exchange and Merchants' and Marine elevators, which had

to be abandoned.

The coal trestles of the New York, Ontario & Western Railroad, and Dela-wers & Hudson Canal Company, were next to go. The Continental elevator also burned, thus practically wiping out Oswego's lumber interests. There were a dozen fires at one time in the lumber district, and it was not until the firemen from Syracuse and Fulton arrived that the flames were subdued.

A number of firemen on top of the Continental elevator were cut off by the GOOD BUSINESS EDUCATION ! flames and had a very narrow escape. They were rescued with ropes.

Spain Raises the Pork Embargo. Washington, May 21.—"Spain has raised the embargo on the importation of American pork," is the news received at the State Department from Minister Grubb, With the exception of Italy the Grubb. With the exception of Italy the American hog is now a welcome visitor to all the countries of Europe, and it is thought in official circles that Italy, too, will soon join her sister countries and admit without restriction the great American product. Officials connected with the State Department and the Department of agriculture are especially pleased with this latest achievement and consider it a great stride forward in advancing the commercial interest of the United States abroad
