THE WATER WORKS.

The joint committee and Councilmen having refused to give the public facts upon which an estimate could be made as to the probable cost of the sposed water works, the HERALD

as sought to glean a basis for an estimate independent of them. The parties who made the estimate, as set forth in another column of this paper, are well known and entirely reliable, and one who reads the paper must be impressed that the work is the result of careful and diligent inquiry and study. It is highly important that the estimate should receive the attention of every taxpayer and voter in the town. It stands as a direct charge that Shenandoah cannot establish water works at near the figure some of the enthusiasts are leading people to believe they can. Of course, the promoters of the pet scheme will claim that the estimate is entirely too high, but mere statements to that effect will not go down. The people want more than statements, and more than "unofficial" estimates by "certain people." When the project was first put on foot some people were actually led to believe that the works could be erected for the \$45,000 granted under the old special election. Then I was not surprised. I saw by every the defendant agreeing to pay \$2,000 a Councilman fixed the figure at \$75,000; but it has now reached the \$75,000 notch, and there is not the \$95,000 notch, and there is not the \$100 notch and the said. I had ample confirmation of Dr. Gunn's letter and in terview, and I do not wonder that people and confirmation of Dr. Gunn's letter and in terview, and I do not wonder that people and confirmation of Dr. Gunn's letter and in terview, and I do not wonder that people and the said and the s slightest assurance that another special election will not be necessary to complete the works and put them in operation. The estimate published in the HERALD may be relied upon as being asnear correct as possible.

To GRASP the vastness of the Western floods and the damage wrought by them one need but read the statement telegraphed that in the Arkansas Valley 50,000 acres of land friends in the West. in Jefferson county are under water, and crops, which it took 40,000 laborers to plant, have been destroyed. It is estimated that between Memphis and Cairo 700,000 acres of farm land are submerged. It is expected that 1,000,000 acres of cultivated ground will be flooded. The amout of cotton land under water is 200,000 acres, 300,000 of corn are said to be destroyed and 225,000 acres of wheat ruined.

A PROFITABLE TALK.

OUR SPECIAL REPORTER SE-CURES THE FACTS.

He Determined to Thoroughly In-ALL THE NEWS FOR ONE CENT vestigate a Subject That is Causing Much Comment, and He Has Succeeded.

(N. F. Sun.)

Two days ago one of the most promment professional men in New York published a letter so outspoken, so unusual as to cause extensive talk and awaken much comment, Yesterday I interviewed the gentleman as to the contents of the letter, and he fully confirmed it in every respect. He not only did this but he also mentioned a number of unusual cases, which had come under his observation in which little less than a miracle had been per-

So important has the entire subject become that I determined to investi-gate it to the bottom, and accordingly gate it to the bottom, and accordingly called upon Mr. Albert G. Eaves the prominent costumer at No. 63 East Twelfth street, the gentleman mentioned in my interview with the doctor yesterday. Mr. Eaves has made quite a name. A complete knowledge of history, an appreciation of art and reliability are essential in his profession.

"Mr. Eaves," I said, "I learn that your wife has had a most unusual experience; are you willing to de-

scribe it: The gentleman thought a moment and an expression of pleasure passed over his face, "When I think," he said, "of what my wife once pas ed through and the condition she is in to day, I cannot but feel gratitude.

Three doctors at tended her and all agreed that her death was only a question of hours, perhaps minutes."

May I ask what the doctors called

"Uraemia and puerperal convulconsisting and puerperal convuisions, so you can imagine how badly she must have been. At last one doctor (it was Dr. R. A. Gann) said that as she was still able to swallow one more attempt might be made and a medicine was accordingly given her. She seemed to improve at once; in a tew days her sight was restored. 'I have had a long, long sleep,' she said, upon recovering consciousness, and I am rejoiced to say that she was re-stored to perfect health wholly through the use of Warner's Safe Cure, which

was the remedy we administered when she was past all consciousness."

I looked at Mr. Evans as he said this. His face was beaming with sat-

isfaction. He continued:
"The physicians told us, after my "The physicians told us, after my wife's recovery, that she could never endure childbirth, and yet we have a fine boy nearly a year old, and do not know what sickness is. I attribute it all to the wonderful power of Warner's Safe Cure. Why, my sister, who resides in Varginia, was, a while ago, afflicted precisely as my wife had been. I at once advised her to use this same great remedy; it cured her promptly.

Closing Session of the Methodist General Conference.

OMAHA, Neb., May 27 .- The last day's session of the Methodist Episcopal Quadrennial Conference was presided over by Bishop Fitzgerald. The Sifting Com-mittee had arranged an order of business burying the important committee reports.

An attempt was made to take off the table the report of the Committee on

Temporal Economy but it failed.

The Conference ordered the Treasurer of the Missionary Fund to pay into the Episcopal Fund the amount of the Missionary Bishops' salary.

When the Committee on Revisals made its report exceptions were taken to the report as offered by the Chairman, the claim being made that the paragraphs relating to the use of tobacco had been omitted without the knowledge of the omitted without the knowledge of the Committee. The omissions were added

and the report adopted.

The Committee on the State of the Church in Relation to Organic Union of all Methodist Churches recommended that the bishops report a commission of three bishops, three laymen and three ministers to confer with like commis-

sions from other churches, which the bishops are asked to request—adopted. The Rocky Mountain "Advocate" was made an official organ in the church, provided, however, that the book con-cern and church shall not be held liable

for any loss.

Any conference may adopt the paper

for its official organ.
The "Advocate" asked a similar fran chise and the committee so recommended. Elder Shank pledged himself to turn over all the profits above actual expense of editors, etc., to the worn-out preschers in Nebraska.

The Conference disposed of the woman question just before final adjournment. Dr. Hamilton offered an amendment to the report of the Committee on Judiciary that the proposition be submitted to the annual conferences, requiring that the words "must be male" be inserted after the words "lay delegates," wherever they appeared in the discip line, and that unless three-fourths of the annual conferences and two-thirds of the general conferences uphold it, then the law must be held to mean male and female both.

The amendment was adopted by a vote The amendment was adopted by a vote of 241 to 160. This sends the matter to the annual conferences, and the men must defeat the women two to one in order to keep them out of the next General Conference.

WEIGHTY QUESTION FOR SOLONS. Was Lillian Russell Justified in Refusing to Appear in Tights?

ALBANY, N. Y., May 27 .- The seven robed judges of the Court of Appeals, if they are at all antagonistic to the display of female anatomy on the stage, have a chance to air their views on the Bubject There has been argued, and is now be-

fore them, the appeal of Lillian Russell, the actress, from a judgment in favor of James C. Duff, to restrain the fair appellant from a threatened breaking of her engagement with Mr. Duff, and to prevent her appearance at the Casino on the Casino stage with a rival company

in charge of Mr. Aronson.

The story as presented in the briefs, on file with the Court of Appeals, shows that Miss Russell, in October, 1887, entered into an engagement with plaintiff for the seasons 1887-8 and 1888-9 at a salary of \$300 a week.

A preliminary injunction was obtained, the defendant agreeing to pay \$2,000.

The case will probably be decided be-

fore the court finally adjourns.
