L. J. WILKINSON,

29 S. Main St., Shenandoah.

DID YOU EVER!

Think what it cost to manufacture Baking Powder ? Did you ever think how baking pow-der is sold? Did you ever think there must be a large profit in it somewhere? The manufac-urer of a certain baking powder pay out marily a million dollars or more a year advortising their powder, trying to make people believe it is the best made. Their baking powder is sold at Mor per pound. The retainer makes his profit, the jobber makes his profit, the manufacturer makes his profit, and the consumer pays for all these and the newspaper advertising also. What does it cost to manufacture the powder? Other manufacturers give away 25 or 30 cents

Other manufacturers give away 25 or 30 cents worth of china, glassware, toys, hardware, books, etc., with every pound of baking pow-

der. Again the query, what does it cost to manufacture the powder-can you think it out manancture the powder_east you think it out? You don't need to. Girvin, Duncan & Waid-ley have a few words on the hading powder question. Uptil September 1 we withsell Penn-sylvania Haking Bowder at TEN CENTS per pound. It doesn't concern you whether we make or lose on it—we want to get it. intro-duced. On and after September 1st our price will not exceed like per pound. We are not going to pay a million dollars to observe it, we not not be to due as a server of the per pound.

advertise it; we are not going to give away any premiums with it-we are going to sell it, every pound guaranteed, to our customers. If it doe notgive satisfaction, bring it back and receiv your money.

Why do we say this? We expect it will please ou. Why should you pay 35 or 40c profit on very pound of powher you buy? Don't forget we strive to give our customers

the advantage of inside prices at which we buy all sorts of goods.

tion-Railway Matters.

the seemingly unnecessary expense that the joint committee or new water works is placing upon the bor-

h. They seem to be possessed of the idea that they were selected for the sole purpose of creating extra burdens upon the 7:20 2:50 property owners. I noticed a gentleman reading a small circular containing the call for the special election, and he asked me the question, "Does the law require that notice to be published in the papers, in

handbill form and also in circular form?" 1.1 I told him I did not think it was neces sary, but that it requires a certain amount of "the stuff" to keep certain parties in line, and that perhaps that accounts for the

circulars being issued. 1.1 School days are over.

Will the future be productive of good or evil? These are thoughts suggested to the minds of those wha witnessed the fourteenth commencement exercises of the Shenandoah schools last week. If we

received at the hands of our efficient corps of teachers, there is little room to doubt but that the future may be productive of the past week, soliciting orders for his firm. much good, both to the individuals and the country at large.

We are told that the early training carves the future man. That being so, we have at least that many more patriots within our midst, the sentiment of Americanism that Meals at all hours. Oysters pervaded the exercises of the graduating classes being productive of much good. I am glad to see our school teachers awakening to the general demand for a greater Ellangowen colliery in the absence of the knowledge of this country's history. Keep the good work up.

14.4

"OUR PUBLIC SCHOOLS." An Able Discourse by the Pastor of the

M. E. Church, On Sunday evening the pastor of the Methodist Episcopal church delivered a discourse on our public schools. The text was, "The fear of the Lord is the beginning of wisdom; and the knowledge of the holy is understanding." Prov. IX-10. The work of the church is closely related to that of the school. All civilization worthy the name has been the joint product of both. The forms of religion baye frequently existed without schools, but desency and morality have usually been at a low ebb. Mexico may be taken as an example of the degradation and superstition that results from a form of religion that HE grim reaper has lightly esteems the common school.

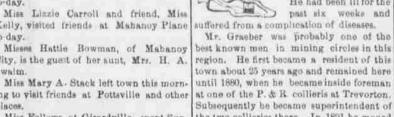

removed two more Shenandoah is to be congratulated upon prominent residents of the excellence of her public schools, and the town. They are the work that is being done in them by William Graeber and those true benefactors of the rising gene-Mrs. Snyder. Mr. ration, the school teachers. The commence-Graeber died at about ment exercises the other day show that 6:80 o'clock last night. with such ideas instilled into the minds of He had been ill for the the young our institutions will be aufopast six weeks and When we remember that our population is such a mixed one it will appear that our

schools are no small compliment to the intelligence of the citizens who bear the wurden of their support.

The showing is a still better one when we look at the educational work of the state and nation. According to the late census there are over twelve and a half the two collieries there. In 1891 he moved millions of pupils enrolled in our public back to this town and engaged in the botel schools. The percentage of increase from business, on North Main street, which he 1880 to 1890 was 20.54. But as the populaconducted for some time before his removal tion increased during the same time 24.85 per cent, the net increase of enrolled death. Mr. Graeber was also coal inspector pupils was only 1.68 per cent. And when we remember that nearly ten millions of The deceased was 55 years of age and our population, over ten years of age, cannot read, and that about one million of these are voters and are the carrion upon which our political vultures feed, it will at once appear how closely the interests of the state are bound up with those of her ommon schools.

It is startling to learn that in many of our most prosperous states the population and had been ill for some time. Nine sons is growing out of all proportion to the attendance of children upon our schools. And but for the rapid strides being made by the southern states the showing would other son, Eli, resides at St. Clair. The be a poor one. In five southern states rest of the family are residents of town. selected at random the average increase of One of the daughters is the wife of 'Squire population the past decade was 20 per cent.,

dance was 03 per cent. In five middle and western states selected in the same way the average increase of A Selection That Will Interest Mine population was 18 per cent., but the average gain to the schools was only 31 per cent. And our own state makes the worst showtion contributed at the Higo School Junior | ing of all; the population increasing 21 per Class exercises held in Ferguson' theatre cent isster than the attendance at school, This is doubtiess owing to the enormous immigration of races that are not only alien by birth but also alien in sympathy to our institutions. We must either Americanize them or they will foreignize us. This can be done in no way so effectively as by the public schools. These will Americanize their children and the children will Americanize the parents. They are at present inaccessible to our evangelizing agencies by reason of their language, and in removing this obstacle the school becomes the handmaid of the church. It ought, however, never to be forgotten that mere education cannot make men better. You cannot educate the devil out of men or women either. Educate a knave or a fool and the product will be an educated knave or fool. The education will simply multiply his power for evil. Knowledge is one thing, and wisdom is another. There is no wisdom without knowledge, but there is plenty of knowledge without wisdom; and we are told in the word of God that, "The fear of the Lord is the beginning of wisdom, and the knowledge of the Holy is understanding." Wisdom is the principal thing: therefore, get wisdom, and with all thy getting, get understanding.

Sults and Cross Sults.

Mr. and Mrs. Matz Miller were visitors to the house of Mr. and Mrs. Dumm Saturday. It is said that beer flowed freely and a jolly time was had. At about midnight Mr. Miller and Mrs. Dumm quarreled. Miller wanted his wife to go home

with him, but she would not do so. Miller left and at about four o'clock yesterday morning he swore out a warrant charging that the Dumm's were maintaining a disorderly house. Policemen Davis, McGrail and Holvey executed the warrant by visiting the house and arresting Mrs Miller, Mr. and Mrs. Dumm, Edward Lauther, John Wilcom and Emanuel Keely. All except Mrs. Miller and Lauther furnished bail for a hearing before 'Squire Williams to-night, and then Mrs. Dumm caused Miller's arrest on a charge of assault and battery. Miller was unable to secure bail and he spent the night in the lockup with his wife and Lauther. All the cases will be disposed of to-night. It is said that Miller's action was prompted by unfounded jealousy.
