DID YOU EVER!

Think what it cost to manufacture Baking Powder? Did you ever think how baking powder is sold? Did you ever think there must be a large profit in it somewhere? The manufacturer of a certain baking powder pay out nearly a million dollars or more a year advertising their powder, trying to make people believe it is the best made. Their baking powder is sold at 50c per pound. The retailer makes his profit, the jobber makes his profit, the manufacturer makes his profit, and the consumer pays for all these and the newspaper advertising also.

What does it cost to manufacture the powder? Other manufacturers give away 25 or 30 cents worth of china, glassware, toys, hardware, books, etc., with every pound of baking powder. Again the query, what does it cost to manufacture the powder—can you think it out? You don't need to. Givins, Duncan & Waidley have a few words on the baking powder question. Until September 1 we will sell Pennsylvania Baking Powder at TEN CENTS per pound. It doesn't concern you whether we make or lose on it—we want to get it introduced. On and after September 1st our price will not exceed the per pound.

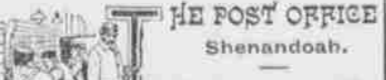

We are not going to pay a million dollars to advertise it, we are not going to give away any premiums with it—we are going to sell it, every pound guaranteed, to our customers. If it does not give satisfaction, bring it back and receive your money.

Why do we say this? We expect it will please you. Why should you pay 35 or 40c profit on every pound of powder you buy?

Don't forget we strive to give our customers the advantage of inside prices at which we buy all sorts of goods.

Givins, Duncan & Waidley,
8 South Main Street.

NEW WATER WORKS WERE VICTORIOUS

A LIGHT VOTE POLLED IN THE BOROUGH

RECEIVES A MAJORITY OF 250

The Result Was Received by the Adherents of the Joint Committee as a Vindication for Themselves.

The election held in town yesterday was conducted under the provisions of the new Baker Ballot Law, and was the first to be held under that system in the county. The general opinion of the electors seems to be that the system is a great improvement over the old law.

We believe the system will be more favorably received when the voters become better acquainted with its provisions. This fact undoubtedly had considerable to do with the result of the votes yesterday, as many electors deposited their ballots through an ignorance of the requirements of the law.

A cross (x) marked opposite the square "For increase of debt," indicates a vote for the increase. To those acquainted with the features of the law, this requirement was well understood, but the average voter would naturally place the cross-mark opposite that which he wishes to discard, and for this very reason many votes were counted different from the intent of the voter.

The friends of the new water works had a majority in every ward in the borough, with the single exception of the Second. The result shows that the voters of the latter ward are not in favor of the new water works, and it also proves that they have been misrepresented by their representatives in Council in casting his vote in that body in favor of the establishment of the works.

The greatest surprise was felt when the vote of the Third ward was announced. The adherents of the old company confidently expected a majority against the increase of debt.

The result of the election was enthusiastically received by the joint committee and their friends, but, on the other hand, the opposition seem to have lost no sleep over the matter, and assert that if the joint committee had issued their "stump-speech" two weeks previous the result would have been entirely different.

The total vote of the borough by wards is as follows:

	For Increase	Against Increase	Majority
First ward.....	173	57	230
Second ward.....	66	102	36
Third ward.....	192	108	84
Fourth ward.....	190	101	89
Fifth ward.....	153	71	82
Total.....	764	514	250

False Rumors.
It was reported upon our streets this morning that the old water company had increased their water rents to \$1.75 per month, and that the fire companies would be charged \$5 per day for water furnished the sprinklers. Investigation, however, proved the rumors to be without foundation. The officials of the company say the rents have not been increased, and that they have no intention to pursue such a course. The rumor undoubtedly emanated from the friends of the new water works.

An Organized Movement.
There appears to be an organized movement on the part of a certain class of citizens of this town to persecute the Jewish portion of our population, and which should demand the serious attention of our borough authorities. Several instances have lately been recorded where the Jews have been attacked by this class of people, and their hostility is not confined to the male portion of the Jewish residents, the females also coming in for a share of their hatred. Yesterday five Lithuanians unmercifully attacked a Jew, and beat him almost to death. Three of the attacking party were arrested and given a hearing before a 'squire and held in the sum of \$500 bail each. The other two have not yet been arrested.

Last April she was taken down with measles, followed with a dread, cough and turning into a Fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones."—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at C. H. Hagenbuch's drug store.

Improved Train Service.
Two new trains, which greatly improve the facilities of travel between this city and the cities of the Schuylkill Valley, have been added to the schedule of the Schuylkill Division of the Pennsylvania Railroad, in effect May 22d. The train now leaving Philadelphia at 11:37 p. m. week-days for Norristown will, until further notice run through to Reading, stopping at all principal intermediate stations. This will be a great convenience to those desiring to spend the evening in Philadelphia. A new evening train has also been placed in service between Pottsville and Philadelphia. It will leave Pottsville at 7:05 p. m., Reading 8:20 p. m., Pottstown 8:33 p. m., stopping at all principal stations, and arrive at Philadelphia, Broad street station, at 10:20 p. m., connecting with the late trains for New York, Washington, and points in the West. The present schedule presents the best service ever enjoyed by the residents of the valley.

Placed Under Bail.
The only arrest, arising from the many heated discussions over the election yesterday, was that made by Constable Boland. Thorn Stout, son of Councilman Stout, appeared at the Fifth ward poll to cast his ballot. When requested by election officers to give the number of his house, he stated that he did not know it. Thomas Jones, who was standing near by, quietly said that he was too dumb to know the number. Warm words followed, but they were separated, and Jones left the polls. Stout, however, followed and at the corner of Jardin and Centre streets, dealt Jones a severe blow. Both men were then arrested by Constable Boland for violating the borough ordinance, and taken to the Council chamber for a hearing. Not finding the Chief Burgess, bail was given by both parties, and a hearing will be had before Chief Burgess Smith this evening.

GLEANINGS BY OUR REPORTERS

HAPPENINGS HERE AND THERE RECORDED.

WM. PENN COLLIERY SOLD.

The Local Field Covered by Our Corps of Reporters—News From Near by Towns—Other Local Happenings.

About two months ago the city papers contained a dispatch stating that the Pennsylvania Coal Company had opened negotiations with the officials of the Wm. Penn Coal Company, whereby the colliery of the latter company would pass into the hands of the former. Investigation made by the Herald at that time failed to substantiate the truth of the rumor, and the officials of the colliery denied that any such negotiations were pending.

It is now stated, on very good authority that the Pennay has secured control of the colliery through their agents, Stockney & Cunningham, of New York, who are the lessees.

The colliery is situated on lands of the Girard estate, near this town, and is one of the largest in this district. It employs about seven hundred men and boys, and is owned by Brooks & Co., of Birdsboro.

The Pennsylvania railroad can easily extend a track from the colliery to their Shenandoah branch, and will thus be enabled to ship the entire output of the colliery, which annually amounts to 300,000 tons, over their own road.

Since the announcement of the transfer much speculation has been indulged in as to whether the new lessees would make any changes in the management. The officials of the company, however, state that no changes will be made. Superintendent William H. Lewis being retained in his present position, and E. R. Beddall will remain as outside foreman.

Unfortunate Family.
The family of Rees Reese, living on South West street, have certainly met with their share of misfortune during the past year or two. About a year ago their youngest son, David, was drowned in a mine breach, and last fall their oldest son, Daniel, met his death in the mines by being squeezed between two mine cars. The death of their two sons, coming so close together and the manner in which they were killed, was a great loss to the bereaved parents, but yesterday the family was again called upon to mourn the loss of one of their number. Mr. Reese last week received a paralytic stroke, rendering him speechless, and yesterday afternoon, between five and six o'clock, he died from the effects. The deceased was 60 years of age, and leaves a wife and two children to mourn his sudden demise. The sorrow-stricken family have the sympathy of a large number of friends in this their saddest bereavement.

THE GLORIOUS FOURTH

It Will be Celebrated Here by Parade and Flag Raising.

The Fourth of July is less than three weeks off, and it behooves the patriotic citizens to give every assistance for the proper celebration of the day. It is a purely American institution as well as a purely American invention, and the annual celebration of this holiday of holidays is dear to the American people. Let us lay aside the cares of business, and set aside this day, with the determination to make the coming celebration surpass any similar one in the history of this patriotic town.

The American Mechanics have received permission from the School Board to raise an American flag over the High school building on that day, and they have issued invitations to every society in town, as well as those of the adjoining counties, to participate in a grand street parade previous to the flag raising, the majority of whom have expressed their willingness to be present.

They have selected a brilliant orator to present the flag to the School Directors, which will be received by the President of the Board.

The services of the Grant Band have been engaged for the occasion, and an excellent choir has also kindly consented to sing several selections during the ceremonies.

The railroad companies have decided to offer special rates for the day, and the indications point to a large crowd of visitors present. Let our citizens give them a royal welcome, and it is none too soon to prepare for the day. Be sure to decorate, not "with paint," but with flags and bunting. Be sure to have "Old Glory" everywhere, with forty-two stars on him.
