## DID YOU EVER!

Think what it cost to manufacture Baking Powder? Did you ever think how baking pow-der is sold? Did you ever think there must be a large profit in it somewhere? The manufac-urer of a certain baking powder pay outnearly a million dollars or more a year advertising their powder, trying to make people believe it is the best make. Their baking powder is sold at 560 per pound. The retailer makes his profit, the jobber makes his profit, the manufacturer makes his profit, and the consumer pays for all these and the newspaper advertising also. What does it cost to manufacture the powder? Other manufacturers give away 25 or 30 cents

Other manufacturers give away 25 or 30 cent worth of china, glassware, toys, hardware, four times. books, etc., with every pound of baking pow-

der. Again the query, what does it cost to manufacture the powder-can you think it out manuacture the powear-can you think it out! You don't need to. Girvin, Duncan & Waid-ley have a few words on the baking powder question. Until September 1 we will sell Penn-sylvania Baking Powder at TEN CENTS per pound. It doesn't concern you whether we make or lose on 11-we want to get it intro-duced. On and after September het our price will not exceed ibe per pound. We are not going to pay a million dollars to advertise it:

NOTES TAKEN BY A TOWNSMAN

He Presents His Views of the West for the Herald's Many Readers-Other Local Happenings.

Until recently we were under the impression that Wanamaker's monster store in Philadelphia took the lead in the United States, but a visit to one of the Chicago establishments has convinced me of my mistake. Wanamaker is not "in The Chicago store embraces many lines of business not covered by the Philadelphia wonder and you need not go out-Kaier's brewery to the P. & R. embankside its walls for anything from a pin to a ton of coal.

There are hundreds of places in the 'windy city'' where people may enjoy themselves and enjoyment may be had on every day of the year, and yet the supply would not be exhausted. A visit to the parks, alone, is worth a visit to the city. They are large, attractive and very prettily laid out. Street and steam roads carry the people to see these places every few minutes for a nominal sum. On Sun days these popular health-giving resorts are crowded by the poor of the city. It is the only day on which they can enjoy the

lake breeze and pure air. I have said considerable about big buildings heretofore, but one cannot tire of the subject. It seems as if the Chicago people try to excel all others in the world in that respect, and they have succeeded in many

#### Open Air Concert.

The Grant Band, in spite of the thunder and lightning and threatened heavy rain storm, last night gave a grand open air concert at the corner of Main and Oak streets, the players being seated on the band's own unique portable stand. The selections played were the choicest of the band's portfolio and were rendered in splendid style. The stand was surrounded by throngs during the entire concert and upon its conclusion Prof. Zeitz and the players were warmly congratulated. The concert was certainly one of the best the band has given and a repetition in the near future is hoped for.

### Graduated With Honors.

Miss Minnie Wanamaker, the accomplished daughter of Conductor Wanamaker, of the Lehigh Valley road, yesterday graduated from the musical department of Dickenson's Seminary, Williamsport, with the highest honors of her class. Miss Wanamaker was the recipient of many handsome presents. Her home is at Delano, and she takes pride in exhibiting her valuable premium, a guitar valued at \$30, to her many friends.
