Judge Cullen was dis-pleased with the report and ordered the jury to further investigate the lynching next Tuesday. The report was a great aurprise.

FACED SAVAGES AGAIN Stanley's Hard Time at the

North Lambeth Meeting.

Interrupted With Rude and Filthy Remarks-Mrs. Stanley in Tears at the Scene-Her Burst of Indignation Somewhat Shamed the Crowd.

LONDON, June 25. - The failure of Henry M. Stanley's first effort to capture the suffrages of the coater-moogers in North Lambeth remains the talk of the city. From the beginning to the end of the indoor evening meeting which he proposed to address, confusion was supreme. The rough-and-ready element, which is strong in the North Lambeth neighborhood, had complete control of the meeting, and despite the presence of Mrs. Stanley, did not hesitate to insult and abuse the speaker.

Mr. Stanley's appearance on the platform was the signal for shuffling and suppressed groaning at the rear of the Batteries-Viau and Grim; Luby and Kit- hall. When he was introduced there was a roar of laughter mingled with STANDING OF THE CLUBS FRIDAT, yells. For the first ten minutes he was able to make himself heard, although he was interrupted constantly with coarse and sometimes filthy remarks.

For a short time Mr. Stanley maintained his complacency under the fire of adverse comment; then he became em-

haverse comment, then he occane em-barrarsed and showed symptoms of los-ing his temper. The disturbance in-creased with Mr. Stanley's confusion, and nothing could be heard except the

hooting and taunting. Mr. Stanley stopped speaking and glared fiercely at the mob. Mrs. Stanley burst into tears, twice rose to her feet and then sank into her seat. Her evident distress evidently had consider-able effect upon the shouters, and they began to calm down. Before Mr. Stanley could resume his speech, she sprang to her feet and cried:

"When all of you and I are dead and forgotten, the name of Stanley will live, revered and loved."

Her words were followed by a burst of lnughter and cries of shame. The po-lice ejected four men, and constables were stationed around the hall. When order was partly restored Mr. Stanley resumed his address. Despite further interruptions, he said apparently all he had come to say. The vote of confidence was barely carried, and the meeting closed in an uproar.

CHRISTIANS ATTACKED IN CHINA.

The Emperor's Proclamation Torn Down from Before the Mission.

SAN FRANCISCO, June 25 .- The steamship China from Hong Kong brings news that there was every appearance of another outbreak against the missionaries when the steamship left. It was chiefly due to the energy and courageous efforts of the native teachers that the missionaries and women of the Zenana Mission at Chin Gho escaped murdering, and to the personal intervention of the same men that Dr. Rigg of Cinning was saved from drowning in

a vatof manure. Even more clearly that in provious riots it was demonstrated that the mandarins took no steps to prevent the storms which had been gathering for some time, and that the literati were active instigators of the outbreak. A significant fact was that one of the first acts of the mob was to tear down the preclamation of the Emperor prohibiting all attacks upon foreigners and which was hanging in front of the Chin Gho Mission.

THE COLUMBUS COIN. It Will Be Made From Old Silver Dollars Instead of Bullion.

PRILADELPHIA, June 25. - Director Leech of the United States Mins says there is much work shead. "Before I left Washington" said Mr. Leech, "I saw the draft of the bill which authorizes the coinage of the half doilar which is to be in the nature of a souvenir coin of the Columbia Exposition in 1893. A design for the coin is now with the engraver and a proof piece will soon be struck. It is the intention to pay the appropriation to the managers of the fair in this colu."

The coin will be of silver and will be coined from old silver dollars instead of bullion. The design as now thought of will be on one side the administration building at Chicago, fronting the lake, and on the other aide will be the head of Columbus, being taken from Ricou's portrait of the discoverer, now hanging in the Queen's library at Madrid.

The annual settlement at the mint will be made next week, at which time the customary jingle of the coin in the various processes of money making which pedestrians are accustomed to hear will not be heard, as the work is all "shut down."

In the melters and refiners' department all is now ready for the set-tlement, but in the coiners' department an extra order for small coin will neces-situte the keeping of the presses running for a few days. Supt. Bosbyshell hus arranged for the majority of the employes to take their regular summer holiday at this time, and operations will be again in full swing on July 15.

THE BANK WILL SUSPEND.

Cashier Dann's Defaication So Great that the Institution Must Go Ender.

BUFFALO, June 25 .- It is now certain that the National Savings Bank from which Cashier Dann has peculated, it is believed over \$100,000, will go under. It is honeycombed through and through. There may be enough saved from the wreck to pay the depositors, but business men are figuring on a basis of about 75 cents on the dollar to be paid depositors.

"I have just been over to the bank," said a depositor. "My two pass books show a credit of \$8,000 each that I deposited, besides interest, but they tell me that on their ledgers I am only cred-Ited for \$40."

Dann was appointed executor of the will of his mother, the late Julia G. Dann, May 14, 1891. Under the law he is required to file an annual report, which should have been filed some time during the month of May but no such report has been filed. The estate was valued at over \$50,000, and no bonds were required or furnished by the exesutor. There is a very large number of cash bequests made by the will, and un-til the executor's report has been filed it will not be known whether they have paid or not. Chief Examiner Judson says: "I

haven't made a total of the last short-ages found, but they add materially to the previous totals. We have been ex-smining the mortgages and find that they are all right," he added; "at least the accounts agree with the books. We cannot tell absolutely about them until the people come in."

WASBINGTON, June 25 .- The vacant premiership in President Harrison's cabinet, caused by the resignation of Mr. Blaine, must be filled by July 4. that being the last day when an ap pointment can legally be made. Sev eral prominent Republicans have been mentioned in this connection, among them being Mr. Depew, Charles Emory Smith and William Walter Phelps.

It is stated, however, that the Act ing Secretary of State, Mr. Wharton, will probably be appointed until next March. The general belief here is that the office was tendered to Mr. Depew, and declined by him after consultation with the Vanderbilts,

Glove Fights Will Continue in Louisiana.

New OBLEANS, June 25.—The bill to prohibit glove fights in Louisiana, which would have prevented the Sullivan-Corbett match in September, will in all probability be defeated. The report of this com-mistee will probably be brought in in a few days and the matter indefinitely postponed.
