**THE HARRISBURG WRECK.**

Young Hayes, the Blundering Operator, Nearly Injures—Another Death.  
HARRISBURG, Pa., June 27.—H. S. Hayes, the young operator at the Steelton tower, who is supposed to have been the responsible party for the disastrous wreck which took place in this city early Saturday morning spent very restless night in dreadful suspense, lying on his cot and sobbing bitterly.

Yesterday his father, accompanied by John A. Shartzler, the young man's uncle, went to see the prisoner. At the sight of his father he broke down, and it required the aid of opiates and the whole forenoon to quiet his nerves. Several physicians say that he is liable to become insane if confined much longer. Representative Tinksbury of Columbia county offered bond for his release, which was refused.

Several members of the coroner's jury state that many new points will be brought out at the hearing to-day which may change the situation. The points to be tested are the unusual high speed of the second section, being claimed that 15 minutes were made up on about 38 miles; the duty of the brakeman who went to flag the second section, and whether he should not have remained until the second section arrived; whether a freight train had any business on a passenger track when there is a freight track, and the employing of such an inexperienced operator.

The jury held an inquest over the remains of Fred Coleburg of Brooklyn, who died late yesterday afternoon from ugly cuts about the head. His wife arrived early in the morning but her husband was unconscious and could not speak.

Hayes in his testimony before the coroner said he was an extra operator and worked for the first time at the Steelton tower Friday night, although he had been in the employ of the company for over a year. He used his good judgment he said and allowed the second section to pass through because he knew the other train had plenty of time to get out of the block. Before the second section arrived he tried several times to get the Dook street tower, but the wire was open and he could not get them.

Hayes is a young man 23 years of age and a resident of Newberrytown, York county, where his parents reside. He was brought up on a farm and always used to hard work. Several years since he received the aid of a relative and obtained an education. His mother is in a feeble condition, and fears are entertained that he and his mother may lose their reason through this mishap.

The injured in the hospital are doing as well as could be expected under the circumstances. Several have been taken home by friends, and others have left alone.

The following is a corrected list of the identified dead:  
ADAMS, RICHARD, Harrisburg; furniture dealer.  
GINGERICH, KATE, Norristown, Pa.  
HEBNER, MRS. URIAH, Norristown, Pa.  
MASON, DANIEL, Hagerstown, Md.; telegraph operator.  
POMARINE, REV. DR. DE COSTRA, No. 3611 Hamilton street, Philadelphia.  
RAYMOND, JOHN, Harrisburg.  
WHITLOCK, E. M., No. 133 Arlington street, Cleveland.  
RAYMOND, ROBERT C., Columbus, O., horse dealer.  
BLACK, JOHN, Altoona.  
LEE, CHARLES E., No. 1 Windsor street, Allegheny.  
BLAIR, MISS LIZZIE, Philadelphia.  
NORSTROM, MRS.  
NORSTROM, CHARLES, aged seventeen.  
HERTA, PROF., Baltimore.  
COLEBURG, FRED., Brooklyn.

**SAYS SCHLIPP IS INNOCENT.**  
Important Testimony Expected in the Anderson Murder Case.  
NEW BRUNSWICK, N. J., June 27.—Counsel for Harry Schlipp, confined in jail here, charged with the murder of Herty Mary Anderson, at Perth Amboy, whose dead body was found alongside the railroad track at that place recently, says that his client is innocent and that he can produce the guilty party.

He says that a highly respectable citizen witnessed the crime, and that because he feared for his life he did not make the matter known.  
Protection he is willing to testify and tell all he knows.  
The lawyer says that the murderer can be easily reached and the strongest kind of evidence will be produced against him. He refuses to divulge the man's name.

**WILL WORK IN EARNEST**

The Johnson-Dixon Fight, Both Men in Readiness for the Featherweight Hill To-night.

Brooklyn, N. Y., June 27.—The battle between Fred Johnston and George Dixon will take place in the Coney Island Athletic Club rooms this evening. The fight bids fair to be the best that the club has yet had. It will be for a \$5,000 purse and the featherweight championship of the world.

The men are of a far higher calibre than any of those that have competed for the purses offered by the seaside organization. Hitherto the club's managers have been unfortunate in their selections. The fights that looked most promising on paper proved to be poor, uneven matches. There has really not been a good or well contested fight in the building as yet. It is safe to predict that this will be a battle for blood. The men are the admitted champions of their class. They have trained hard and faithfully for the battle, and both are in the best possible condition.

There were many who doubted Johnston's ability to get down to the stipulated weight, 118 pounds. By persistent and regular work, long walks and gymnastic exercise he got down to 117 pounds. He will remain about this weight until he weighs in.  
He says that he feels better and stronger than ever he did in his life before. His looks don't belie his words.  
Dixon has trained from his home in Boston. He has taken a spin out to the reservoir every day to develop his wind and toughen his muscles. He trains differently to most pugilists, and having had but a little over two pounds of superfluous flesh to get rid of he has taken matters rather easily. He doesn't change his ordinary diet, and but for his long walks one would never imagine that he was in training. He looks hearty and strong, and says that he is feeling as well as he ever did in his life.

**REPUBLICAN NATIONAL COMMITTEE.**

Meeting for Organization To-Day—The Contest for Chairman.  
WASHINGTON, June 27.—Nearly all the members of the National Republican Committee, which is called to meet for organization in this city to-day, are on the ground, and a lively contest is being waged over the chairmanship. After the nomination had been made at Minneapolis, it was suggested the committee should organize by the selection of Mr. Clarkson as chairman and the appointment of an executive committee, to have immediate care of the campaign, under another head.

This was a suggestion merely, however, and it was thought that the members of the committee would meet at Washington and, after conferring with representatives of the President, effect an organization that would be satisfactory all around.  
In the interim, since the adjournment of the convention, statements have been published as coming from Mr. Clarkson to the effect that he did not desire to serve as chairman, but these reports apparently were without authority from him, for last evening it was announced that Mr. Clarkson had stated that if they desired him to serve as chairman of the committee and they elected him, he would accept the position.  
The selection of Mr. Clarkson as chairman of the committee, however, will be opposed by the friends of the administration. But who will oppose him has not been definitely determined upon, the probabilities being that George V. Mason of Delaware, who recommended the nomination of President Harrison at Minneapolis, will be selected.

**THE FIREMAN KILLED.**

Wreck on the Pennsylvania Near Valparaiso, Ind.—Many Hurt.  
VALPARAISO, Ind., June 27.—The Keystone express on the Pennsylvania Railroad was wrecked one mile west of this city shortly after noon yesterday. The fireman, Charles Miller, was killed, and the engineer and several passengers severely hurt, some of whom may die from their injuries.

The train was due at the station in this city at 12:00 and was running on schedule time about 40 miles an hour when the engine struck the outer switch of the Valparaiso yard. The bolts of guard rail of the switch broke, the track spread and the engine dropped to the ties. It ran on the ties for 30 feet and then plunged down an embankment. The mail, baggage and four passenger cars followed, three remaining on the track. The engine and the baggage and mail cars were demolished. The other three cars were considerably damaged. The fireman, Charles Miller, was killed while jumping from the engine, the mail car burying him beneath its ruins. Engineer Reilly was pulled from beneath the wreck.

The Cloudburst in Iowa.  
MASON CITY, Ia., June 27.—Complete reports of the cloudburst that laid waste Chickasaw county are now received. Fredericksburg two persons were killed and a dozen injured, some fatally. At Summer five persons were killed outright. The destruction to property and growing crops will exceed \$300,000. The homes of 28 farmers are completely destroyed and as many more are partially wrecked. Throughout the path of the storm the destruction of crops is complete. The first train on the Milwaukee road came through yesterday. Many of the farmers are insured, and the balance have decided to ask for assistance.

Took Too Much Electricity.  
NEW YORK, June 27.—Dr. Dana has reported to the Bureau of Vital Statistics that Arthur J. Yea died Saturday, of nervous prostration. Investigation showed that the disease had been brought about in a singular manner. The deceased was a practical electrician by profession and was in the habit of testing the wires by applying them to the tongue. After a thorough examination of the man's nervous system Dr. Dana came to the conclusion that death was caused by too much electricity taken internally.

Beaclet to Have a Speedy Trial.  
READING, Pa., June 27.—Buccieri, the Italian, who murdered Sister Hildeberta, will be brought to a speedy trial. He betrays no emotion, and has expressed a desire that he be tried as soon as possible. The deceased was twenty-nine years years old, and after a course in a school for the blind at Washington she entered a convent in Philadelphia, from which she was transferred to St. Joseph's Hospital.

Italian Laborers on the Verge of Riot.  
Reading, June 27.—A riot is imminent in the vicinity of Mohonville, five miles south of this city. The Italian laborers on the line of the proposed Reading, Lancaster & Baltimore Railroad have not been paid and the most of them stopped working. Those who continued at work have been threatened by the idle men and an outbreak is liable to occur at any moment.

Stabbed in a Drunken Row.  
NEWBRUNN, N. Y., June 27.—Anton Gross yesterday stabbed and killed Philip Fosselmyer at New Windsor. The former gave himself up to the police. He claimed to have stabbed in self-defense. Both men were brickyarders and had been drinking heavily.

**OFF FOR ARCTIC LANDS**

The Peary Relief Expedition Starts To-Day.

A HARDY BAND OF VOYAGERS.  
It is Expected that the Lieutenant and His Wife Will Be Found Near McCormack's Bay About July 25—How the Trip Will Be Made.

Brooklyn, N. Y., June 27.—The Peary Relief Expedition will start on its journey this afternoon from the Red Cross line dock in this city on the steamship Miranda, which will bring the members as far as St. John, N. F. There the scientists forming the expedition will take the whaler Kite to Greenland, and the work of exploration will fairly begin.

On board the Miranda will be a supply of stores and at St. John the travelers will procure such other necessities as may be lacking. The company includes Prof. Angelo Heilprin, of the Academy of Natural Sciences, Philadelphia, who accompanied Lieut. Peary on his expedition well into Greenland, and besides him there will be Henry G. Bryant, of Philadelphia, in command; Dr. Jackson M. Miles, of New York, surgeon; William E. Meahan, of Philadelphia, botanist; G. E. Hill, of Burlington, N. J., taxidermist; F. W. Stokes, of Philadelphia, artist; Albert W. Morse and Samuel J. Eldriden.  
Capt. Richard Pike, of the steamship Kite, participated in the Greeley expedition of 1881, and his knowledge, with the experience of Prof. Heilprin, is calculated on to find at an early day the trail of the Peary band. The explorers have from the governments exercising jurisdiction in Greenland all the necessary papers to expedite travel and facilitate them in securing aid and supplies. After leaving St. John, the Kite, which by the way, carried Lieut. Peary and his associates up to the Arctic fastness—will sail direct to Greenland, following the coast to Goodhaven. Here interpreters, sled-teams and dogs will be obtained and the journey taken up to Upernavik, the most northern town in Greenland. Capt. Pike hopes to make Cape York by the latter end of July and there his passengers will enter the unknown fields of ice.

It is believed among scientists that Lieut. Peary had intended to make efforts to get nearer to the North Pole than any of his predecessors, but announced he was going to make explorations in the interior of Greenland, so that if he returned without having accomplished his real object he could still claim he had succeeded in the other. The scientists going to the north to relieve him expect that he will return to McCormack's Bay about July 25. There they expect to pick up Mrs. Peary and two others, but their plans in the event of disappointment have not been formulated.

The Peary Relief Expedition will search the cairns along the route and make diligent inquiries among the Eskimauts for information concerning Lieut. Peary and his party. The members of the relief expedition feel confident, however, that they will be able to connect with the hardy explorers, and that they will arrive in time to make the trip homeward less miserable than it otherwise might be.

CAUGHT IN DENVER.  
Express Robber Ryan Arrested While Stepping from a Train.  
DENVER, Col., June 27.—E. J. Ryan, wanted in Washington, D. C., where he robbed the United States Express Company of \$40,000 last Tuesday night, is under arrest in this city. He was arrested by Chief of Detectives Sam Howe just as he stepped from the Rio Grande train. When arrested he had on his person \$3,250, and he stated that \$41,000 is on deposit in Pittsburgh.

After committing the crime he went to Pittsburg, where he placed the \$41,000 in a safe deposit and trust company's vaults, 505 Fourth avenue. The next board of him was at Kansas City, where he boarded the Missouri Pacific train for Denver.  
His peculiar actions attracted the attention of the Pullman conductor. Once when he opened his valise the conductor noticed large rolls of currency with the express company's wrappers. At Pueblo Ryan got off the train and failed to get on as they left. His traveling cap and grip were left in the seat. The conductor took the grip and cap to Denver and went to Detective Howe's office and told his story. The detective at once recognized the man and watched all trains from Pueblo until Ryan made his appearance. At police headquarters he admitted his guilt and told where all the money might be found.

New York Republican State League.  
ROCHESTER, N. Y., June 27.—Tomorrow the Republican State League will begin its fifth annual convention in Washington, D. C. Over 500 clubs are affiliated with the League, and each is entitled to be represented in the convention by three delegates and three alternates. Extensive preparations for entertaining the delegates and for facilitating the work of the convention have been made by the executive committee of the Monroe County League of Republican Clubs.

Belief for Flood Sufferers.  
NEW ORLEANS, June 27.—In accordance with a resolution recently adopted by the legislature a relief boat will start this week to relieve the sufferers in the overflowed districts. A number of parishes have already requested relief. The condition of the people in the parishes asking relief is reported to be most wretched. The boat will take from the overflowed districts, wherever possible, the farm hands, and transfer them to higher grounds.

Mr. Sala's Rough Experience.  
LONDON, June 27.—George Augustus Sala, the well-known journalist, and his wife yesterday attended the meeting of a new labor organization, called the Domestic Servants' Union, in Hyde Park. Sala, who had attacked the Union in his paper, was recognized and pelted with stones and dirt. The police rescued him and Mrs. Sala from the crowd that was pulling and hauling them about, but not until Mrs. Sala's clothing was badly torn.
