4TH LEGISLATIVE DISTRICT, GEORGE W. KENNEDY.

SAMUEL A. LOSCH.

SAMUEL S. COOPER.

COLONEL W. P. TOMLINSON, for ten years editor of the Kansas Democrat, has announced his withdrawal from the paper, giving as his reason the efforts of the Democratic party to fuse with the People's party.

SIoux FALLS, S. D., is considering a novel proposition—at least in this country, though it has been tried with great success in Sweden. It is to take charge of the whole saloon business, and establish in the city a number of liquor dispensaries, as post offices are established by the United States.

A HANDSOME TRIBUTE. The literature of American politics does not elsewhere contain a more impressive tribute than that paid to his co-laborers in the campaign of 1888 by retiring Chairman James S. Clarkson.

I have known many men—I have a large friendship in the United States—and I want to say to you, gentlemen, that upon my dying bed before my family I could not name two men more to be loved and honored than Senator Quay and General Dudley.

Those who have hounded these men because they were successful and those who have been deluded by the false hue and cry may well give pause to this defence from a man who knows what he is talking of and speaks at a time when policy might easily have dictated silence.

DISSATISFIED DEMOCRATS.

Letters accumulate on our hands from Democrats who are dissatisfied with the ticket made at Chicago. They come, as a rule, carrying the writer's signature, and containing internal evidence of deep and sincere concern for the future of the Democracy.

For example: Mr. Francis Lee, of this town, writes: "It requires no prophet to foretell the defeat of Grover Cleveland at the next election. Not even the grim spectre of the Force bill can save him."

These specimen extracts will serve our purpose as well as a hundred. They show that in the Democracy at the present time all is not hurrah, band music, fireworks, and flag flinging.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds.

Lans's Family Medicine Moves the bowels each day. Most people need to use it.

A Vermont Village in Danger. ISLAND POND, Vt., July 1.—The recent heavy rains have caused such high water in Echo Pond that grave fears are entertained that the dam will give way under the great pressure.

FOR STEALING BOOKS. LONDON, July 1.—A police magistrate has sentenced William Abbit, B. A., of Downing College, Cambridge University, who recently took high honors in mathematics, to eight months' imprisonment for stealing books from the University library.

A New Shortening. If you have a sewing machine, a clothes wringer or a carpet sweeper (all new inventions of modern times), it's proof that you can see the usefulness of new things.

Cottolene IS A NEW SHORTENING, and every housekeeper who is interested in the health and comfort of her family should give it a trial. It's a vegetable product and far superior to anything else for shortening and frying purposes.

M. S. KISTLER, M. D., PHYSICIAN AND SURGEON. Office—120 N. Jardin street, Shenandoah, Pa.

IN THE WORLD OF LABOR

Every Department of the Homestead Mills Idle.

ALL THE WORKMEN DISCHARGED.

Employees of the Bay View, Wis., Mills Leave For an Indefinite Period—Machining Valley Works Close—Glass Factories Shut Down in Bellaire.

PHILADELPHIA, July 1.—Every department of the immense Carnegie steel works at Homestead have been shut down, and about 8,800 men have been thrown out of employment.

The men had declared positively that they would strike at the date of the expiration of the yearly contract. This term of expiration was to occur at 6 o'clock a. m. at midnight the firm forestalled the men and flatly declared a shut-down.

Over one hundred Pinkerton men armed with Winchester rifles have gone to the seat of the trouble.

The preparations made by the owners show that they are going to make a vigorous fight.

Bloodshed is expected by many, and the opinion is universal that things have reached such a stage that settlement or compromise on either side is an impossibility.

The mill workers protest that they are fighting for principle, and the company protests that it is fighting to preserve rights as sacred as those of the men.

The members of the Amalgamated Association contend that it is really a strike on the part of the workmen for higher wages, and that they can hold out for three years, if necessary, and that there will not be a hungry man, woman or child during the time.

At 10 o'clock 3,000 workmen assembled in open meeting at the Opera House and thoroughly canvassed the situation.

Another resolution was unanimously adopted that the day mechanics and day laborers shall be called out to-day. Committees were appointed to watch all trains and entrances to the town to prevent the importation of outside workmen.

Twenty of the Amalgamated Association men were sworn in as special officers by the Burgess and will aid in preserving order. The locked out men anticipate the arrival of Pinkerton men and are prepared to welcome them.

Eight effigies of proprietors and officials ornamented as many telegraph poles in the vicinity of the mills. At noon good order prevailed throughout the town and the locked out workmen were assembled in groups quietly discussing the subject.

ALL HANDS QUIT WORK.

EMPLOYEES OF THE BAY VIEW MILLS LEAVE FOR AN INDEFINITE PERIOD.

MILWAUKEE, Wis., July 1.—Promptly at 12 o'clock last night the workmen at the Bay View Mills dropped whatever work they had on hand and left the place for an indefinite period.

The company desired to run a few days after the last of the month in order to complete several jobs, but the executive committee at Pittsburg refused to allow the men here to work a minute over time unless the company signed the scale.

It is admitted here by both sides that the future condition of affairs at Bay View will be largely governed by the result of the conference at Youngstown between the Amalgamated Association's Executive Committee and the Manufacturers' Association in the Mahoning and Chenango Valley districts.

MAHONING VALLEY MILLS CLOSE. YOUNGSTOWN, O., July 1.—The scale presented by the Amalgamated Iron and Steel Workers is still unsigned by the manufacturers, who declare that they will have nothing to do with it.

GLASS FACTORIES SHUT DOWN. BELLAIRE, O., July 1.—All the glass factories at this place have been permanently shut down, the manufacturers claiming that they could not compete with those located in the natural gas towns.

HELD FOR BIGAMY. Mrs. Gardner-D'Auteville's Case Goes to the Grand Jury.

LON GLELAND CRY, N. Y., July 1.—Mrs. Emma Gardner-D'Auteville, of Astoria, who is accused of having a plurality of husbands, was held for the grand jury by Justice Manley.

Motion for a New Trial. BOSTON, July 1.—Argument has been begun on a motion for a new trial in the case of Rev. W. W. Downs versus several members of the Bowdoin Square Baptist Church.

Shot from Ambush. WILKESBARRE, Pa., July 1.—Michael Supka, a Polisher, while picking cherries upon the farm of Henry Gommer at Nanticoke, was shot dead from ambush.

Again Rejected. BOSTON, July 1.—At a meeting of the Governor's Council the nomination of the Hon. Irving B. Sayles, sent in by the Governor a second time as Bank Commissioner in place of Warren E. Locke, was again rejected.
