BILLION DOLLAR CONGRESS.

The comparison of appropriations of this session of Congress with those of the first session of the last Congress, made in the House on Thursday by Mr. Holman, and which called forth a statement in rebuttal for the Republicans from Mr. Henderson, of Iowa, shows that the total appropriations, regular and permanent, for the present session, are \$485,887,777, while those of the first session of the last Congress were \$541,280,074. Deducting from these amounts the regular and deficiency pension appropriations, the appropriations for the first session of the last Congress exceeded the appropriations for this session by \$83,294,010. The statement shows that the Fifty-first Congress, at its first session, appropriated \$31,541,954 for the navy, while this Congress has so far appropriated \$23,476,773. The deficiencies appropriated for this Congress amount to \$14,441,121, as compared with \$38,699,746 appropriated for by the first session of the last Congress. Mr. Holman estimates that the amount of revenues for the next fiscal year will be \$456,330,350.

Mr. Henderson, in his statement, shows that the regular and permanent annual appropriations provided for by the House in the first session of the Fifty-first Congress aggregated only \$443,322,577, while in the present session of the House there has been appropriated \$484,887,777, making the appropriations for the House for this session exceed those of the House for the first session of the Fifty-first Congress by \$42,465,111. He makes a separate statement concerning pensions, which shows that the House in its present session has appropriated for this purpose \$142,469,398, as against \$104,550,383 appropriated in the first session of the last Congress, making the total appropriations for this session to exceed those of the corresponding session of the last Congress by \$22,050,990.

MR. A. E. STEVENSON, of Bloomington, Ill., who was selected as Mr. Cleveland's running mate, lives in the memory of the people as the most untiring worker of the official guillotine in American history. He was First Assistant Postmaster-General under Cleveland, and is charged with about 60,000 official decapitations during the four years that he held the fate of the postmasters of the country in his hands. A very large proportion of the dismissed officials were veterans or the widows of veterans. There would have been less complaint if he had replaced these with Democratic veterans—enough of whom could have been found to have succeeded their Republican comrades. But Mr.

Stevenson never overflowed with affection for those who wore the blue, and an honorable discharge from the Union army did not have much weight with him in deciding an application for a postmastership. A letter from some ward or township boss as to the applicant's efficiency "among the boys" counted for a great deal more, and now he gets his reward.

THE N. Y. Sun says some of our contemporaries have tumbled into the error of supposing that the new electoral law will make it easier for the Democracy this year's fight in New York city. This confidence is misplaced. It arises evidently from ignorance of the terms and conditions of the new law, under which this year's presidential election in New York will be governed and directed. Far from assisting the Democracy, the new ballot law will operate to the benefit of the Republicans.

GEN. D. E. SICKLES warned the Democratic Convention before Mr. Cleveland's nomination, that he didn't know an ex-soldier in the state of New York who would vote for him. And no man knows more ex-soldiers than Gen. Sickles.

A Million Friends. A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at C. H. Hagenbuch's drug store. Large bottles 50c. and \$1.00.

Lane's Family Medicine Moves the bowels each day. Most people need to use it.

Flags and Bunting, Wholesale and retail, at Max Reese's, West Centre street. A nice line of silk flags. Also, a large lot of cheap fireworks for the wholesale trade, just received. Call early before all are gone. Cheap for cash.

\$200,000 FIRE. Three Men Die in a Conflagration at Woodland, Cal.

WOODLAND, Cal., July 2.—A fire in the business portion of the town caused a heavy loss and was attended by several fatalities.

W. M. Porter, superintendent of the Woodland Water Works, was killed by falling walls, and an unknown man was burned to death in the Jackson Block. George Tobias inhaled flames and is dead.

The fire broke out in a barn in an alley back of the main street. The blaze made rapid headway, and before anything could be done was devouring the Jackson Block.

The Exchange Block was next attacked by the flames, and owing to the scarcity of water burned rapidly. The block occupied by the Exchange Hotel and the Beamer Block were partly burned.

The losses aggregate fully \$200,000, on which there is insurance amounting to about half that sum.

Would you rather buy lamp-chimneys, one a week the year round, or one that lasts till some accident breaks it?

Common glass may break or not the minute you light your lamp; if not, the first draft may break it; if not, it may break from a mere whim.

Tough glass chimneys, Macbeth's "Pearl-top" or "Pearl-glass," almost never break from heat, not one in a hundred.

Where can you get it? and what does it cost?

Your dealer knows where and how much. It costs more than common glass; and may be, he thinks tough glass isn't good for his business.

IT WILL BE AN OPEN MILL

The Fight at the Homestead Works Developing.

TO BE A LIFE AND DEATH STRUGGLE

Latest Move of Carnegie's New \$25,000,000 Organization—Thirty Thousand Men Idle in Pittsburgh—Employees of the Homestead to Be Paid in Full.

PITTSBURGH, July 2.—Hereafter the Homestead Steel Works will be operated as a non-union works. We shall not recognize the Amalgamated Association of Iron and Steel Workers in our dealings with the men. The mill will be an open mill, where a 11 men may work regardless of their affiliation to a labor organization.

The foregoing plain statement leaves no doubt as to the company's intention regarding the fight at Homestead, and narrows the fight down to a life and death struggle, so far as the Amalgamated Association is concerned.

30,000 MEN IDLE. Effect of the Dispute Over Wages in Pittsburgh.

PITTSBURGH, July 2.—The only additional signatures received to the Amalgamated Association wage scale are those of the Scottsdale Pennsylvania Iron & Steel Company and the Covington, Ky., Steel Company.

There are beyond doubt more idle men in Pittsburgh and vicinity to-day than there has been at any one time for the past 15 years.

The employees of all the iron mills except the sheet mills are walking the streets, and the wheels of the great manufacturing concerns of Pittsburgh which were so busy are idle.

With the various iron and glass plants idle, the South Side presents an odd appearance. It is a complete shut down.

Every mill has suspended and there are 30,000 men idle in that part of Pittsburgh.

At nearly all of the iron mills in the district millwrights and mechanics are at work making necessary repairs, and at some, at least, the shut down is known to be temporary, as the manufacturers have assured their employees that work will be resumed as soon as repairs and stock-taking are completed.

WILL BE PAID IN FULL.

Four Thousand Men to Receive Their Money and a Discharge.

HOMESTEAD, Pa., July 2.—A notice has been posted at the entrance to the Homestead Company's office enjoining all employees, from the highest to the lowest, that they will be paid off in full.

About 4,000 men in all will receive their money and also notices of discharge.

Barring the fact that the crowd of workmen may be noisy no demonstration is anticipated.

A member of the Advisory Board of the locked-out men said to-day:

"Mr. Frick's statement that only 250 men were affected by the new scale is a mistake. Every man in the mill suffers by it, and we can prove it. The general reductions in all departments range from eight to ten per cent, and in some as high as 40 per cent."

While it cannot be exactly estimated yet, the loss to the Carnegie Company every day the mill is idle is very heavy and amounts to thousands of dollars.

In case the firm fails to recede from its present determined stand there will be great danger of being unable to fill the government and World's Fair contracts.

The company is under a \$500,000 bond for the completion of a large amount of armor plate, and unless the old men are taken back or new men secured there is a probability of the government demanding a forfeiture.

WILL EMPLOY 40,000 MEN.

The Carnegie Steel Company, Limited, Adds to Its Already Immense Plant.

PITTSBURGH, July 2.—The extensive operations in iron and steel formerly conducted under the firm names of Carnegie Brothers & Co., limited; Carnegie, Phipps & Co., limited; Allegheny Bessemer Steel Co., and the Keystone Bridge Company at the Edgar Thomson Steel Furnaces, the Edgar Thomson Steel Works, Duquesne Steel Works, Homestead Steel Works, Lucy Furnaces, Keystone Bridge Works, Upper Union Mills, Lower Union Mills, Beaver Falls Mills, Seloto Ore Mines, Larimer Coke Works and Youngbushy Coke Works will be carried on by the Carnegie Steel Company, limited.

The general offices of the new firm will be in this city, with branch offices in all the principal cities of the United States.

None of the details of the transaction will be made public by the firm at present, and they will wait until the trouble at their works is settled before filing the papers of record.

The capital stock will be \$25,000,000. The company will have in its employ upward of 40,000 men.

One Hundred and Fifty Quit Work.

ST. LOUIS, July 2.—As the result of a refusal to sign the scale adopted by the Amalgamated Association in session for a week past at Pittsburgh, Pa., the leaders, rollers and puddlers employed by the Helmbacher Forge & Rolling Mills Company, numbering 150, have quit work and the mills have been shut down.

Union Rolling Mill Closes.

CLEVELAND, July 2.—The Union Rolling Mill has closed, and it is impossible to tell when it will reopen. The mill usually shuts down for repairs during the summer, but the present suspension is due to the trouble between the manufacturers and the Amalgamated Association of Iron and Steel Workers.

Another Shut Down.

LANCASTER, Pa., July 2.—At midnight the Susquehanna and Columbus Iron Companies of Columbus shut down for an indefinite period. Fully 500 men are thrown out of work. It was stated that the shut down was for the purpose of making some repairs.

Prohibition Defeated.

AGOSTA, Ga., July 2.—Prohibition has been defeated here, by the adverse majority of over 1,400, being fully two to one.
