"I USED to think I was a good Democrat" is a statement one hears almost daily, "but this Free Trade platform is too much for me," For one hundred years the American people have been in favor of Protection, nor will they change in this year 1892.

IN 1854, during the revenue Tariff of 1846, there was a soup house in every ward of New York city ; thousands of laborers paraded the streets in search of work; the number of the kind of a Tariff that the Democratic party pronounces for to-day.

HUMAN LIFE AT HOMESTEAD. An exchange asks :

How about the men who have been filegally killed at Homestead? In other words, how about the men who have been murdered there?

TAKE MUCH AND GIVE LITTLE. While a Republican administration is considering measures to secure free mail delivery to the farmers, to prevent gambling in farm products, to protect those products which are pure

from suffering by competition with those which are adulterated, to promote silk, culture and by reciprocity to open new markets to our producers, the Democracy by this bill proposes to take out of the farmers' pockets 1.50

And what does the Democracy propose to give the farmers in return for

the \$27,000,000 which this bill is intended to take from them? Why, they have formulated a measure to put binding twine on the free list.

be to the farmer. The duty on bind-ing twine was reduced by the Mc-Kinley bill from 2 cents to sevenwheat.

Do you not think, Mr. Speaker, that the farmers of the country should have their hearts rejoiced, and cry 'great and good is the Democratic party," for proposing to take the great sum of 1 cent for each acre of wheat from the list of duties in return for the \$27,000,009 which they would take from the price of the farmer's

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was woubled with Neuralgia and Rheumatiand his Stomach was disordered, his Liver was affected to an alarming degree, appetits fell away, and he was terribly reduced in feah and strength. Three bottles of Eleotrie cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawbs, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by C. H. An Unfortunate People.

The lot of the Russian Jews is not a happy one. Most of the Hebrews who are expelled from the czar's empire travel through Germany on their way paupers was greater than it ever was to a refuge in the new world. Now, by before or has been since. And this is imperial decree just issued, they are prohibited from crossing the bounda-ries of Germany. A few of them were shot recently while attempting to cross the line. Some four hundred thousand of them are seeking to escape from Russian cruelties. Ejected by Russia and repelled by Germany, they know not where to turn.

Australian Trees.

One of the attractive features of the Australian exhibit at the fair will be tree ferns from Sidney, New South Wales. These have always been a poppears to have been entirely lost sight ular exhibit at London expositions. Chief Samuels has been assured by Arthur Renwick, commissioner for New tween the Sheriff of Allegheny county South Wales, that a number of rare specimens will be sent. The ferns vary in height from eight to fourteen feet. At the close of the exposition many of them will be given to the park commissioners of Chicago

His Family Greatly Shocked When They

count.

Mrs. Astor dined out last evening, and These facts are sufficient to indicate that Mr. Astor's condition is not regarded by his family as at all serious.

At 1 o'clock the correspondent of the "International Telegram Company" who called at the Lansdome Hotel to inquire as to the condition of Mr. William Walas to the condition of Mr. William Wal-dorf Astor, was informed by a member of from Guinea, and her experience of the the family that Mr. Astor was doing change from a colored to a white per-splendidly. An Aged African Who Gradually Changed om a Deep Black to a Deadly White—A Puzzle to the

Doctors.

For many years one of the most familiar and well-known figures on the streets of Westminster, Md., has been Abraham Ireland, familiarly known to both old and young as "Uncle Abram," a hard-working, industrious colored man, kind and genial in disposition and unobtrusive in manner, says a special from Westminster to the Baltimore Sun. Intil recently he enjoyed excellent walth. After a short illness of pneumonia, following an attack of the grip, he died the other morning at 7 o'clock, in the eighty-third year of his age. To the younger generation of Westminster he was probably not so great a curlosity as to the older ones, who remember him in his younger days as having a shiny, et black skin, with every indication of his pure African lineage, and his gradual change to a pure white has been a onstant source of speculation and curisity. The change was not a sudden one, but very gradual, and no change in his feelings or health was the least noticenble. He was born at "Soldiers' Delight," Baltimore county, Md., on Palm Sunday, 1869, of slave parents, and was the property of Nicholas Lowe, who sold him to Ames Lowe, with whom he moved to Finksburg, Carroll county When fifteen years old his master sold him to Mr. Andrew Powder, of Westminster, with whom he learned the tanner's trade and lived until he was fortyfive years old. He worked at his trade until 1870, but did not think the tan had any effect on his color, as other colored men worked in the same yard without any change of complexion. Both his parents were full-blooded

Africans, very black, as are all of his children, his son David, one of the most prominent colored men in the town, having a rich mahogany complexion. The first change noticeable in Abraham was a white spot which appeared on his check about thirty years ago, then on his forehead and one wrist, the white spots appearing on different parts of his body and gaining for him the title of "Leopard." The spots then increased rapidly, finally coming together, until his entire body was of a sickly white, aptly described by Huck Finn in Mark wain's famous book, as "fish-belly white." The change was complete and permanent, no fading from black to white nor shading of color, but pure, unmistakable white. His head is per-fectly bald, and of the same deadly white as the rest of his body. A few spots of color have appeared in recent years upon his face and these he attributes to sunburn, as his life has been spent principally out of doors. His body was whiter than his face or hands. There has never appeared to be any Heard the Unfounded Report, LONDON, July 18.—The erroneous re- sation, and the old man at last sucport in America of the death of cumbed to the hand of death, as so William Waldorf Astor, has caused many others have done in the last year, a great shock to Mr. Astor's family, from cold and the prevailing grip, his and they are sorely perplexed that such a bodily health in every way being still report should have been made. Heard the Unfounded Report,

This is a serious question which apof in the shuffling of authority beand the Governor of the state of Pennsylvania.

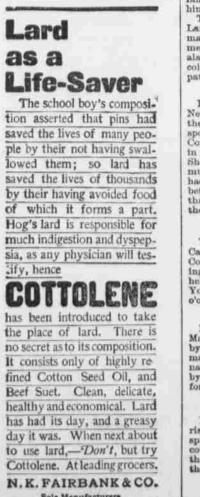

We are told that law, order and peace prevail in the unhappy town. We are assured that property there is safe; that the Carnegie mills have not been injured in any way.

The safety of property is a minor consideration in comparison with the sanctity of life. It is of record that a score of men have been killed at Homestead. They were killed, not in accordance with law, but in utter violation of it.

Who are the murderers? What steps have been taken to bring them to punishment? Has a coroner's inquest been held in the case of any one of them? Who is responsible for that awful harvest of death on the Monongahela river? Mr. Frick? If so, Mr. Frick should be behind prison bars at the present hour instead of in his sumptuous residence. The mill men? If they are responsible, they should be in the custody of the jaller instead of on the streets of Homestead nominally maintaining law and order.

A great violation of the fundamental law of the state of Pennsylvania has been perpetrated. The office or coroner is one of the oldest known to the civilization on which our government is based. What has the coroner been doing at Homestead ?

The community in which so many lives have been taken without an effort to bring the perpetrators to justice is not under the government of law as law is understood in this Republic. Who is responsible?

Lottis Collins Alive and Well.

LONDON, July 13 .- The report printed in New York of the death of Lottie Collins, the soubrette, is unfounded. A corre-spondent of the International Telegram Company called at Miss Collins's lodgings in Canonbary and saw the lady herself. She was well and chipper and expressed much surprise on hearing that her death had been reported. She said she was never better in her life, and laughingly added that this was a good chance to advertise the fact that she was going to America.
