## A NEWSY COLUMN FROM PETER'S PEN

AN ITEM ON THE CONDITION OF THE WEATHER.

### SUFFERING AMONG CHILDREN

Additional Orders to Brakemen and Conductors Under the Reading System—Harry Davenport's Venture.

HE sultry weather is beginning to make havoc. Reports of suffering children are coming in from all quarters of the town. There was yesterday suffering yesterday among adults. Even the sturdiest complained of the heat and couldn't see that life was very much worth living under such seething weather conditions. Among the older people, however, there was only one case reported in which serious results were feared. Agent T. J. Davies, of the depot, was overcome by the heat, but was all right again to-day.

The discovery has been made that on one side of the new quarter dollar there are thirteen separate representations of the number thirteen. An exchange says that a physician discovered the fact, and that it was probably the intention of the designer of the new silver piece to have thirteen occur thirteen times, but there are few people who have noticed this fact. There are 13 stars, 13 letters in the scroll head in the eagle's beak, 13 marginal feathers in each wing, 13 tail feathers, 13 parallel lines in the shield, 13 horizontal bars, 13 arrow heads in one foot, 13 leaves on the branch in the other foot, and 13 letters in the words "quarter dollar." Perhaps that superstition is the reason people prefer "halves to quarters."

The committee having charge of the arrangements for the 13th annual convention of the Firemen's Association of the State of Pennsylvania, to be held at Hazleton on September 20, 21, 22 and 23, has issued elegant invitations to the fire companies of the state. An interesting circular describing the advantages of Hazleton as a place for the convention and forecasting the hotel and other arrangements for the occasion has also been sent out. The Hazleton people evidently intend to give the "fire ladders" a good time.

The Reading system has issued another circular of instructions to its passenger conductors and brakemen. At all stations where a passenger train stops, the name of the station must be distinctly announced loudly, slowly and distinctly, after the train has come to a full stop, inside of each car, and if convenient inside each end of each car. Immediately after leaving the station in the following announcement must be made in each car and in each end of each car: "The next station will be—" (giving its name.) If the next station will be a signal station, announce, "the next station will be—stop on signal." If the train passes (without stopping) any signal station which has been announced, another announcement must then be made for the next station. At all stations where passengers are notified to move from one car to another, and at all stations where passengers are notified to change cars, and at all terminal stations, these words must be added as a part of the announcement, "do not overlook your baggage."

Henry Davenport, the proprietor of the notorious variety show known as the May Davenport female combination, is about to float an insurance scheme in the form of a 1 cent weekly paper, to be published simultaneously in Wilkes-Barre and Scranton. The holder of a copy of the current issue of the journal will be entitled to compensation for injury or a large amount in cash in case of death. When informed that the state authorities recently jumped on the Philadelphia *Inquirer* for a similar scheme, Mr. Davenport said that a little thing like that wouldn't interfere with his plans. He had figured out the cost in running the Wilkes-Barre Press, as he terms his new sheet, and has without doubt ascertained that there are "millions in it."

The trouble at Homestead seems to be the absorbing topic of conversation, especially among our laboring classes. You will find partisans on each side of the controversy, but the most radical advocate of either side is the man who is a labor advocate for revenue only, T. V. Powderly. He is at the head of the Knights of Labor, and is reported as saying that the struggle at Homestead "is but the rumbling of the coming revolution that is to decide whether Wall street shall or shall not control the country." This is wild, demagogical rubbish. Mr. Powderly does not believe it, and he is only talking for effect. Wall street never controlled this country, is not

controlling it now, and never will. The country is controlled by the votes of millions and millions of intelligent citizens, and a large proportion of those votes are cast by workmen.

Powderly's utterance is un-American. The workmen of this country want no revolution that is to be wrought out by dynamite, by the rifle and the torch. They have the best government ever given to man, and they know it. The organic law in which it rests provides for whatever reform may be deemed necessary, and it forms upon all attempts at violence. The General Master Workman—who does not work—might find some better way of earning his salary than by playing the parrot to Anarchist Most.

The worst anarchists—the really dangerous classes—in this country are not the Mosts who plot revolution while gulping down beer, but the editors who preach it from luxurious editorial rooms in order to gather in a Niagara of pennies over the counters in the free-coin publication offices. These men are the real enemies of society. If we may believe them, the whole Government is a fortune swindle. Every man who has made a fortune is a robber. Every manufacturer is a plunderer. Every capitalist is an outlaw. This doctrine is preached from one end of the year to the other, not that the writers believe it, but because it pays. They are anarchists, but for revenue only.

PETER.

### BEAR THIS IN MIND.

The Grand Band Will Open Pastime Park To-morrow.

Everybody who wishes a day of solid enjoyment will attend the grand opening picnic to be held at Pastime Park to-morrow under the auspices of the Grand Band of town. A grand concert by the band will signalize the event and the famous Schoppe orchestra of ten pieces will furnish music at the dancing pavilion. There will be no catch-penny enterprises at the park, all the contrivances for amusement of the old and young being of a perfectly legitimate order and calculated to give the most amusement at the lowest price. The ride to the park over the new section of the electric railway will itself more than repay the visitors. The mammoth carousel will whirl with old-time popularity and when the shades of night fall, instead of finding themselves in a dark or dimly lighted place, will be able to continue enjoying themselves beneath the rays of electric lights. It is the intention of the park management to make the place popular with all. Everything will be done to make the place a family resort. Such a place has been sorely needed in this valley since the abandonment of Columbia Park and it will be well patronized.

Bear in mind the Grand Band will open Pastime Park to-morrow by holding a grand musical festival and picnic.

### PERSONAL.

Miss Laura Britts spent to-day in St. Clair visiting friends.

David Faust and wife and O. C. Faust and wife left to-day to visit friends at Shamokin.

## EXCITEMENT ON EAST CENTRE STREET

A DEFECTIVE FLUE BADLY FRIGHTENS MRS. SHAPIRA.

### TENANTS COMPLAIN BITTERLY

Other Happenings Gleaned by Our Corps of Reporters—A Large Excursion to Lakeside To-day.

HE residents of East Centre street, near the Lehigh depot, were startled this morning by a woman's voice shouting a cry of "Fire!" At the same time clouds of thick, black smoke poured from a window of one of the rows of frame

buildings on the south side of Centre street, between White street and Plum alley, owned by John Robbins.

Neighbors hastened to the house and succeeded, with the aid of a few buckets of water, in subduing the cause of trouble. The fire companies were not called out.

The woman who gave the alarm was Mrs. S. Shapira. She awoke while experiencing a suffocating sensation. When she realized her position she jumped from her bed and alarmed the neighbors. Her room was filled with smoke and her friends say that she barely escaped suffocation.

It appears that when Mrs. Shapira's servant started a fire in the kitchen stove this morning the chimney would not carry off the smoke, which made its way into the rooms.

The tenants of the houses in the vicinity were very indignant this morning. They said that the chimney has been complained of repeatedly, but for some unknown reason it has not received the attention of the landlord.

Mrs. Shapira had an exciting experience with fire on the Fourth of July and it took but little smoke to alarm her to-day. The clothing of her young niece was lit on fire and in pulling the clothing from the child Mrs. Shapira had her hands burned.

### MAHANOY SCOOPED.

The Hustlers of Town Give Them a Drubbing.

There was a game of base ball at Mahanoy City yesterday between the club of that place and The Hustlers of town. The game was an interesting one, as the latter club was far too clever for its opponents. The visitors scored 12 runs and presented their opponents with a goose egg. Mahanoy didn't even make a hit, but The Hustlers made ten. The features of the game were the battery work of Higgins and Glover and the work of W. Scanlan, short stop. Holloper, Higgins and Brennan each made a two base hit. Higgins also made a three bagger.

### A Splendid Concert.

The Grand Band last night gave an open air concert at the corner of Main and Coal streets. The program was an excellent one and the selections were rendered with splendid effect. Prof. Zeltz, the leader, was in good spirits and as he will leave for Germany before the band will be able to give another concert on our streets he furnished the people with the treat. All the selections were of a standard character and the renditions declared that the concert was one of the finest they had ever heard. There is one consolation Prof. Zeltz will have when he takes his departure. He has made the Grand Band one of the finest musical organizations in the state, and of which our townsmen are proud.

### The Marching Club.

In response to a call for a meeting of Republican voters of town to organize a Harrison marching club for the fall campaign about twenty-five voters met in Robbins' opera house last night. Richard Ross was elected temporary chairman and Thomas Sanger temporary secretary. A meeting will be held at the same place next Thursday evening, at 7:30, to effect a permanent organization. Although the attendance at the meeting last night was light the club starts out with good prospects and will undoubtedly make itself prominent during the campaign. A number of people arrived at the place of meeting late. The membership roll already bears 46 names.

### Great Sacrifice Sale.

A great sale of boots and shoes, clothing, dry goods and notions will continue for the next ten (10) days at Self's original bargain store, 23 South Main street. This is a tonnage sale of an excellent stock of goods and people who patronize it will find excellent opportunities for bargains. Don't fail to seize this opportunity at once, as it will only last ten days. 7-15-2c

### A Great Stock.

Five thousand novels, the latest and best issued, selling at 25c each other places, for sale at Max Reese's for 10 cents. The finest playing cards in the market 5 cents per pack.

## HERE AND THERE.

Interesting Items Concerning Different Sections of the Region.

John J. Coyle, of Mahanoy City, the Republican candidate for the Legislature from that district, is only twenty-nine years of age. He was a resident of this county for four years, his parents living in Centuria from 1868 to 1872.—*Bloomsburg Republican*.

The Jeddo collieries are working four days a week with 12 hours each day. There is some talk of starting No. 1, Oakdale, on 15 hours each day. A superintendent of one of the collieries near Hazleton says that all the collieries in the region have granted the miners nearly four per cent of a raise on their wages for this month. At Stockton and Drifton notices have been posted to this effect.

John Datesman, postmaster at West Milton, Pa., has been notified by the postal authorities at Washington that he is the oldest postmaster in the United States. He was born in Northampton county, August 30, 1810. He was postmaster at Fennersville, now Sciota, Monroe county, in 1831. He was appointed to the same position in 1855 at West Milton and has held it continuously since.

Mahanoy City is now asking to have its wards divided before the next election. District Superintendent David, of St. Nicholas, now has the Draper colliery at Gilberton in his district.

### MILITARY TRAINING.

A New Movement in Organization by Boston Workmen.

The Boston Herald says that a secret organization of workmen called "Our Own Club" has been formed in that city for the purpose of giving Union workers military training.

The men who took the oath of allegiance state that this has come from the working people of this country must prepare to overthrow the Pinkertons, or any similar body of what they termed "hired assistants and mercenary desperadoes." It is the opinion of these men that the large capitalists of this country have concluded to destroy all labor organizations, in order that reductions of wages may be enforced without protest from the wage-earners.

It is claimed that the New England Granite Manufacturers' Association is in sympathy with Carnegie, Frick and Pinkerton, and that its members would take similar action to that at Homestead in the granite cutters' strike if they had the courage. It is asserted by the members of the club that the legislation enacted against the Pinkertons by this and other states is of no practical value to the Union workers.

The Pinkerton army, they maintain, can be placed in any state by capitalists, regardless of any laws. Sub-committees were appointed to organize branches of the society in every industrial centre of the Commonwealth and no man will be permitted to join unless he is a wage earner and can successfully answer certain pertinent questions.
