EXPIRATION OF THE TIME LIMIT.

The Surrender of O'Donnell and Ross and Their Incarceration Create No Excitement-They Will Probably He Released on Bail To-Day-Hungarians Who Are Occupying Company Houses to Be Evicted--Gov. Partison Will Remain in Homestead Several Days Longer.

HOMESTRAD, Pa., July 22, - It is quieter here now than at any time since the 6th inst. The arrests of Hugh O'Donnell and Hugh Ross create no excitement among the working people, and the absence of inflammatory talk shows a lethargy that marks the beginning of the end, The leaders say that the rest of the battle must be fought in the courts.

Messrs. Weihe and Brennan, president and legal adviser respectively of the Amalgamated Association, were closeted with Governor Pattison for an hour in the afternoon. Governor Pattison refused to disclose the nature of the conference, and Messrs. Weibe and Brennan were equally reticent. Mr. Brennan said, however, that the object of the visit had seemingly been accomplished, and that if it has been successful the present trouble would be brought to an immediate conclusion.

Last night the limit of time fixed by the Carnegie Steel Company in which their old men might return to their old aces in the Homestead mills expired. Up to the very last the officers of the company predicted that there would be a stampede, but it did not come. When the works shut down for the night it was authoritatively stated that only seven of the

thoritatively stated that only seven of the old men had come inside the fence.

The statement made by Gov. Pattison to a reporter directly after the conference, that he did not know how much longer he would remain in Homestead, would seem to indicate that he does not take a peaceful view of the situation, and will not leave until matters have assumed a more definite phase. The militiamen have received rations for five days, and it is almost certain that they will remain in Homestead for that period and probably longer.

It is the almost general belief here among persons interested that Welhe and Brennan failed to accomplish their mission. They went directly from headquarters to the railroad station and took a train for Fittsburg. They did not see any of the local leaders either before or

after the conference.
Samuel Burkett, James Flanagan, Syl-Samuel Burkett, James Flanagan, Sylvester Critchlow and Anthony Flaherty, the four men accused of murdering Pinkerton men in the battle of July 6, are believed to be in Homestead. No attempt has been made to arrest them by Pittsburg constables since last Monday.

The Carnegie Company has decided to evict the Hungarians and Poles who occupy the 25 company houses on Shanty Hill just back of Gen. Snowden's headquarters. The writs will be served to day, and these tenants will then have ten days in which to move. The heads of these families are day laborers in the mill, and are now on strike.

Just what will become of these families when they are thrown out of doors is not known, as there are not 25 vacant houses in Homestead which they can obtain. The company intend to use the houses for nonunion men, as they are within the lines of Camp Black and will be safe from mol-

estation as long as the military remain.

A report reached Homestead this morning that Andrew Carnegle had decided to sail for America and take a hand in settling the present difficulties. Supt. Three hundred strikers, formerly of the mechanical department of the Homestead mechanical department of the Homestead works, have secured work in laying and grading the tracks of the Pennsylvania railroad at Millvale, near Pittsburg. The railroad company applied for hands in Homestead and a notice stating that 300 men were wanted was posted at the headquarters of the locked-out mechanics and laborers. Applications were brisk and no difficulty was experienced in securing the

requisite number.

Most of the men were of the poorer class of Poles and Slavs.

There is only a slight increase in the Carneries There is only a significant signs of activity around the Carnegle mill to-day. Hugh O'Donnell and his six associates for whom warrants were issued, had no trouble in evading arrest, while at the same time, with exasperating coolness they deliberately shoved themselves under the noses of the constables so anxious to take possession of their person. It was given out by Attorney Cox Wed-

jurisdiction at this stage over their movements and that they should go forthwith to the Aldermen and surrender.

The two men then departed.

They had gone but a few steps when they were met by a reporter and stopped a moment to explain their mission.

"Won't you gentlemen kindly step over to my office!" said the magis-trate.

'Certainly," replied O'Donnell. "That's

what we are here for." The trio proceeded to the private office of the magistrate, where a hearing was waived; the committments were made out and in five minutes Constable Webber, looking as if he had achieved the victory of his life, had delivered the men for safe-keeping to Warden McAlease in the County Jail.

The General was very strong in expressing his conviction that legislation should be had that would cause the disbandment of the Pinkertons and the prevention of such riots hereafter. corted a Bypamite Plot. Panis, July 22.-It is asserted upon reliable authority, although the police claim to know nothing of the report, that an Anarchist plot has been discovered to destroy the Bourse and the Palace of Justice with dynamite.

It is known that ever since the execution of Ravachol the authorities have been keeping a vigilant lookout for any attempt at outrage. It is known that Ravachol up to the moment of his death expected that an attempt would be made to resoue him, and it is believed that he had secret information to that effect from his fellow-Anarchists in Paris.
